GRAIN

(Canadian Press)

CHICAGO, May 14—Swinging nervously over a range of about 2½ cents, wheat prices averaged lower today, with trading active but more divided than of late.

Conflicting factors were moisture relief southwest and persistent drought northwest. Weakness of securities had an additional disturbing effect.

Wheat closed fidgety ½ to 1 cent under Saturday's finish, July 84⅞-85, corn ⅞-1⅛ down, oats ⅛-½ off, and provisions unchanged to a setback of 10 cents.

WINNIPEG, May 14—Aided by export sales of 700,000 bushels of Canadian wheat, futures prices pulled themselves together after two day's faltering on the Winnipeg Grain Exchange today and moved briskly ahead for net gains of 1½ to 1¾ cents.

Lightness of pit offerings and continuation of unfavorable weather in Western Canada played a large part in the advance. May wheat closed at 70⅛, July at 71⅛ and May at 72¾ cents.

The export business, mostly worked out of Montreal took up all the slack in a market that appeared to have been well liquidated the latter part of last week.

Cable reported a much less favorable crop outlook over widespread areas of Europe. Some relief came to the U. S. southwest, but the spring wheat states continued to suffer in common with most of Western Canada.

MINING

(Canadian Press)

TORONTO, May 14—Weakness in the mining division of the Toronto Stock Exchange was discernable today mainly in the action of some of the cheap gold shares in which group losses up to 13 cents were registered accompanied by heavy trading. Group leaders closed irregularly lower in sympathy with unsteadiness on the New York board. Eldorado developed a weak streak, selling down to 2.25 from which level it recovered to 2.35 for a net loss of 15 cents.

Volume was a little better than 1,000,000 shares, the bulk of it in the medium priced and cheap golds Maple Leaf subjected to a selling drive, 150,000 shares coming out on a price retreat to 41½. The close at 43 showed a net loss of 12 cents.

MONTREAL EXCHANGE

(C. P. by Guardian's Special Wire)

MONTREAL, May 14—Despite the New York rally, securities on the Montreal Stock Exchange developed a lower trend during today's session with the losses ranging as high as four points.

The market was weak from the initial dealings and while the turn in Wall Street gave a better background, prices did not react from their losses. Trading, however, was not very extensive with approximately 4,200 shares changing hands.

Three new lows for the year were recorded during the day. Brazilian Traction eased to a new minimum at 10 but recovered to close unchanged at 10 1-8. Maple Leaf Milling dipped a point at 1 1-2 and Lake of the Woods was off 1-2 both new lows.

Banks were depressed with commerce losing 3 1-2 points, ex-dividend, at 155 and Nova Scotia and Montreal both three points. Royal Bank on odd lots declined 1 1-2 points.

Dominion Coal Preferred was off three points at 65, Sherwin-Williams two points, Steel of Canada 1 1-2 and Dominion Textile, Canadian Industrial Alcohol "B" and St. Lawrence Flour a point each.

International Nickel came back a certain extent. It opened at $26.50 and then touched a low of $25.50 only to close at 25.90, off 70 cents. Canadian Industrial Alcohol, Montreal Power, Hollinger, St. Lawrence Corporation, Dominion Bridge, National Breweries, Massey-Harris, Dominion Steel, National Steel Car and Simon Cigar were off fractions.

Penmans was the chief issue to show an advance, rising 5 1-4 points to 60, ex-dividend. Niagara Wire Preferred jumped up a point to establish a new high for the year at 36 while St. Lawrence Paper Preferred advanced a point at 24. Canadian Car Common was 1-2 higher and the Preferred 1-4.

Among the issues to close unchanged were Canadian Pacific Railway, Consolidated Smelters, Shawinigan Power, Bathurst, McColl-Frontenac, Power Corporation, Howard Smith, Niagara Wire Common and Winnipeg Electric.

Sales 14,296 shares; bonds $12,000.

Disabled Ship Safe In Port

(C. P. By Guardian's Special Wire)

LUNENBURG, N. S., May 13. — The fishing schooner Gilbert Walters was safe in port tonight after being picked up off Halifax with a broken rudder stock by the government coastguard Fleur De Lis. Captain John Walters, skipper of the banker said his men were fishing when the accident occurred Saturday and he was trying to make Lunenburg when the Fleur De Lis hove in sight a few hours later. In the schooner's hold are 400 quintals of fish. After the rudder is repaired the Gilbert Walters will be fitted out for the summer fishing trip.

HAT DRAWS DECIDE ELECTIONS

In two municipal elections within a week in England candidates who had secured an equal number of votes let their fate be decided by the drawing of lots from a hat. In Haughey, Lady Evelyn Balfor gained a seat on the local Rural District Council in this way. She and an opponent, W. Munn, had each received 191 votes. In the Wembley Council election two candidates in the Wembley Park Ward, R. O. Taylor and J. Williamson, each polled 781 votes. The returning officer had the casting vote, but preferred to put the names in a hat, and as a result Williamson obtained the decisive vote.

SICK NERVES NEED The "Vital 3"

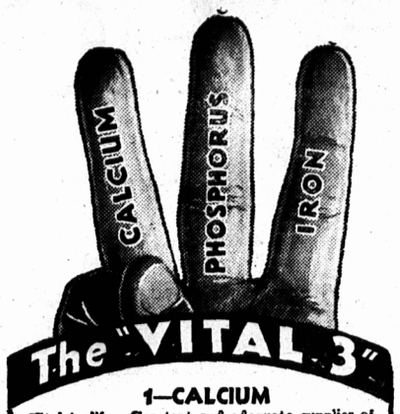
To Restore Nerve Force, Strength and Vitality

SICK, jumpy, irritable nerves are generally undernourished nerves—nerves whose stores of the "Vital 3" (calcium, phosphorus and iron) have become depleted. As each of your millions of nerve cells requires a certain amount of these three minerals in order to function properly, your sick nerves can't be made well until their supplies of the "Vital 3" are restored to normal.

Fellows' Syrup brings to you the "Vital 3" (calcium, phosphorus and iron) in a form that makes them easily used by the system and readily absorbed by the nerve cells. It took months to lessen gradually the amount of phosphorus in your nerve cells. It may need weeks to restock it fully, but you can feel an improvement in your nerve force in a few days after taking this nerve-food and restorative.

For over 60 years, physicians in 52 countries have prescribed Fellows' Syrup for nervous, run-down patients. Recent scientific investigations confirm the need for the "Vital 3" in the treatment of undernourished nerves. The Fellows' formula is "time-tested" and scientifically correct.

Your druggist has it in two sizes. Make sure the name FELLOWS is on the label. Then you'll be certain of obtaining the "Vital 3" and securing genuine results.



The "VITAL 3"

1—CALCIUM

Vital to life. Constant and adequate supplies of calcium are absolutely necessary to promote normal action of muscles and nerves, and to build and to preserve strong bones and sound teeth. Too low a supply of calcium causes over-sensitive nerves, irritated muscles, decayed teeth, and softened bones. Ordinary diets are more likely to be low in calcium than in any other mineral element.

2—PHOSPHORUS

Stands first among all substances as a nerve food. Necessary in regulating and maintaining the neutrality of the blood, and in sustaining its normal temperature. Also required in turning starchy foods (bread, potatoes, sugar) into energy. The body cells must have fresh supplies of phosphorus daily.

3—IRON

Every nerve and body cell and every tiny red corpuscle needs a supply of iron each day or weakness and loss of strength immediately result. If enough iron is not supplied each day the blood will take what it needs from the small reserve stores in the liver, spleen and bone marrow, thus weakening the entire body structure. Anaemia and thin blood simply mean insufficient iron in the blood.

BELGIUM DEFENCE PLAN ATTACKED

(A.P. By Guardian's Special Wire)

BRUSSELS, May 13—The controversy over whether Belgium shall prepare to defend her border to the last man had reached a point today which threatened an open break between the government and the army.

Authoritative sources stated Defence Minister Albert Deveze is ready to demand that General Ruyten, chief of the army staff submit to the government's plans for defence against invasion or resign his post.

The General, who claims the support of specialists in military tactics, objects to the government plan as "impractical," declaring the present army could not possibly defend the 160-mile eastern border over which German troops poured in 1914.

The government during the past 16 months has spent $50,000,000 in carrying out its plans for fortifying the border, and is committed to the "last man defence" policy.

General Nuyten and his associates stand out for the "fighting retreat" tactics adopted in the Great War, depending upon the British for aid.

The government plan was authoritatively stated not to involve an expectation of prompt aid from France in event of an invasion.

A "Hot One"

(C. P. By Guardian's Special Wire)

MACON, Ga., May 13—A mixup in telephone numbers caused a Macon woman to go thirsty—at least until she could make another call.

"Send one" came a woman's voice into the receiver of District Attorney T. Hoyt Davis' office telephone.

"One what?" asked a clerk.

"Oh, you know," was the answer. "I understand the price is going up and I want to get some more."

The clerk told the woman she had the wrong number and the receiver clicked instantly. It was said such calls had been received frequently because of a similarity between the district attorney's office telephone number and that of a bootlegger.

Woodcocks Nest And Eggs Found

SAINT JOHN, N.B. May 14—(C. P.)—For the first time in New Brunswick an attempt is being made to hatch woodcock eggs in an incubator. The nests of woodcocks, camouflage masters, are rarely found, and officials of a hatchery here are watching the experiment with unusual interest.

Four eggs were deserted by a mother bird after she had been struck by branches of a tree felled by woodsmen at Mispee. They waited three days for the bird to reappear but she had definitely deserted. The eggs were brought to Saint John in a round nest of moss.
