IN MEMORIAM

MR. ROBERT EDWARDS

The death occurred in Vancouver, B.C., on Wednesday last of Robert Edwards, a native of North Wiltshire, P.E.I. He had been living in Western Canada for the past thirty-one years, locating at Arlington Beach, Sask., in 1903. He removed to Alberta in 1918 and owing to failing health sold out his interest there in April 1932 and went to live at Fredericton. In November of that year he went to Rochester, Minn., for a very serious operation on his head. He rallied for a time but never fully recovered. Among his surviving relatives is a brother, Edwin Edwards, at North Wiltshire.

MRS. JOHN S. PARKMAN

The community of Brackley Beach was saddened to hear of the death of Mrs. John S. Parkman. Although the deceased was in failing health for some time, her sudden death was a great shock to her family and friends. All the medical skill and kind nursing provided was of no avail and her gentle spirit passed peacefully away Sunday, March 4, 1934.

The deceased was 67 years of age, youngest daughter of the late Mr. and Mrs. William Ball, Union Corner, P. E. I.

There are left to mourn the loss of a kind wife and mother, her husband, five daughters and three sons, also two brothers. One son, John, predeceased her, a victim of the Great War.

The following are the sons and daughters: William, Hudson Bay Jct., Sask.; Leonard, Noura, Manitoba; Ivan, Brackley Beach, P.E.I.; Mrs. Geo. Cable, Hudson Bay Jct., Sask.; Mrs. Jessie Cudmore, Charlottetown; Mrs. D. W. Stewart, Sinclair Mills, B.C.; Mrs. W. Axworthy and Mrs. A. Axworthy, Wheatley River, P. E. I. Two brothers, Mr. James Ball, Summerside, P. E. I., and Mr. Robt. Ball, Pelly, Sask., also survive.

The funeral which was largely attended, was held from her late residence Tuesday, March 6th. Rev. Mr. Palethorpe conducted both services at home and grave.

The pallbearers were Messrs. A. Ling, L. Cudmore, A. Cudmore, M. Cudmore, L. Horne, W. Younker. Interment Winsloe North Cemetery.

PLEASANT GROVE INSTITUTE

The March meeting of Pleasant Grove Women's Institute was held at the home of Mrs. Arthur Wyatt, twelve members and seventeen visitors being present. The meeting opened by singing O Canada, followed by the Creed. Roll call was answered by "favorite cake." The minutes were read and approved. It was decided that a tray of chocolates be bought for a lottery. Report from Sick Committee was that one patient had been visited and fruit taken. The appointment of new committees resulted as follows: Sick, Mrs. Arthur Wyatt and Mrs. Alfred Morrison; School, Miss McDonald and Miss Marie Doyle; Lunch, Mrs. Wyatt, Mrs. Morrison and Mrs. John Hardy. A grab bag was then enjoyed and many useful articles drawn. $1.50 was made. The meeting closed with "Old Virginia." Lunch was then served by the hostess.

EMERALD SCHOOL

Corrected honor roll of Emerald School for February and March:

Grade X (Sr.)—1, Anna Smith; 2, Mary Croken; 3, Florence Mayne.

Grade IX—1, Mary Devine; 2, Wendell Mayne; 3, Iris McEntee.

Francis McAvinn—Principal.

FOUND DEAD

HELPVEDERE— Eng., April 13—William Neagle, principal of Erith Technical College, was found dead in a water tank in his garden by his wife who said he had suffered a nervous breakdown.

MONTREAL EXCHANGE

MONTREAL, April 12—(Canadian Press)—Traders yawned through the dullest day in weeks as values lowered on the Montreal Stock Exchange today. Lack of enthusiasm was reflected in a 10,000 share turnover, compared with 16,000 shares yesterday.

Security prices suffered more from a lack on interest than from selling pressure applied at any point. Continued uneasiness in Wall Street was a contributing factor to a hesitant and uncertain mood here. Although slight modification of the stock exchange regulation bill was a bullish factor, it was offset by discouraging reports from labor throughout the United States. Until labor difficulties are settled, dealers on the Street do not expect the market to show any inclination to take on the appearance of the days several months ago when trading was carried on at an active pace and prices shot higher in the face of steady buying.

Outstanding of the stocks closing with losses was Consolidated Smelters which exhibited a decline of 3 1-2 points at 166 while Hollinger was off 50 cents and International Nickel 35 cents, the former at 17.50 and the latter at 27.75. Canadian forgings "A" lost 1 1-2 points at 41-2 and Canada Cement preferred 3-4 at 45 3-4. Fractional losses were shown by B. C. Packers, Brazilian, Montreal Power and others.

Dominion Coal preferred recorded a gain of 5 points at 60 and Canada Steamships and Wabasso Cottons both rose a point. Dominion Bridge, Shawinigan and one or two more were also higher. Bank of Commerce and Royal Bank among the banks rose slightly while Canadienne Nationale recorded a small loss.

Sales 9,468. Bonds $20,500

Help Egg Production

Two factors that have most to do with the revenue from eggs are the prices received and the rate of production. Unfortunately, the price paid for the product is not always subject to the will of the poultryman, but the rate of production is in his hands and his alone. A much higher yield is within reach of any breeder who will give some care to his flock. A good male has been known to pay for himself many times over. At one of the Dominion Experimental Branch farms, a careful selection of breeders has resulted in an average increase over five years of 73 eggs per hen, the production being raised from 141 to 214. The Egg Laying contests also have demonstrated what is possible to be done in good farm flocks. Since the contests started in 1919 the average yield has increased from 120 to 178. The average production in the 1931-32 was 175 eggs and as this average was taken from a total of 4,370 birds, entered by 437 breeders in the 13 contests throughout the whole Dominion, the average may be taken as fair for the better classes of breeders in Canada. Further, the hatchery approval and cockerel distribution policies of the Dominion Department of Agriculture are at the disposal of those building up poultry flocks.

"JAY WALKING"

(By The Canadian Press)

LONDON, April 13—"Jay Walking" is the subject of special provisions in a bill now before the House of Commons. Safety zones are to be provided in busy thoroughfares for pedestrians, and those who ignore them will be liable to prosecution.

Universal Need Is Compassion Graduates Told

TORONTO, April 13—Because compassion for the individual—"the greatest elementary factor in Christianity"—is lacking today in much of the relief work, in the opinion of Rev. H. A. Berlis, the multitude is being fed, but not as Jesus fed it. Wednesday night in his thoughtful message to the members of the graduating class of the Presbyterian Missionary and Deaconess Training Home at the impressive exercises in Knox College Chapel, he spoke of the great need for this "compassion which is the heartbeat of Christianity—the key to our success in Christian work."

"With it not only would the multitude be fed, but they would be brought nearer to the heart of God," he said, pleading to his audience "to feed the multitude as Jesus did." "Jesus loved the multitude and served it, but that service was bought with a price—the price of sacrifice," he said.

"Compassion is a necessity," he said. "Without it our Christian Church and our Christian work will remain barren and unproductive." Mr. Berlis spoke earnestly on the great need existing today for such compassionate ministrations as the deaconess can give, in churches which are financially unable to carry the cost. He hoped there were in the Presbyterian Church generous individuals and generous congregations who would seriously consider financing the cost of deaconesses in such needy churches.

"Such service is given by individuals and congregation for missionaries and deaconesses abroad," he pointed out. "Why can we not do that at home?"

Members of the graduating class were: Miss Elizabeth J. Walker of Carnduff, Sask., who was awarded the general proficiency prize; Miss Marion H. McClive of Niagara Falls, Ont., and Miss Grace Irvine of Toronto, who received the essay prize. In a solemn service conducted by Rev. John McNab, the Moderator of Toronto Presbytery, Miss Walker was designated as deaconess for service in the congregation fo St. Paul's Presbyterian Church, Peterboro'.

First year students receiving awards and certificates were: Jean E. Forsyth of Alberton, P.E.I.; Mabel M. Booth of Toronto; Winifred A. Glen of Toronto; Margaret C. Ross of Pictou, N.S., and Ruth L. Heighton, B.A., of Vancouver, a special student, under appointment for the W.M.S.

In her comprehensive report, the Principal, Miss Winifred Ferguson, reviewed especially the years since 1926. In that period, sixty students had graduated, and of these fifty-one are at present in active service, twenty-eight in Cnada and twenty-three in foreign fields.

Rev. Mr. Berlis was in the chair, and the service of praise was led by the choir of Royce Avenue Presbyterian Church, with Bruce Jamieson at the organ. Those assisting in the service and in the presentation of awards included Rev. E. Foreman, Rev. J. Wasson, Rev. W. T. McCree, Rev. W. M. Kannawin and Dr. John Stenhouse.

According to prevailing estimates the Canadian sugar beet acreage in 1933 was about 2 per cent lower than in 1932.

AUTO BOARD ENCOUNTER NEW OBSTACLES

(A. P. By Guardian's Special Wire)

NEW YORK, April 12—The dove of industrial peace, placed over the automobile manufacturing centres by the White House, was poised for flight tonight as labor leaders expressed dissatisfaction with the National Automobile Labor Board set up last month to ward off strikes.

Plans for a meeting in Pontiac, Mich., Sunday of representatives of union auto workers from Michigan and Ohio were announced at Detroit. Wages and working hours will be considered.

A change in the attitude of employers in the tool and diemakers' industry, where strike threats affecting several thousand workers have been made, also was reported at Detroit. Matthew J. Smith, secretary of the workers' organization, said the employers' association had decided to permit members to enter into individual agreements with the workers.

A proposal for a general strike of 1,200 workers in sympathy down at Sandusky, Ohio, by the central labor union.

Efforts were under way toward settling a walkout of 800 rubber mold machinists at nine Akron, O., rubber plants.

A conference also was held at Cleveland in an effort to prevent the threatened walkout of 2,000 workers in the Tascarawas County, Ohio, clay district.

Nine hundred workers of the Newport Rolling Mill Company at Newport, Ky., were ordered back to work, ending a week long strike.

The Bingham stamping and tool company at Toledo, O., reported that 75 percent of the day shift was back at work, following a walkout of 400 employees Wednesday.

A strike at the Diamond Match Company at Barberton, O., remained in effect, with about 800 out. It began more than three weeks ago.

Ten persons were slightly injured and 60 men and women arrested at Germantown, Pa., when workers and strikers clashed at the reopening of the Bergman Knitting Mills, which had been closed three weeks because of labor troubles.

The Curtiss Aeroplane and Motor Company announced it would begin moving its plant from Buffalo to Baltimore unless its striking employees at Buffalo returned to their jobs.

Threats of Alabama coal operators to start a "civil war" in the bituminous fields rather than accept the NRA demands for a seven-hour day again were voiced at Washington.

SOURIS HIGH SCHOOL

Honor roll for March:

Grade X—1, Stewart MacAulay; 2, Bernard Mooney. 3, Thomas Holland.

Grade IX—1, James McInnis; 2, Leo MacDonald.

Grade VIII—1, Artie Wright; 2, Daniel Malone; 3, Elmer MacDonald.

Grade VII—1, Mervyn MacDonald; 2, Marjorie Poole; 3, Grace Poole.

Grade VI—1, Robert Poole; 2, Andrew Meurant; 3, Pearle Croucher.

Grade V—1, George Paquet; 2, Henry Holland; 3, Harold Poole.

Grade IV — 1, Clarence Gallant; 2, Joe MacDonald; 3, Everett Cheverie and Miriam Matthew.

Grade III—1, Marion McKenzie; 2, Muriel Richards; 3, Melvin Gallant.

Grade II—1, Lillian Poole; 2, Percy Poole; 3, Billie Pierce.

Grade I (a)—1, Percy O'Hanley; 2, Quentin Mossman; 3, Harold Lewis.

Grade I (b)—1, Edward Cheverie; 2, Ruth Yeo; 3, Erwin Grant.

Orchard Sod Treatment

A very interesting experiment in the comparison of two systems of sod treatment in orchard management has been in progress for many years at the Dominion Experimental Station at Fredericton, N. B. Forty three Fameuse and thirty-one McIntosh apple trees are under observation. In one block the grass is cut and removed as hay. In the other block, the grass is cut and left as a mulch around the trees. No additional mulching material of any kind has been added, and the fertilizer treatments have been identical on the two blocks. For the 14-year period, 1920-1933 inclusive, the average yields per tree are considerably higher under the sod-mulch system and clearly indicate the advisability of this treatment. With the Fameuse variety the average annual increase per tree has been 3.33 pecks, and with the McIntosh 2.76 pecks per tree.

Apply Minard's Liniment to cuts.

Scout News and Notices

The campaign for Associate Members of the Provincial Council is progressing satisfactorily and so far 128 members have paid their annual fee. The membership fees constitute practically the only means of keeping the Provincial Council in operation, concert and Apple Day funds being used for camps and Individual Troops. The complete list of members of the Council to date are: His Honour Lieut. Governor DeBlois, Hon. W. J. P. MacMillan, Premier, W. E. Bentley, M. L. Bearisto, Byron Brown, R. L. Cotton, Noel DeBlois, Sydney Green, A. W. Hyndman, R. E. Hyndman, G. F. Hutcheson, S. A. MacLeod, A. E. Morrison, L. D. Murray, Canon Malone, T. E. McNutt, T. W. L. Prowse, Murdock Ross, H. H. Shaw, F. W. Tidmarsh, Fred H. Trainor, Mrs. A. W. Weeks, Rev. G. C. Webster, Harry MacDougall, R. E. Mutch, H. Michahelles, R. A. Gordon, L. V. Longworth, D. A. MacKinnon, Miss Roberta J. MacKelvie, J. W. Boulter, Raoul Reymond, Miss L. K. Scott, Charles N. Murray, J. T. Martin, F. C. Chandler, Miss C. Maude Haslam, J. E. Sterns, J. C. Brodie, Dr. Pethick, R. C. Parent, Geo. T. Browne, Mrs. W. S. Stewart, Jas E. Harris, W. S. Grant, J. A. Brace, Donald Tinney, H. T. Colvin, W. T. Huggan, Mrs. J. D. Jenkins, J. O. Hyndman, R. P. Forsythe, H. G. Rogers, J. A. Webster, H. L. Palmer, Dr. Goodwill, D. R. Laird, Dr. B. C. Keeping, H. T. Holman, Mark Gaudet, Dr. E. T. Tanton, H. R. Hillson, R. L. McLure, Dr. Creelman, Mrs. M. P. Kenny, Jas. O'Halloran, A. B. L. Horne, Howard Murray, Rev. H. D. Raymond, Mrs. Wm. MacMillan, E. V. Bell, F. M. Stewart, G. W. Wakeford, Dr. E. E. Sinclair, Rev. R. M. Legate, H. J. Mabon, Ernest Worth, Capt. Kemp, Dr. J. H. Ayers, S. R. Pinlayson, Island Guardian Pub. Co., J. R. Burnett, G. E. Full, Miss Mary F. Hunt, W. R. Aitken, Mrs. W. R. Aitken, Mrs. C. W. Bourke, Harry Winchester, Mrs. C. H. Beer, Capt. T. G. Taylor, J. M. Roop, James J. Leightizer, W. W. Warren, Basil Kelly, Dr. J. A. McMurdo, John Anderson, A. Claude McKay, P. G. Clark, Dr. J. A. Clark, Hon. W. C. S. McLure, W. E. Champion, Mrs. W. E. Champion, Justice Arsenault, Mrs. H. C. Mills, M. F. MacDonald, V. T. Travers, Judge Stewart, Wm. MacLaren, Ada E. Harris, A. B. Cosh, Ruth Vinnicombe, A. V. Saunders, J. C. Cooke, Mrs. Ewen Campbell, A. H. Mould, Mrs. J. H. Hill, Donald McKinnon, Mrs. D. K. MacLeod, H. A. C. Scarth, Dr. J. A. MacPhee, E. P. Foley.

In addition to the above, two one dollar fees, and one two dollar fee have been received without a name attached. Will the senders kindly phone the Provincial Secretary so that credit will be given where it is due.

Camp Supplies

The Provincial office has just made the purchase of five large wall tents for the annual camping season. These with the new shelters and other supplies purchased last year will be a real boost to the camps. Indications are that there will be at least three Scout Camps in addition to the Cub and Rovgr camps.

Gilwell Training Course

New Brunswick Provincial Headquarters has again invited scouters from Prince Edward Island to attend the Gilwell Training Camp for Scout Leaders, which will be held near Sussex from July 16th to 20th. Any interested parties are asked to communicate with the Provincial Secretary.

Rovers

The Rover Scouts have been holding regular weekly meetings in their official den on Grafton Street. They wish to acknowledge with thanks the donation of chairs from the Provincial Boy Scout Past President, Mr. J. R. Burnett, and the gift of Rover books from the Provincial Boy Scout President, Mr. J. J. Leightizer.

Alberton Group

Mr. Henry McLean, Assistant Scoutmaster of Alberton Scouts, visited the city during the past week and brought news of Scout activities from Alberton. Regular weekly meetings have been held during the winter with from 15 to 20 present each night. In addition to regular Scout study, debates and hockey have also been popular.

Alberton also has a live Cub Pack at the present time and on Monday held a birthday party for Cub Larry Callaghan.

4th Charlottetown Pack

The new Pack at the Baptist Church is now well organized with Lorne Callbeck as Akela. Eleven recruits were present at the meeting on Monday night and are now about ready for Investiture as Cubs.

The Provincial Secretary visited the Pack at their last meeting and told the story of the Jungle animals. Akela, the old wolf; Baloo, the bear; Bagheera, the panther; Shere Khan, the tiger; Paboqui, the jackel, and Kaa, the snake.

Elsie (5th Charlottetown)

Twenty-six Cubs were present at the meeting on Monday night. Akela was welcomed after an absence of two months. She was pleased with the way Baloo and Bagheera had managed the Pack and found that excellent progress had been made. One item on the program included a very exciting game of balloon hockey, the two opposing teams being the Black Foot Indians and the Pug Nose Giraffs. The story of "the man who was left to mind the house" was told by Akela.

The Scouts of the 5th Charlottetown Troop held their weekly meeting on Tuesday with an attendance of sixteen.

St. James (3rd Charlottetown Troop)

Sixteen Cubs met for their regular meeting on Wednesday at 6.30 p. m. with Niall Burnett as Cubmaster. This Pack is making real progress and most of their members now have their full uniform. The neckerchief is the same colour as the Scouts and the jerseys are green to correspond with the green shirts of the Scouts. All Cubs who took part in the recent concert received $1.00 toward their uniform from the funds. It pays to be a Cub!

On Friday night regular weekly meetings were held by the Holy Redeemer Scouts, and St. Peters and St. James Scouts.

Dies On The Eve Of 36th Birthday

Sir Robert Peel, great-grand son of the famous English prime minister and husband of the Toronto-born stage star, Beatrice Lillie, died in London on the eve of his 36th birthday. (1) shows a recent photograph of Sir Robert (2) Lady Peel, better known as Beatrice Lillie, with her young son, Robert Peel, who now succeeds to his father's title, being the sixth to hold the baronetcy since its foundation in 1800.

Canned Salmon- From Soup to Salad

(BY BARBARA B. BROOKS)

"Thar's gold in them thar hills," but not very much to eat. The old prospector who headed his pack mules up the trail carried a grub stake for weeks or even months. If he carried his pack on a lone burro, he took with him only bare staples such as beans, flour, sugar, salt pork and coffee. With a larger outfit he added canned foods and selected those with the most food value in proportion to bulk.

At best, there was little variety in the menu or cooking. In the meat line canned salmon was an important item. Salmon cakes were varied with cold salmon for a change. It tasted mighty good out there in the open, but back again in the bright lights the prospector's first meal was sure to be sirloin smothered in onions. It would be a long time before he would order salmon loaf for his dinner.

In many homes, too, salmon loaf does not receive a warm welcome, because fish so often is salmon and this salmon usually appears in a loaf. This is truly unfortunate because canned salmon is a good nourishing food that can be bought in convenient form and kept on hand for ready use. With the advantages the present day housewife has over the batching prospector, salmon in the home can be a special treat, not a last resort.

Make a good beginning by buying the right kind. All varieties and grades are good food, but some are better suited for certain recipes than others. The label will tell you the kind of canned salmon you are buying. There are five species, Chinook, Red, Coho, Pink and Chum. As to quality these rank as follows:

First: Chinook Salmon, sometimes labeled King, Tyee, Quinnat or Spring Salmon. The spring catch is superior to the fall. The spring catch is often labeled fancy and the fall catch choice. Second: Red Salmon, other names being Sockeye or Blueback Salmon. Third: Coho, or Silver or Medium Red Salmon. Fourth: Pink or Humpback Salmon. Fifth: Chum, Keta or Dog Salmon.

A can labeled just Salmon is sure to be one of the cheaper grades. Such names as Alaska or Columbia River Salmon indicates the places where the fish were caught rather than the variety or grade.

You will find salmon in all grades in both half pound and one pound cans. It is usually wise to buy some of each size. There will be many uses for the smaller cans even in large families. If you feel that the price of the better grades is a little too high for your budget, there are some clever ways of extending the salmon with less expensive ingredients so that the cost of the whole recipe is quite moderate.

Salmon Salad

1 1-3 cups Red Salmon (1 half-pound can); 1-4 cup chopped celery, 1 tbsp. capers, 1-2 tsp. scraped onion, 1-2 tsp. salt, 1 cup corn flakes, 2 tbsps. lemon juice.

Have all ingredients chilled thoroughly. Flake the salmon. Remove bones and skin. Combine all ingredients and lightly toss together until well mixed. Add mayonnaise to make salad more moist if desired. Arrange on crisp lettuce which has been sprinkled with French dressing.

Salmon Chowder

1-4 lb. salt pork (diced), 1 small onion (chopped), 1 medium potato, 1 1-2 pound can salmon (flaked), salt and pepper to taste, 1 pint milk.

Saute pork and onion in a sauce pan until a light brown. Add the diced potato and salmon. Sprinkle with salt (if needed, and pepper. Cover with boiling water (use no more than necessary) and simmer until potatoes are tender, about 20 minutes. Add the milk. Heat thoroughly and serve at once.

Salmon Dressing

1-2 cup Red Salmon, 1 tbsp. chopped pickles, 1-2 tsp. grated onion, 1-4 cup mayonnaise, lemon juice.

Combine ingredients. Thin with lemon juice. Serve as a dressing for sliced cucumbers, lettuce or chopped cabbage. This makes a delicious appetizer salad to be served as a first course.

Salmon Roll

1 cup pastry flour, 2 tsps. baking powder, 1-4 tsp. salt, 2 tbsps. butter, 1-2 cup milk, 1 1-2 pound can salmon (flaked), 1 egg (slightly beaten.

Mix and sift dry ingredients. Cut in butter with two knives and add milk gradually. Place on well floured board and knead slightly. Roll into a sheet 2-3 as wide as long. Spread with salmon which has been mixed with the egg. Roll as jelly roll. Brush with milk and bake in a hot oven (400 F.) for 30 minutes. Serve with stuffed olive sauce. Serves 6.

Stuffed Olive Sauce

2 tbsps. fat (melted), 2 tbsps. flour, 1-2 tsp. salt, 1-4 tsp. paprika, 1 cup milk, 1-4 cup stuffed olives (sliced.)

Mix flour with seasonings and cook with melted fat to a smooth paste. Add milk gradually, and cook in double boiler until thick. Add sliced olives and serve very hot.

BERG MENACE IS GREATER

(A. P. By Guardian's Special Wire)

WASHINGTON, April 13—The biggest iceberg threat in years is drawing extra United States coast guard precautions to protect North Atlantic shipping lanes.

Lieut. Commander Everett H. Smith, a recognized authority, predicts about 630 bergs will cross northern ship paths between April and July. The average is around 300. Last year no iceberg of any size reached the shipping lanes but in 1929 a record of 1,000 was set.

The Cutter Mendota has been ordered by Rear Admiral H. G. Hamlet, Commandant, to sail from Boston to join the cutter General Green in studying ice movements in the North Atlantic.

Since the Titanic tragedy in 1912, an international ice patrol has been maintained during spring months through agreement with other nations. In some cases, bergs large enough to damage shipping have drifted as far south as Newport, R. I.

Already, coast guard officials say, North Atlantic shipping lanes have moved 60 miles southward, pending word from the service that the ice threat has passed.

AMENDMENT TO METALS ACT

(C. P. By Guardian's Special Wire)

OTTAWA, April 13—Purchasers of gold and silver and gold and silver plated articles in Canada will know the exact content of precious metals used in their manufacture, under an amendment to the precious metals marking act, reported today by the Senate banking committee, under the chairmanship of Senator F. B. Black.

The Australian Commonwealth

BRIGHT PROSPECTS

The New Year has opened with very bright prospects for Australia. In every branch of activity there are reports of an improved outlook. The wool situation is most satisfactory; secondary industries are improving, as is evidenced by the steady rise in the industrial share market, and retail trade, apart from the Christmas "boom" shows encouraging signs. Unemployment is slowly declining, and the Budgetary position in all States is far more satisfactory than four years ago. Still, there is a lot of leeway to make up before, to use a trite expression, Australia can definitely be said to be "out of the wood."

LONGEVITY

The expectation of life for a male infant born in Australia is 60 years, and for a female 66 years, according to the Federal Health Department. In 1890 a male infant in Australia could expect only 47 years, and a female 50 years. The senior medical officer, Dr. M. J. Holmes, considers that the increased expectancy of life is due to many factors, including better working and living conditions, and preventive medicine, notably in connection with tuberculosis. The death rate from "T.B." is little more than half what it was in Australia 20 years ago.

TALL AUSTRALIANS

Dr. Janet Greig, medical inspector for the Education Department in an address to the Medical Congress held in Hobart this month predicted that the time was coming when the excessive height of Australians would be highly inconvenient. "Already," she said, "doorways in trains and trams are too low for many men, and the average bed and ship's berth are becoming too short. For a long time I have been astonished at the amazing height of our adolescents of 14, 15 and 16 years of age, but in recent years it is the height of girls of 12 and 13 that is surprising."

SIR ROBERT GIBSON

The death of the Chairman of the Commonwealth Bank Board, Sir Robert Gibson, was a severe blow to Australia. Perhaps more than any other individual, he was responsible for the safe and sure line of national finance in the depressed years. A weaker man might have given way; a more headstrong and impetuous man might have lost the cause and created trouble by indiscretions. Sir Robert preserved an admirable middle course, and thereby won the confidence and respect, if not the affection, of the whole country.

Identify Body Washed Ashore

(A. P. By Guardian's Special Wire)

GLOUCESTER, Mass, April 13—A body washed ashore today on Thatchers Island was tentatively identified as that of Willis Richardson, a Nova Scotia fisherman reported missing a week ago by the Boston trawler Holy Cross.

Because of the heavy seas and gale it was impossible for persons who knew Richardson, a native of Indian Harbor, N. S., to visit the island and view the body, but telephoned information agreed with Richardson's description.
