He Suffered Agony In Wet Weather

Rheumatism Attacked Limbs and Body

He had been bothered with rheumatism for years. The pain in wet weather—to use his own expression—was "indescribable." But all that is gone now—thanks to Kruschen. Read this letter:—

"I suffered with rheumatism for years. I dreaded wet weather, for during such periods the pain was continuous and indescribable. To begin with, it was confined to my limbs, but in time I began to suffer as much agony in my body as I did in my limbs. When I began to take Kruschen Salts, I found it did me more good than all the other medicine I had taken put together. To-day I have peace and freedom from pain, even during wet weather, and can heartily recommend Kruschen Salts to anyone who suffers from rheumatism."—N.M.

Rheumatic conditions are often the result of an excess of uric acid in the body. Two of the ingredients in Kruschen Salts have the power of dissolving uric acid crystals. Other ingredients in these Salts assist Nature to expel the dissolved crystals through the natural channels.

DEAN S. C. CARPENTER TO VISIT CANADA

WINNIPEG, Nov. 17 —Announcement was made today by the advisory committee of the National Conference of Canadian University Students, that Dean S. C. Carpenter of Exeter, England, one of the leading figures in British religious life, is coming to Canada the end of this year as one of the chief speakers at the National Conference of Canadian University Students, to be held at Winnipeg, December 27-31.

Dean Carpenter is not a newcomer to Canada, having given several lectures in the Dominion. He has won many high distinctions in England. He is the youngest man ever made Master of the Bar, succeeding in that office Dean Matthews of St. Paul's. His books on church history and the relation of the idea of democracy to religion have attracted wide attention.

While Dean Carpenter is coming to Canada primarily for the Winnipeg conference of Canadian university students, he has been invited to lecture at Princeton, Boston and Drew Universities, Union Theological and General Seminary, New York, and Trinity College, Toronto. He will also occupy prominent pulpits in New York, Toronto, Washington, and Winnipeg.

ELMSDALE AND VICINITY

The annual meeting of the Elmsdale Women's Institute was held at the home of Mrs. A. L. Rennie on Nov. 2 with a large attendance of members and visitors. The following officers were elected for the ensuing year: Pres. Mrs. Bruce Currie; Vice-Pres., Mrs. James O'Brien; Secretary-Treasurer, Mrs. Heber Hardy.

The auction sale held on Mrs. John Gordon's premises on Nov. 3 was a decided success.

The many friends of Mrs. Gordon are sorry to learn of her intended departure to the United States.

The gravel pit in Plusville has closed down for the season and the employment on the highway has ceased.

A very successful whist and auction party was held in St. Lawrence Hall on Wednesday last under the auspices of the C.W.L. branches of Elmsdale and Alma. The prizes for whist were captured by Miss Irene O'Brien and Mr. Austin O'Brien. Those for auction were won by Miss Eileen O'Brien and Mr. Louis Dunn.

At the last meeting of the Junior Red Cross of Elmsdale School, it was decided that the girls begin sewing for the Crippled Children. We think this is very commendable.

The Y.P.S. of Wellington staged a very enjoyable comedy "Love a' la Carte" in Elmsdale Hall on Thursday last. The players acted their parts very capably and were rewarded by an appreciative audience.

We are sorry to hear that Mr. Ralph Wells is planning on making his home in U.S.A.

This week saw the departure of Messrs Gordon Sullivan, Fenton Howatt, Francis Bain and George Lawton to their respective homes in Summerside, Carleton, Cornwall and Pownal. These boys have made various acquaintances while employed in West Prince and will be greatly missed by many in this vicinity.

Mr. Ronald McKenna and Mr. Alton O'Brien were recent visitors to the city.

Mr. Leigh O'Brien recently spent a week-end in Pownal, the guest of Mr. George Lawton.

THE CANADIAN STORES LTD.

A True Story of a Motorist ... at 38° below

Gentlemen:
I am engaged in the taxi business here in Northern Ontario where we have plenty of starting troubles from November to March. A favorite by-word is "How did your car start this morning?"
In past years I have tried everything, even a blow torch under the oil pan with the usual results—time lost and all in.
Due to your XS-171 Hycap battery all this trouble has been changed this winter. I have a sedan which has to stand outside most of the time, and I must be ready to go at any hour of the day or night.
Last fall Mr. Parr of North Bay Auto-Electric told me about your Hycap battery, and assured me that if I installed one in my car my starting troubles would be over.

We experience sub-zero temperature here every winter; 30 and 40 below zero is not uncommon, yet I am now able to get started in a matter of seconds. My car is naturally equipped with heater, defroster and radio, which adds to the comfort and safety of my passengers, yet I seem to have plenty of power for starting. The temperature a few days ago was 38 below, yet I started in about ten seconds.
These details may not mean much to you, but if you lived up here, you would realize the necessity of having a good battery, especially in my business.
Yours very truly,
E. B. Willis.
Dated Jan. 20, 1937.
North Bay.

Nothing we could say about Exide Hycap Batteries could be more graphic or convincing than the letter sent us by Mr. E. B. Willis during the bitterest cold wave last winter and quoted above.

Exide Hycap Batteries are built for the heavier electrical loads of today's cars, providing extra high capacity for radio, heater, defroster, etc., with ample reserve for starting in any weather. The same Exide Hycap that can start your car morning after morning can be depended upon to deliver long unfailing service throughout every season.

Play safe and save money this season. Go to the nearest Exide dealer. Look for his Exide sign, the symbol of honest service. 75K

A Cough Won't Go Away Of Itself

Many people get a nasty cough and do not pay any attention to it, saying, "Oh, it will wear away in a short time," but even should it, serious injury may have been done to the bronchial tubes by the prolonged, harsh, racking coughing.

Too much stress cannot be laid on the fact that on the first sign of a cold or cough it should be gotten rid of immediately, as failure to do so may prove a serious matter to the general health.

Dr. Wood's Norway Pine Syrup has been on the market for the past forty-eight years, and we can recommend it as being one of the best remedies for colds and coughs you can possibly procure.

MISS AGNES S. FRASER, R.R. 4, New Glasgow, N.S., writes:—"I had a terrible cough. I used to cough a lot at night. I could not get rid of it. A friend told me about Dr. Wood's Norway Pine Syrup. It relieved my cough right away."

Put up by The T. Milburn Co., Ltd.

Loyalists Irked By British Action

LONDON, Nov. 17—(CP-Havas)—The Spanish Government tonight communicated its "profound displeasure" at Great Britain's exchange of commercial agents with the Insurgents.

Spanish Ambassador Pablo de Azcarate gave the Foreign Office a note protesting the decision to exchange agents with Salamanca. It stated that "whatever the limits and restrictions which may be imposed on its application, it implies abandonment of the policy of abstaining from all official relations with those in revolt against the legally established government."

(The Republican Government of Spain regards the Insurgents as "rebels" without international standing. A communique issued in connection with the exchange of commercial agents stated the British Government had extended no diplomatic recognition to General Franco's administration.)

Police Capture Two Escaped Convicts

SYRACUSE, N. Y., Nov. 17—(AP)—Syracuse police captured two of three escaped convict members of the O'Connell kidnap gang without firing a shot today and then launched the greatest manhunt in the city's history, close on the trail of the third.

John Oley and Harold (Red) Crowley were caught in a rooming house located on the fringe of the city's downtown business section after Ivan Whitford, rooming house janitor, informed police.
