MESSRS. C. C. RICHARDS & Co.

Gentlemen,—In '98 I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wound had completely healed and my hand and arm were as well as ever.

Yours truly,

WRITING ACADEMY

CH'TOWN, P. E. I.

This College re-opened for the Fall and Winter Course on

THURSDAY, AUG. 14, PROX

Intending students will consult their own interests by entering as soon as possible after the date of opening. Last year we were most successful in placing our students in positions. To enable us to do the same this year they MUST enter early in the session. There are lots of splendid positions waiting for competent persons to fill.

Business men are acquainted with our course and method of instruction and apply to us for competent young men and women. Come and get a live education; one with some backbone in it. If, perchance, you have made a mistake in the past, try an education in which you will be rewarded as you exert yourself. The past is gone, the future is yours. A special course in Shorthand and Typewriting will be given as soon as the term begins. "Phonography What it is and What it Does," by Ben Pitman; also full particulars relative to the College will be cheerfully furnished on application to

Bathing at Manhattan Beach.

"Been in bathing?" asked the Republican politician of his friend the Democrat, as the latter took a seat on the sand of Manhattan Beach. The Democrat's bathing suit was dripping with brine, and he shivered a little when the sea breeze struck him.

"Bathing!" exclaimed the Democrat. "I was swimming. Women and children bathe."

"Well, swimming, then," said the Republican. "I have not been in this year, for the reason that I became thoroughly disgusted with this kind of sport last year. Why, I would dive off the raft out there only to go head first into a heap of banana skins. I would be swimming out some way from shore, and, getting tired, would grasp what I thought was a life-buoy, only to find myself entangled in a lot of old barrel staves coated with grease. Finally, on coming out of the water, I'd step on a tomato can and nearly cut my foot off. Oh, no! I've had enough of this sport.

"But your Tammany gang was running the city then," continued the Republican. "Now things are different. Commissioner Woodbury is street cleaning commissioner, and dumping refuse at sea has stopped. The water along the Coney Island coast is clean now. That man Woodbury is a wonder, I tell you. Why, instead of dumping refuse in the sea he is selling it wholesale, to be converted into commercial products. So much for reform."

"You always make politics out of everything," said the Democrat as he shivered again. "You would make politics out of a funeral, you Republicans would. But I must say, I like this man Woodbury. If he were put up for Mayor I'd vote for him. I believe that if you gave the man time he would stop sewers emptying into the North and East rivers, so the poor could bathe all along the shore of Manhattan."

"Clean water and clean government naturally go together," said the Republican.

And the Democrat shivered again.—N. Y. "Tribune."

HALIFAX, Sept. 10.—A despatch from New Glasgow states that the directors of the Nova Scotia Steel and Coal Co., today declared a dividend at the rate of five per cent. per annum on the common stock, viz., 2 1-2 per cent. for the half year.

SOME TYPOGRAPHICAL ERRORS

From a maritime paper our eagle-eyed "clipper" snips out the following and wants to know if the long word in the second line is spalt correctly.

"There are five large dancing stages, and on these the herpechorean art was indulged in by young and old to the strains of excellent violin music."

The Colonist is in for a libel action surely, having announced that "Professor McMillan and a party of thirsty botanists" has gone on an excursion, instead of "Professor McMillan and a party of 30 botanists."—Victoria, B. C., Colonist.
