EXPERIMENT TRIED WITH MACKEREL

Since the close of the lobster season on the north side of the province Mont and Cecil Hutt of Alberton South have been engaged in a new experiment for the area, seining for mackerel. Catches as high as 31,000 pounds have been landed in a single day ranging down to 9,000 but on many days none at all when a "school" of mackerel cannot be located. On sighting mackerel breaking the surface one of the two boats required for the job circles the area, paying out the seine which reaches a depth of eight feet of water. The net is then drawn in from the bottom, catching everything within the huge circle. The large net cost approximately $3,000 and the mackerel are bringing about three cents per pound loaded on a truck for shipment to the mainland. Total catch of 14,000 pounds is shown being unloaded at Alberton wharf.

NEW YORK

NEW YORK (AP)—The stock market Thursday put on another uncertain performance. Late selling brought a loss. Trading lagged.

It was the third straight session in which more stocks declined than advanced.

Steel moved higher in early trading because of hints of a price increase, but they erased their gains, some taking losses.

Wall Street seemed discouraged about prospects for seeing an end to the General Motors strike this week. Opinion was that it would drag on at least to early next week.

A lower price trend prevailed among tobaccos, building materials, electronics, aerospace stocks, electrical equipments and nonferrous metals.

Autos, airlines, chemicals and many other groups were mixed.

The Dow Jones industrial average declined 3.37 to 872.00.

Sunshine Mining was the most active issue for the second straight session and took a loss of 1⅞ at 31, following the previous session's decline of 2⅞. Turnover in the stock was 170,400 shares.
