NOTICE TO Property Owners

During the past few days I have had some of the best houses and apartments in the City listed with me and have met with most encouraging success in obtaining satisfactory tenants, in many cases without any loss of time.

The renting season will soon have passed and I feel that it will be to the advantage of property owners to lose no time in listing their vacant houses and apartments.

The small commission that I ask amounts to only a little more than a fortnight's rental on a yearly basis and I can usually obtain a tenant much more quickly than can be done by property owners themselves. In addition I attend to all details in the matter of showing the properties, investigation, leases, etc.

The following properties are worthy of special attention:

One of the most desirable tenaments in the City containing 6 rooms and bath. Closed in balcony. Continuous hot water and all reasonable decorating and improvements to make the apartment comfortable for a good tenant.

TORONTO, Oct. 6 —(C P)— The advance of stock prices that set in with the evaporation of the war scare continued today with industrial shares figuring prominently in the proceedings. Several new highs for the year were posted among the leaders and a few changed hands in heavy volume. Base metals and western oils also advanced while the golds closed lower by .17 in the index under profit-taking.

Three leading base metal issues, International Nickel, Noranda and Hudson Bay, sold at their highest prices of the year and Noranda held 1 1-4 of the gain. Nickel and Smelters held small fractions and Hudson Bay closed unchanged. The last hour brought a moderately soft tone, resulting from profit-taking in which practically all groups shared. Waite-Amulet backed down to 7.35 for a net loss of 35 cents and Ventures lost 10 cents. Eldorado and Mining Corporation turned heavy.

In the last profit-taking Abitibi preferred's early gain of 3 1-2 was sliced to 1-4-point. Abitibi Common traded 12,000 shares and closed the minimum fraction up.

The big golds, Dome Lake Shore and McIntyre took losses up to a point or more and among the cheaper yellow metal issues recessions were limited to a few cents.

O'Brien, Moneta, Pickle Crow, Uchi and Hard Rock declined 5 to 10 cents. A firm tone was maintained by Little Long Lac, Pamour, Powell-Rouyn and Wright-Hargreaves.

In heavier trading the western oils recorded minor gains which were shaded slightly in the final week spell. The close was up for CalgaryEdmonton, Anglo-Canadian Calmont, Home, West Turner Pete Dalhousie and Vulcan.

Profit-taking Follows Early Market Rally

(By FREDERICK GARDNER Associated Press Market Editor)

NEW YORK, Oct. 6—(AP)— The Stock Market was jolted by profit taking today after a strong forenoon buying wave had swept most leaders into new high territory for the past year with gains running to more than 3 points.

While small improvement predominated at the close, many stocks still holding at peaks for the past 12 months, a number of Steels, Motors, Rubbers and Rails were behind minor minus signs.

Traders were still optimistic, brokers said, as signs of improving business continued and the move for greater co-operation between Government and industry acquired headway.

The list boiled over in the forenoon. In the opening hour blocks of 1,000 to 4,000 shares changed hands and the ticker tape frequently was behind as much as 3 minutes. Traders soon began to cash in, though, as it was realized prices had risen in seven out of the last eight sessions, one of the most spectacular recoveries since the mid-year "boom." Dealings were at a comparatively slow pace throughout the afternoon.

Gains outdid losses in the Canadian section. Bell Telephone advanced 3 3-4 points to 167 while gains of 7-8 of a point and less were listed by International Nickel, Brazilian, Marconi, Ford, Imperial Oil, Massey Harris and Shawinigan. McIntyre dropped 1 3-8 points to 46 7-8. Down fractions were Dome and Lake Shore Mines, Imperial Tobacco and Hollinger.

The Associated Press average, notwithstanding the belated setback managed to emerge with an advance of .1 of a point at 51.1. This was a new top since Oct. 9, last year.

At that, according to analysts the market has yet to break through resistance levels sufficiently to indicate a sustained upward trend. Transfers amounted to 2,451,000 shares against 2,235,910 yesterday. The first hour's turnover accounted for 880,000 shares.
