WEAK HEART SYSTEM WAS RUN DOWN

When the heart is healthy and performing its functions naturally, it should beat regularly seventy-two times a minute without causing its owner the slightest inconvenience or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm.

The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers

MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, Sault Ste. Marie, West, Ont., says: "I have been troubled for four or five years with weakness, and run down system. My feet were always cold and I felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued their use until I had taken twelve boxes and I am now well."

Price 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics.

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

"James B. Duke, the tobacco king of Long Branch, New Jersey, recently claimed in an interview that he had spent more money in advertising than any other living man. He said that the figures would reach fifty million dollars.—Newspaperdom.

Yet James B. Duke is to-day, one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in this age of advertising is afraid to invest my money in publicity will never accumulate a fortune. —Record.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore as 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,00. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

The point is this, that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons. They have a right to know how completely their favorite journal is endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.

SUNSHINE FURNACE

NOT SHAKING. JUST A GENTLE ROCKING OF THE LEVER.

Shaking is a hard, back-breaking exercise, peculiar to common furnaces, while you can stand erect at the Sunshine—and moving the lever, to and fro, about half the length of your arm, a few times, is mere play. A child can easily do it.

Grates of the Sunshine are in two sections—right and left. By gently rocking the lever, a few times, the ashes are released from the right. Repeat the operation on the left and the ashes from that side drop into the ash-pan, too. You couldn't wish for anything easier than the Sunshine Method.

When this lever is not in use it can be disconnected from the grates and the opening capped. But when connected it fills up the opening so snugly that no dust from the falling ashes can escape.

Every detail is thought of on the "Sunshine"—that's what makes it the best.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.
