We solicit your next work.

THE OAR THAT SAVES THE BARK
The key note of Community Interests is co-operation—co-operation between producer and consumer, between production and distribution. Unless there be such co-operation the community will be driven sooner or later on twin rocks of destruction. The chief medium of co-operation, the oar that drives or guides the bark on the waves of commercial prosperity, is the money produced in the community. If the money be used and spent judiciously among the business people of the community, the community will assuredly arrive safely and soundly in the port of Well-Content and Comfort. If the money be sent out of the Province it will be equivalent to losing the oars and sooner or later, probably sooner than later, the Province will strike the Rocks of Hard Times and Decay. Make YOUR money the oar of Community Interests.
