Music

MAKES THE IDEAL GIFT

Shift to symphonic music that rests, relaxes, refreshes, gifts that are appreciated and enjoyed. Choose from our wide selection of music of the masters, the records and scores that your friends will like!

RECORDS

Great masters of the past and present, recorded by greatest artists.

Sheet Music

Today's top tunes in piano and instrumental arrangements, and classics that are ever popular.

Name your choice. We'll get it.

GUITARS

Growing more popular all the time one of these instruments makes a favorite gift for both young and old. We have a popular selection to choose from. It's a gift that is bound to please.

ALBUMS

Collections of hits of ...y and yesterday. If not in stock, we'll order it!

Music makes for good fellowship and fun, at parties, in family groups, at impromptu evening gatherings. Give musical Christmas gifts that may be enjoyed throughout the year.

UNION ROAD W. I.

The annual meeting of the Union Road Women's Institute met at the home of Mrs. Kestle Ross on Nov. 2nd. Meeting opened with Creed. Roll call was answered by eight members. Collection amounted to 65 cents. Six members paid dues. Minutes of last annual and last monthly meeting were read and approved. Correspondence was read and discussed. 1 sweater, 1 large quilt, 1 crib quilt were handed in for the Red Cross.

The secretary gave a report of Red Cross work for the year as follows: 25 pairs army socks, 4 long-sleeved sweaters, 4 pairs gloves, 9 large quilts, 5 crib quilts, 3 boys' suits, 1 dress, 1 blouse, 1 pair mittens.

The Institute members wish to express their thanks to Mrs. Archie Bruce for her generous donations which she has done for the Institute.

The $5.00 war certificate was received by the Institute members for their quilt which took first prize at the district convention.

The Election of officers for following year as follows: President, Mrs. Fred Carver; vice-president, Mrs. Everett Moore; secretary, Mrs. Lloyd Mellish; assistant-secretaries, Mrs. George Mellish, Mrs. Alex MacPherson; auditors, Mrs. Everett Moore, Miss Evelyn Ross.

Mrs. Fred Carver invited members to her lovely new home for next meeting, roll call to be answered by a Christmas recipe. It was decided to have an auction sale for our next meeting.

Meeting adjourned and a delicious lunch was then served by the hostess.

DANGEROUS TEA-PARTY

LONDON — (CP) —Three men who used an electric hotplate to boil water for tea in the midst of 49 tons of high explosive were fined £30 (about $135) each at a northwestern court.

Help the Young People To Health - Happiness

What a common sight to see a young person whose bloodless face and feeble frame are evidences of poor circulation and weakness where bounding health and rosy cheeks should reign.

Young people in such a condition are generally of an anaemic nature and require a preparation containing iron to improve the blood content.

Milburn's Health and Nerve Pills meet this requirement, as they contain three concentrated forms of iron of an easily assimilated nature together with other valuable ingredients indicated for building up the system and helping to improve the blood content.

Price 50c a box, 65 pills, at all drug counters.

Look for our trade mark a "Red Heart" on the package.

The T. Milburn Co., Limited, Toronto, Ont.

QUICKIES By Ken Reynolds

No. 5 Platoon: Cadet Sergeant Leo Doiron.

Rifle Practice

The following seniors have made a possible score in grouping: George Kays; George Brown; Noel Wilson; Paul Kays.

The following seniors have made a score of 20 out of 25 in grouping: William Soper; Bennett MacDonald; David Bentley; Adrian Peters; Don Anderson; Don MacLeod; George Tweedy; Lorne MacDonald; John Murnaghan.

The following juniors have made a score of 20 out of 25 in grouping: Alfred MacPhee; Elliott MacKay; Keith Wakelin; Everett Beagan; Wendell Barrett; Douglas Moore; Gordon McDougall; Joseph Gallant.

War Gases (Continued)

Throat and Lung Irritants:

Chlorine is a yellow-green gas which corrodes metals and rots clothing, especially in presence of moisture. It has a pungent odor, is two and a half times as heavy as air, and is non-persistent.

Phosgene is a colorless gas that smells like musty hay. It is three and a half times as heavy as air and is non-persistent.

Diphosgene and chloropicrin, both colorless fluids, are about six times as heavy as air and slightly persistent.

Eye Irritants:

K.S.K. is a colorless, heavy oil, and is persistent.

B.B.C. is usually in the form of a brown, oily liquid, has a "bitter-sweet" odor, is about seven times as heavy as air, and is very persistent.

C. A. P., a white crystalline solid, irritates the skin. It is just over five times as heavy as air, has an "apple-blossom" odor, and is non-persistent, as it is used in a particulate cloud.

BARBER SCHOOL

CANADIAN ARMY OVERSEAS (Maritime Provinces)

Wounded

N.S. and P.E.I. Regiment

Edwin Johnstone SAYS:

"Women and Children first." in the saving of lives in peril, is one of the noblest tenets of the British race. But many a man who would die to save his loved ones, leaves them unprotected to face the perils of life when he's gone. The taking out of Life Insurance is not heroic, but it does put "Women and Children first."

The Goodyear Research Laboratory, dedicated to scientific research, is believed to be the finest laboratory for its purpose in the world.

Out of Goodyear Research...

...A RUBBER LIFERAFT ...A BULLET-SEAL "GAS" TANK

...MANY SECRET DEVELOPMENTS OF WIDE POSTWAR USEFULNESS

...AND A CONTINUOUS STREAM OF TIRE IMPROVEMENTS!

This is a Goodyear Synthetic Rubber Tire!

Goodyear dealers have it . . . for eligible drivers only. It is the result of Goodyear's forty years' experience in tire-building plus Goodyear's specialized knowledge of synthetic rubber . . . gained through unceasing research and testing.

Since its foundation, at the turn of the century, Goodyear has carried on with relentless energy its quest for improvement in the making and application of better rubber products.

In the Goodyear Research Laboratory, skilled chemists and engineers with "shirt sleeve" imaginations, utilize all the skill, all the experience, all the knowledge Goodyear has acquired through more than forty years of working with rubber.

There is no waiting for the results of Goodyear research. Ideas and improvements, created by need, become practical realities in the laboratory. Then, tested and proven, in day to day service . . . they are incorporated into modern Goodyear products.

Spurred by war, many history-making products, born of Goodyear research, are serving the fighting forces of the United Nations. Some of these are illustrated below, some must remain secret until another day.

During the years that have passed, many Goodyear discoveries have been adopted as standard in the tire building field. During these years tire performance has improved immeasurably . . . tire costs have consistently reduced.

Goodyear continually reaches ahead of tomorrow to provide the best for you today. That is one reason why there was no delay in utilizing synthetic rubber to meet the needs of wartime. Goodyear was ready when the need arose. Long ago Goodyear discovered how to use this new material.

In today's Goodyear Synthetic Rubber Tire you get all the benefits that Goodyear skill and experience can put into a modern tire. If you are eligible for new tires . . . Goodyear is your best buy.

N67C

Rubberized Life Rafts, *developed by Goodyear, save the lives of aircrews when planes are forced down at sea. These rafts inflate in seconds with chemical gas released by a rip cord.*

Bullet-Sealing Fuel Tanks *for warplanes are another product of Goodyear research. When a bullet pierces the tank the puncture is automatically sealed, to eliminate the hazard of fire and loss of fuel.*

Dektred *is a new Goodyear "war paint" that provides a flame-proof, non-skid, weather-resistant floor and deck covering for ships, trucks and aeroplanes. It also has many potential civilian uses.*

Goodyear Pliofilm. *A transparent, water-proof, moisture-proof wrapping material with literally thousands of applications as positive protection for moisture sensitive products.*

LifeGuards, *another Goodyear development, replace ordinary inner tubes, provide positive blow-out protection. If a blow-out occurs, the LifeGuard carries the load, allows the driver to steer to a safe, sure stop.*
