## FINANCE

By Frederick Gardner
Associated Press Financial Writer

NEW YORK, Oct. 21—(AP)—Stock market leaders generally shed minor fractions today with a few "thin" issues showing wider declines

It was not a one-way street however and a number of specialties managed to finish on top.

The Associated Press average of 60 stocks was off .3 of a point at 44.4. A month ago it stood at 45.3. Trnasfers totalled 373,020 shares compared with 590,280 last Friday.

U.S. Steel, Bethlehem, Republic and Youngstown Sheet were unresponsive to the estimate of the American Iron and Steel Institute placing this week's mill operations at 94.9 per cent of capacity, up .5 f a point, a peak rate since the organization began publishing its stimates in 1933.

Du Pont dropped 3 1-4 and American Telephone was down 1 5-8. Lesser losers included Western Union, Santa Fe, U.S. Rubber, American Smelting, Eastman Kodak, Texas Corp., Montgomery Ward, United Aircraft and Union Carbide.

Up a trifle were N.Y. Shipbuilding, Nash-Kelvinator, American-Hawaiian Steamship, Westinghouse, Kennecott and Standard Oil of N.J.

## Sharp Decrease In 1940 Apple Crop

In a report on the fruit crop for 1940 issued at the end of September the Dominion Bureau of Statistics estimates the apple crop for all Canada at 3,722,400 barrels, a decrease of 2,069,500 barrels, compared with the 1939 bumper crop of 5,791,900 barrels.

On September 16 and 17 a gale blew over the Annapolis Valley, Nova Scotia, one of the principal commercial apple producing centres of Canada, and blew down about 600,000 barrels. Extensive damage was done to the more valuable varieties by that gale. Much of the fruit that withstood the high wind and remained on the trees was injured to some extent. It is now estimated that Nova Scotia will harvest only about 730,000 barrels compared with 2,300,000 barrels in 1939; New Brunswick 30,000 barrels compared with 75,000 barrels last year; Quebec 230,000 barrels in comparison with 337,000 barrels in 1939; Ontario 649,600 barrels as against 1,010,500 in 1939 and British Columbia, 2,034,800 barrels compared with 2,069,900 last year.

This year's pear crop for the Dominion is placed at 547,000 bushels a decline of about 30,000 bushels from 1939. Nova Scotia is expected to account for 22,000 bushels of this year's crop; Ontario, 237,700 bushels and British Columbia, 284,800 bushels.

The yield of plum and prunes in 1940, at 222,700 bushels is about 45,000 below the total output a year ago. Of this year's production 8,900 bushels will come from Nova Scotia; 59,500 bushels from Ontario, and 154,300 bushels from British Columbia.
