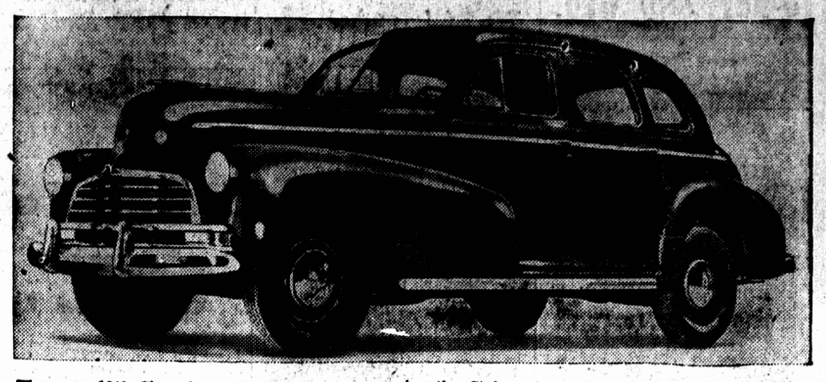
Chevrolet Announces Its 1946 Model



The new 1946 Chevrolet with its new styling features and mechanical improvements is a completely new car when compared to pre-war models. Appearance highlights of GM's entry in the low-price field include a new radiator grille, deeper bumpers and more widely spaced headlights. These give the Stylemaster Sedan, shown above, the appearance of ruggedness, while the door-action fenders maintain a handsome streamlined effect from front to rear. Cast alloy pistons, scientific cooling and a balanced fuel system ensure economical operation. Unitized Knee Action and shock-proof steering provide maximum comfort.
