YESTERDAY'S STOCK AND BOND QUOTATIONS

MARKET GOSSIP

(By John L. Cooley, Associated Press Financial Writer)

NEW YORK, July 22—Security and commodity markets profited by the new urge to speculate for the advance today, the result being a rather general rise in prices.

Railroad stocks and bonds quite naturally assumed leadership on the stock exchange, for Wall Street was attracted by approval of the Eastern Trunk Line merger plan by the Interstate Commerce Commission even if actual consummation may be some distance away. Oils also made a bid for favor.

Shares closed somewhat under the best, with net gains of a point or so fairly plentiful. It was the most active session since early June when the market responded to announcement of the security-buying corporation sponsored by leading banks, and the net advance, averaging about a point, pushed prices virtually back to the top of that rally. Sales totalled 1,444,905 shares.

Rails stocks were hardly buoyant, although many carrier bonds earned that description. Santa Fe, Union Pacific, Chesapeake and Ohio, Baltimore and Ohio and Delaware and Hudson stocks forged ahead a point or two before meeting much opposition; some preferred equities in the transportation division did considerably better. On the strength of this showing short covering appeared elsewhere, giving maximum boosts of 2 to 3 points to American Telephone, U. S. Steel Preferred, People's Gas and Auburn. Steel Common, American Can, General Electric, Union Carbide, Du Pont, Atlantic Refining, Standard Oils of New Jersey and California, Woolworth, Consolidated Gas and North American were up from a fraction to a point net.

Montreal Market Sidelights

(Canadian Press)

Trading interest broadened still further in today's session of trading on the local exchange, and values generally exhibited a buoyant mood in a slightly broader and more active list. A number of important and far-reaching factors have contrived to make a very important change for the better in sentiment of late, and the development of the current buying movement in Canadian stocks, on the revival of confidence, has found few stocks for sale at current levels. The very important improvement in bond prices in recent times has been of tremendous importance to financial sentiment, and has found its impulse in a number of developments in the international stuation that promise much in the way of constructive results. Encouragement to the local market yesterday was also provided by an improved market in Wall Street, which shook off its recent dullness and advanced under the influence of a number of favorable developments, the most important of which was the I. C. C. decision with regard to eastern railways.

The close here in a slightly more active list, found gains in excess of losses by 21 to 9, while the average price of twenty stocks advanced .24. The index at today's close was over three points above the year's low, recorded on June 2, and representing a gain of approximately 23 per cent.

MONTREAL, July 22—By the Canadian Press)—Montreal Stock Exchange listings held firm today the majority of issues recording gains from fractions to a point or more. Losses from fractons to a point were spread throughout the list, however, and the market showed a slightly weaker trend in the last few minutes of trading, several stocks closing below their highest points for the day. A large number of issues were traded in, but volume was moderate.

Wall Street furnished a favorable influence with strength in oils and rails the feature.

Canadian Pacific Railway reflected the firmness in New York rails by advancing ⅝ to 13⅝. C. P. R. together with Dominion Bridge, Consolidated Smelters, International Nickel and National Breweries furnished the better part of the day's turnover

Bridge was strong again today and closed at 17⅞, up ⅝. Smelters lost ½ at 50½. Nickel was up ⅛ to 6½, and National Breweries was a point higher at 16. The preferred stock of the latter issue appeared at 25, unchanged from its last sale.

Canada Cement issues were a strong spot. The common sold at 6, up 1⅛, where it closed. The preferred was four points higher at 40, a new high for the recovery movement.

Abitibi Power and Paper lost 25 cents to 75 cents, Brazilian Traction was up ⅛ to 9⅞, Canadian Car was up a point at 6, while Car Preferred held steady at 15, Steel of Canada gained half a point to 18, General Steel Wares moved up ¼ to 4¼, Massey-Harris was up ⅝ to 4¼. Power Corporation lost ¼ to 8¾ and Shawinigan Power was off ½ to 12¼.

In the bond section Montreal Power debentures were up ⅛ at 40⅛. Victory Loan 1934 changed hands at $101.30, up 20 cents.

Total sales were 15,408 shares and $81,450 bonds.

The pound sterling closed at 4.0706 and United States dollars at a premium of 14⅝ per cent.

TORONTO, July 22—(By the Canadian Press)—Reduction of the quarterly dividend rate from three to two and a half percent was made today by the Bank of Commerce, declaring the dividend for the third period, payable September 1 to shareholders of record July 31. The reduction follows similar moves by the Bank of Montreal, Royal Bank and Bank of Toronto.

Grain Market

(Canadian Press)

WINNIPEG

WINNIPEG, July 22—Buoyed up by strength in outside markets and a stronger stock market wheat overcame a fractional slump at the opening to close ⅝ to ¾ higher today.

July closed ⅝ higher at 54⅝ while October and December each gained ¼c to close at 57⅝ and 58⅝ respectively.

The market was a drab affair during the early phases. Following a decline at the opening traders appeared to be content to hold aloft and wait for a lead from "outside." Chicago took the initiative after midsession and the market here responded with a smart rally.

Weakness at the start was attributed to a disappointing Liverpool cable and a lack of export demand. Offerings thereafter were on the light side. With the aid of an upturn in the market to the south and firmness in United States stock markets prices moved fractionally over the levels of the previous close.

Exports of wheat from the Southern Hemisphere were again with shippers holding back as the result of unfavorable crop conditions. Russia reported winter wheat crop conditions on July 10 mostly average. No mention was made of spring crops but it is reported drought exists in these areas.

Slow trade featured cash wheat and coarse grains with prices generally unchanged.

CHICAGO

CHICAGO, July 22—Enlarged buying on the part of commission houses and speculators gave a hoist to grain values today, especially in the late dealings.

Purchases broadened owing largely to recent advances in securities, sugar and livestock. Several brokerage firms issued statements suggesting that government financed holdings of domestic wheat were commencing to lose effect as a market guidance.

Wheat closed firm, ¾-⅞ above yesterday's finish, corn ½-⅞ up, oats a shade to ¼-⅝ gain, and provisions showing a rise of 12 to 17 cents.

BONDED WHEAT

NEW YORK, July 22—Bonded wheat closed steady. Close: July 40¼; Oct. 53¼.

PROVINCIAL BOY SCOUT CAMP

The Provincial Camp, which closed on Wednesday, although not as large as last year, was considered by those in charge to be superior in quality and amount of scout work accomplished. The camp was noted for its tidiness and keenness in test passing. The four patrols were in charge of the following:

Patrol leaders: — Hawks, Phil Stavert; Fox, Gordon Hyde; Moose, Cail Vinnicombe; Wolves, Lloyd Williams. The Honour Flag donated at daily inspection, was won three times by the Wolf Patrol, twice by the Fox and Moose and once by the Hawk Patrol.

During the course of the camp, four hikes of different types were taken. These were always interesting and much practice gained in tracking and sign reading.

Visitors day was very well attended. The program included the Investiture of four scouts, the presentation of badges, rope spinning demonstrations and an inspection of the patrol sites.

During the ten days of camp, 14 scouts passed the scout pace, 3 second class signalling, 8 Kims Game; 14, Fire making; 6 second-class cooking; 1, knowledge of compass; 2, Estimation (a First Class Test); 2, Tree Felling and 3, the 14 mile hike. Great credit is due Mr. McLean for his painstaking efforts. All present were pleased with the advancement made by the pupils in the past year. The teacher presented the following Grade VIII pupils with their Public School Certificates, viz.: Jean Halliday, Ruth Gillis, Mary McWilliams, Neil McWilliams.

Prizes were awarded by the teacher to those in first rank in each grade, also a prize to each Grade VIII pupil who passed the exams. Mr. McLean then gave a short summary of the school work of the year. Several of the visitors too made brief addresses expressing appreciation of the work done by teacher and pupils, also as being well pleased in retaining Mr. McLean for the coming school year.

The meeting closed by singing the National Anthem, after which ice cream and cake were served on the lawn by the ladies.

It is sometimes our own life that we would carry into the twilight. We cannot gaze steadfastly at the unsightliness of our own character. We would that the twilight shadow might fall softly upon our self consciousness, that we might not see ourselves as we are.—P. C. Ainsworth.

Films Subject Of Conference

OTTAWA, July 22.—(By The Canadian Press)—Not one of the least important subjects for discussion at the Imperial Economic Conference concerns the circulation of British films within the Empire. The film industry has produced its own company of expert advisers to the Conference. Several societies concerned with Empire relations long ago forwarded resolutions to the British Government urging the granting of preferences to British films by means either of import duty rebates or of an Empire-wide quota system.

This subject has already been under discussion by no fewer than three previous Imperial Conferences. Little constructive action has followed although it may appear now that conditions are more favorable for action. The passing of the Cinematograph Act of 1927, under which quota provisions were enforced, for instance, produced a considerable advance in the production of films in Great Britain. Something has already been done recently towards finding some means of giving a more British character to programmes shown week by week in Dominion and colonial "movie" houses. Ontario only recently stiffened the British-contact regulations for news reels.

The difficulties of granting preferences are not minimized by those who are most closely connected with the film industry. It is admitted by the British groups it would be easy to arrange this if there existed a regular supply of Dominion pictures to which they could offer advantages in the British "market."
