..*FARM FOR SALE—Only two miles from Montague on the north side of the river. Farm slopes southerly and contains 100 acres, 70 acres clear and in high state of cultivation, balance well wooded. Buildings in good repair. For further particulars apply to owner. A. J. Robertson, Montague 4-7-21

..*PLAY ENJOYED.—It is the general opinion that to Capt. Allen is due the honor of being the star performer in the Minstrel Show given in the Odd Fellows Hall at Montague, some few evenings ago, when over one hundred dollars was realized which we undertand goes for improvements to the town. Notwithstanding that the captain's once raven locks have given place to the frosty pow, that he still retains his former buoyancy is evident from the splendid exhibition of step-dancing he gave on that occasion, being the best ever seen in Montague. The captain is a real stage performer, and it was certainly kind of him in giving of his talent, and contributing so largely to the success of the show.J

..*EASTER SERVICES. — The Rev. Mr. Brown delivered a very impressive and eloquent sermon in the Montague Methodist Church, on Easter Sunday last. Special singing featured this service, the choir rendering most beautifully the anthem "Crown Him." It was greatly regretted that Mrs. Brown is still indisposed and was unable to be present. The sacrament of the Lord's supper was partaken of at the close of the service. J

..*FINE EXHIBIT.— Messrs. McGregor and McMillan the well known meat dealers, had on display for the Easter trade the finest selection of Easter beef ever seen in Montague, if not in Kings County. One a steer, fed by Mr. Daniel McGregor, twenty months old, weighed when dressed 670 pounds, also several others equally as good. The consideration which this enterprising firm show for the welfare of the public in keeping only the best meats on hand, accounts largely for the splendid patronage which they enjoy.—J.

DEMONSTRATION AGAINST JEWS

WARSAW, April 6.—During an outburst of public indignation in Warsaw today over the execution of Monsignor Butchkavitch, there was a forcible expulsion of Jews from a number of the city's cafes. The holding of a great demonstration at an early date is planned. All the newspapers, including the Socialist condemn the act of the Soviet Government in putting the preiate to death.

Whatever measures or representations the Polish Government may contemplate must await the return of Premier Sikorski, who is expected to arrive tomorrow with Foreign Minister Skyrziniski. News of the execution reached Warsaw during the absence not only of the Premier and the Minister of Foreign Affairs, but also while President Wojciechowski was out of town for a vacation period.

AN EPIDEMIC OF VIOLENCE IN FAR NORTH

REGINA, Sask., April 6.—"An epidemic of violence" has broken out among the usually kindly and docile Eskimos, according to the annual report of the Royal Canadian Mounted Police for the year ending September 30, 1922, issued at the headquarters here today.

"It is unfortunately necessary to report a large number of crimes of violence among the Eskimos," says the report. "At present we have under arrest on charges of murder or related crimes no fewer than nine of these people, three at Pounds Inlet, (on the northern coast of Baffin Land), five at Herschell Island, and one at Tree River. The number of deaths involved is thirteen and of these three are white men. In addition several other murder cases are under investigation, but arrests have not yet been made. In the summer of 1923, two courts will proceed to the Arctic regions to thy these cases, one to Ponds Inlet and the other to Herschell Island."

As good a wood insulated battery as can be made

Willard reputation as the leading battery builder was originally established with wood-insulated batteries, and these Willard Batteries are better today than ever.

They sell at prices within any car owner's reach. You can't buy a thoroughly reliable battery for less.

In every respect, except insulation, these Willard Wood-Insulated Batteries are identical with Willard Threaded Rubber Batteries.

The insulation is the finest that can be made with wood.

—and the only battery with Threaded Rubber Insulation

Adopted by 135 car builders though it costs them more, and in great demand among car owners for replacement.

Meets the needs of cold weather driving as no other battery can because it has more power to start a stiff engine and is less likely to freeze.

Lasts longer; cuts out a $10 to $12 bill for reinsulation; doesn't need to be recharged so often; is less likely to suffer from the effects of overcharging and has added advantages over any other battery that's built.

For Radio—Use Willard A and B Storage Batteries

There's a complete line of Willard Radio Storage Batteries at a wide range of prices, and every battery especially designed for it's particular job.

Willard Radio B Batteries cut out battery noises, last for years with only an occasional recharging and have many other advantages.

Willard A Batteries maintain their voltage, making frequent retuning unnecessary, and have unusually long life.

Ask the service station man for the free booklet, "Better Results from Radio" or write direct to us and we will send it to you.

"Hobson's Choice"

LONG ago Toby Hobson kept the only horses for hire in Cambridge. It was his rule that customers had to take the horse nearest to the door whether they liked it or not. So "Hobson's choice" came to mean—"Take this or none."

Don't be satisfied with "Hobson's choice." Through the advertisements you have a chance to compare and select almost anything you want or need. They offer you the world to choose from.

Advertisements are an accurate index of what other people are buying, selling, wearing, eating, doing, learning; of what the world of industry is accomplishing for you and how, where and by whom it is being accomplished.

It's a good habit to read the advertisements.
It's a profitable habit, too
