Grain Exports

NEW YORK, N. Y., Dec. 9—Bonded wheat closed weak.

CHICAGO

CHICAGO, Ill., Dec. 9—General liquidation in the grain market late today resulted from pronounced weakness of securities. More than 2 cents a bushel tumble in wheat took place, and rallies were unimpressive. Export call for Canadian wheat improved a little, business totaling 500,000 bushels, but nothing was heard of any overseas demand for wheat from the United States.

Wheat closed heavy, 2⅝-2¾ cents under yesterday's finish, corn ⅞-1⅜ down, oats 1¼-1⅝ off, and provsions unchanged to 12 cents decline.

WINNIPEG

WINNIPEG, Man., Dec. 9—(By the Canadian Press)—Continued indifferent support and lower quot[illegible] Liverpool held wheat prices to low levels for the third consecutive [illegible] in the grain pit here today. At the close values were 1½ to 1¾ cents lower than yesterday's close. December finished 1½ cents lower at 57⅝; May was 1⅝ cents easier at 61¼ to 61⅝ while July closed 1⅝ to 1½ lower at 62¼ to 62¼.

Scant export sales were not sufficient to offset the decline at Liverpool and reports of moisture over the winter wheat belt of the United States.

Selling here by Chicago inerests added to the weight locally while Bradstreet's estimate of North American exports this week, coming smaller than expected augmented the bearish news of the day.

Broomhall revised his estimate of world wheat surpluses and import requirements for the current season. Figures for Canada, Australia and the Balkans were increased while his estimate of the Russian surplus was lowered, leaving the figures unchanged from the previous estimate.

A preference for no. 2 northern featured cash wheat trade. Spreads were unchanged. Coarse grain trade was routine with prices easing in sympathy with wheat.

MONTREAL, Que., Dec. 9—(By the Canadian Press)—Heaviness continued today on the Montreal Stock Exchange with the interlisted stocks absorbing a large portion of the total turnover and showing declines at the close.

Further adverse developments in New York, including the dividend omission by New York Central Railway and announcement of a joint recommendation by President Hoover and Secretary Mellon for a tax increase, were factors in the continued decline in the larger market, which had its reflection here. Canadian Pacific Railway declined over a point while Brazilian Traction lost ½ and International Nickel ¼.

The sole advance of the day was shown in Consolidated Smelters which touched 74 before closing at 71, still up a point. Losses included: Canadian Pacific, off 1¼ at 16; Brazilian, off ½ at 10¼; Nickel, off ¼ at 9⅛; Massey Harris, off ½ at 3½ and Canada Cement, down ½ at 6½. Canada Car, Dominion Steel and Coal B, Steel of Canada, Vlau Biscuit and other fairly active issues closed unchanged.

In the bond department Victory 1934's touched a new low level at $99.75, down 25 cents, while Refunding 1943's lost 75 cents at $97.25, also a new low price. Total sales of bonds amounted to $17,100. Total sales of stocks were 5,704 shares against 5,310 yesterday and 17,755 on the corresponding day of last year. Brazilian Traction absorbed over 2,000 shares and Nickel over 1,500.

MONTREAL MARKET SIDELIGHTS

(Canadian Press)

MONTREAL, Que., Dec. 9—Increased activity in several of the interlisted issues was responsible for an increase in total turnover on the local exchange, but the market as a whole here remained an extremely dull and meaningless affair in today's session. The background furnished by surrounding conditions was certainly not of a nature to encourage a better sentiment on the local street, heavy selling directed toward the rail shares carrying the market in Wall Street generally lower; a further decline in wheat prices again proved depressing, while above it all was the highly unsettling news from Germany. In the local list, Brazilian and International Nickel yielded fractionally, while C. P. R., in response to the marked weakness in the carrier stocks in New York, sol doff over a point, charges elsewhere in the list were few and of a particularly narrow nature.

The satisfactory feature of the Dryden Annual report, is that bond interest has been earned by a moderate margin. As could only be expected, in view of conditions prevailing adverse to business as a whole and doubly so in the pulp and paper industry, earnings for the fiscal year show a sharp drop, net revenue of $88,137 comparing with $189,200 in the preceding year. This present is the third report since the company was removed from receivership, and in the matter of balance sheet position, shows little retrogression. Working capital holds around the three-quarter million mark, and other items show unimportant changes from year to year. The sharp drop in earnings made further provision for depreciation reserve impossible. This stands at the fairly high figure of $1,012,846, against total assets of $8,135,275.

At a special meeting of shareholders of Canadian Industrial Alcohol Company, ot be held following the annual gathering on December 15, approval will be asked of a by-law already passed by the board of directors. The by-law reads as follows: "The directors may from time to time (a) borrow money upon the credit of the company (b) limit or increase the amount to be borrowed; (c) issue bonds, debentures, debenture stock or other securities of the company and pledge or sell the same for such sums and at such prices as may be deemed expedient; (d) hypothecate, mortgage, or pledge the real or personal property of the company, or both, to secure any such bonds, debentures, debenture stock or other securities and any money borrowed for the purposes of the company. Nothing in this by-law contained shall limit or restrict the borrowing of money by the company on bills of exchange or promissory notes made, drawn, accepted or endorsed, by or on behalf of the company."

Dominion Stores, Limited, report sales for the five-week period ended November 28, 1931, amounting to $2,251,736, as compared with $2,343,978 in the corresponding five-week period of last year. Total sales for the calendar year to November 28 amounted to $23,218,445, as against $22,046,756 in the corresponding period of 1930.
