THAT'S THE RECORD OF THIS FLEET OF 1937

CHEVROLET *Trucks*

"Recently, as you know, we purchased from you ten 1937 Chevrolet trucks. I thought you would be interested to know that in a little over two months this fleet has totalled 46,350 miles. The average operating cost, including gasoline, oil, depreciation, repairs and insurance was 2.98c per mile! This driving, of course, was done in Winter weather.

Naturally, we are delighted with this record, particularly as the average running cost before replacing our truck fleet with Chevrolets was 5c per mile."
