Synopsis of Canadian North-West HOMESTEAD REGULATIONS.

ANY even numbered section of Dominion Land in Manitoba Saskatchewan and Alberta, excepting 8 and and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years age, to the extent of one-quarter section of acres, more or less.

Entry must be made, personally at the local land office for the district in which the land is situate.

The Homesteader is required to perform the conditions connected therewith under one of the following plans.

(1) At least six months residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

What Acetylene Is

Acetylene is without exception the best illuminant in the world to-day.

This gas is formed when Calcium Carbide comes in contact with water.

Carbide is a hard, brittle, dark-colored substance, resembling granite.

It consists of a fusion of lime and coke.

Lime and coke can only be fused in the intense heat of an electrical furnace, at a temperature of 4,000 degrees.

When you realize that it requires 1,800 degrees to melt iron, you will better appreciate the intensity of heat necessary to chemically unite coke and lime.

Calcium Carbide of high quality can be made only from pure lime and carbon.

The lime should be free from phosphorus, otherwise the illuminating power of the light will be affected.

What is known as 72-hour coke is mixed with the lime.

This coke is only obtained in districts where high grade steel is manufactured.

The best carbide means the best light.

You will have the best light if you use S Calcium Carbide.

We have some interesting facts that we would like to send you about carbide. Why not write for them to-day?

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore as 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

The point is this: that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal is endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.

2 in 1 Shoe Polish

is the best Shoe Polish made. It softens and feeds the leather and preserves alike the roughest boots and the finest ladies' shoes. As a labor saver it is a wonder. Gives an almost instantaneous brilliant black shine.

Every good thing has its imitations, but if you ask for 2 in 1 no honest dealer will take chances with his reputation by offering you a substitute.
