JELLIED PEPPER RELISH.

This jellied pepper relish fills such a multitude of needs as a meat accompaniment, that we feel that no home should be without it. Mould it in very tiny attractive little glasses, so that it may be turned out whole for serving.

2 cups prepared red and green pepper
1 1-2 cups cider vinegar
7 cups granulated sugar
1 bottle liquid pectin

Wash the red and green sweet peppers, drain thoroughly and remove the seeds. Put the pulp through food chopper. using a fine knife. Drain pulp in a fine sieve before measuring 2 cupfuls, solidly packed.

Measure vinegar and sugar into a large kettle. Add the pepper and stir mixture over heat until it reaches a full rolling boil. Stir constantly before and during the boiling; boil hard for 2 minutes. Remove from heat and stir in liquid pectin. Then stir and skim by turns, for 5 minutes, to cool the relish slightly and thus discourage floating of the solids. Pour quickly into sterlized jars and cover at once with a thin film of hot paraffin. When cold, assure seal with additional hot paraffin.

FIRE PREVENTION

(Continued from Page 5)

by dirty or defective chimneys. Have the chimney cleaned regularly, and have all defects repaired.

Escape the danger of flammable liquid fires and explosions by keeping no gasoline in the house. Do dry cleaning with safe liquids or send the work to the cleaner. Never start fires with kerosene.

Notify the electric company of electrical trouble and the gas company of gas leaks. Replace "blown" fuses with new ones—not pennies. Avoid homemade wiring jobs. Don't look for gas leaks with a match.

Teach everyone in the family to be careful of fire, to watch stoves, fireplaces, electric irons and all other possible fire causes, and every day to remove old rags, papers and other rubbish.

Fireproof your home as far as possible by fire-safe roofing, fire stopping in hollow walls and partitions to stop the spread of flame, and a non-combustible basement ceiling.

Inquire of your fire chief, when buying a fire extinguisher, to be sure of getting the right kind. Don't hesitate to ask your firemen whenever you have questions on fire prevention.

Remember always where the nearest fire alarm box is and how to send an alarm. If telephoning, be sure the address is clearly understood. Use a neighbour's phone rather than one in the burning building.

Explain to everyone in the house what to do in case of fire, how to put out fire in clothing by wrapping in a rug or blanket, what to do when grease catches fire in the kitchen.

Safe life and property from needless destruction by fire by keeping the principles of fire prevention always in mind and never taking a chance with fire.
