MARKET GOSSIP

(By Johnston and Ward's Spcial Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., Aug 1—The market recovered from its opening weakness rather promptly yesterday and rallies until early afternoon. From then on to the close prices were mildly reactionary. The utilities provided the leadership with strength in the rest of the list selective. Some new highs were made, but the Dow Jones industrial average did not recover quite all the loss of the previous day. Volume was the same as reported when the spring peak in prices was made on Feb. 18th. Considering the volume the gains were not large yesterday but as long as evidence of liquidation pressure is absent the outlook is encouraging.

BANON'S MORNING LETTER

MONTREAL, Que., Aug 1—Prices yesterday opened generally lower in response to the bearish interpretation many traders placed on the report issued by the U. S. Steel Corp.

Early losses, however, were quickly recovered and the list surged forward to new highs on a volume of 1,910,000 shares for the entire session. I am still confident that this upward swing is not going to top off finally until great activity and generally higher prices are recorded.

Unless otherwise advised continue to hold existing positions, more profits will be added to those already accrued.

Utilities moved forward with exceptional vigor, including Electric Bond and Share, Public Service of New Jersey, North American and Consolidated Gas of New York, all of which you should be long of at various prices lower down. Consolidated Gas recommended again at the market near yesterday's opening, this time as a stock ready for an immediate advance, bounded up on broad demand to a brand new high of 29½ at the close. The issue was one of the outstanding performars yesterday and gives every indication of a further spurt. Continue to hold and buy more here.

Steel, which I told you repeatedly would not run into material resistance before it touched 44 moved up to a high of 43⅞. On further strength take half of your gratifying profits and hold on to the remainder. For the present no trader should be entirely without Steel.

Rail shares did not in general display as much vigor as other section of the list. I still believe, however, that this division has a further advance in prospect. Continue to hold present positions and at the market buy Southern Pacific, New York Central and Pennsylvania Railway. The general weakness which developed in the gold shares yesterday suggests that this division is in a position to resume its trend towards lower prices. Traders who have acted on my suggestions are in the comfortable position of a reserve available for the purchase of gold shares when selling in this division has terminated definitely.

BARING LETTER
Wednesday Evening

NEW YORK, N. Y., July 31—There is no gain-saying the fact that we got out of a number of stocks several points too soon. We did get you in at the bottom in March and again on June 1st, and on a number of stocks we got you out at practically the top, such as Loews, Wilson pfd, Corn Products and several others. On the other hand we got you out too soon of Westinghouse, where you could have made 33 points instead of 25 points, and on Chrysler you made about 28 points when you could have made 30 points. I was mistaken in expecting a general setback of 5 to 15 points, for while quite a number of stocks did react 7 to 20 points many of which we were long had no setbac worth mentioning at all. True, United Fruit and Bohn Aluminum reacted 20 points each, Corn Products is still down 7½ points from where we told you to sell it. Loews reacted six points after we told you to sell out, and Col. Pictures which we got you to sell short 78 to 79, sold at 70 today. Better take that profit which adds six or seven points more to the 70 or 80 points profit you should have taken on the long side, fortunately moderate short sales were advised in only three stocks, Amn. Tel and Tel. Westinghouse, and Chrysler at 57. We would not carry these shorts more than a point higher, but hold them if they do not make that additional advance.

Radio B reached 63¾ hold remaining half for 58 or 69.

Wesson Oil recommended at 33 and which we told you to hold for 42, sold about 41 today. Hold for about 44.

Western Union on which we took a big profit too soon, at 39, may be bought back if it sells off a point or two.

American Waterworks recommended below 11 closed 12⅝, if the Utility Bill dies in committee it will go to 35.

Phillip Morris sold about 12½ percent more cigarattes in July than it did in June, establishing another all time high record. It is cheap below 50 and should move very soon. Fairbanks Morse will do much better during the second half year than in the first and should be bought on any dip.

Worthington Pump rose a point since we recommended it, hold it. Texas Pacific R/y is still cheap around 20, Bohn Alum below 45, and Sears Roebuck, of which we also got you out a few points too soon, but with a good profit, may be bought back if it reacts near fifty. U. S. Steel recovered its early setback and business this quarter will be much better than in the second quarter.

MINING

(Canadian Press)

TORONTO, Aug. 1—Tired security holders continued to dump their stocks into the market today and the slow decline of recent weeks was carried further, the gold share index registering a new low mark for the year at 101.35. Losses, as usual, were not heavy, but coming on top of many similar minor recessions in recent weeks they begin to make the aggregate set-back appear important. Silver stocks were heavy also but base metal issues were inclined to hold, strong buying action in Falconbridge offering some encouragement. The miscellaneous mines index advanced .39.

The trade in Falconbridge of more than 5,000 shares was explained on the ground that the company was finding a ready market in Europe for all its metal. The price advanced 5 cents to $4. Sherritt added a cent and other base metals were unchanged. In the silvers Eldorado was sold in considerable quantity at 1.75 but it recovered 2 cents to 1.77 before the close, showing a net loss of 5 cents.

GRAIN

(Canadian Press)

WINNIPEG, Aug 1—The Winnipeg grain exchange started the new month on a cash basis today and commission houses operations were reduced to a minimum. The August future declined ⅞ cent to 84¾ cents.

Export of 500,000 bushels of Canadian wheat failed to offset a late 1½-cent recession at Chicago after local prices had held steady throughout the dull session.

Traders paid little attention to a conitnued flow of bullish crop news from North America and Argentina, reacting to private estimates of a 50-per cent reduction in wheat acreage of three Argentine provinces, Liverpool advanced.

The flurry passed, however, after a 1⅝d gain was boarded and the close was only ¼-⅜d higher. The reports said a total acreage of 14,300,000 the smallest in years, would be sown in Argentina, drought there was still unrelieved.

CHICAGO, Aug 1—Material setbacks in grain prices late today resulted largely from announcement that a good deal of Canadian wheat was being sold for import into the United States.

Some trade authorities took decided ground that domestic wheat prices had gone high enough. Further advances over Winnipeg quotations, it was contended, would send much Canadian wheat to Buffalo.

Wheat closed unsteady at the day's bottom level, 1⅛-½ under yesterday's finish, Sept. 93⅛-⅜, corn ⅝ off to 1¾ up, Sept. 77⅞-⅝. oats ⅝-¾ down, and provisions unchanged to 17 cents decline.

100 Yards In Nine Seconds Owens' Aim

(A.P. By Guardian's Special Wire)

CLEVELAND, July 30 — Jesse Owens' formers high school coach, Charlie Riley, has developed a new style of starting for the negro flash which he predicts may enable Owens to realize the ambition of all sprinters to do 100 yards in nine seconds flat.

Owens, Ohio State track star, already has equalled the record of 9.4 seconds held by Frank Wyckoff of Southern California and also equalled by Ralph Metcalfe of Marquette.

Preliminary tests of the new start already have enabled Owens to cut off one-tenth of a second for his first 20 yards. The new method, said Riley, is a combination of the standing position used by sprinters 40 years ago and the present kneeling position.

Riley said that with the new start Owens covers as much ground in seven strides as he did previously in eight strides.

"Since Owens always has had more trouble with his start than any other phase of his sprinting, it would seem reasonable to suppose that the dream of all runners to do the 100 in nine seconds flat is at least approaching reality," said Riley.

LOANS TO BROKERS

(Canadian Press)

WASHINGTON, Aug. 1—Loans on securities to brokers and dealers held by weekly reporting member banks in New York City amounted to $850,000,000 during the week ending July 31, representing a decrease of $30,000,000 for the week.

Heat Wave Strikes Spain

MADRID, July 31 — Southern Spain today suffered in heat of an intensity never equalled during the lifetime of most of its inhabitants. There was one death and numerous prostrations as the temperature soared to 126 degrees farenheit in the shade.

In some towns all work was suspended as people collapsed at their tasks. Ships stopped unloading at Alicante as dockworkers fell in their tracks under their loads.

Only Tourney Will Clear Air

TORONTO, August 31—(CP)—It will be grand larceny at the expense of the tennis public if somebody doesn't arrange a tournament late this summer to bring together Canada's ranking players and prove, now that the overseas jaunt of four of them is over, whether Marcel Rainville still is the best.

Developments in this country and abroad have proved nothing as far as the domestic rankings are concerned. Rainville, Montreal veteran and No. 1 in Canada, let his Canadian singles title go by default to play with moderate success in France, and England. Ronald Longtin went with him.

Bobby Murray, Montreal's brilliant youngster who ranked No. 3 last year, scored the most notable overseas success by winning the Scottish singles. His partner, Laird Watt, also displayed flashes of rare form.

At home Walter Martin dominated proceedings by winning the Ontario and Quebec titles, then topping it off with a fine display that carried him to the semi-finals in the Canadian at Victoria. Gilbert Nunns won the only major tournament he entered—the Eastern Canadian.

But all this proves nothing. Martin, apparently at the peak of his form, has yet to face Rainville or Murray. He was beaten by both last season. The tennis public hasn't the faintest idea whether Murray has definitely become the country's leading singles player.

Some officials here and at Montreal are reported to be taking up the matter of setting things straight by staging an late-August invitation tournament and inviting the contenders.

Unusual Breads For Summer Meals

One of the easiest and most economical ways to add interest to meals is to serve unusual breads, and a summer luncheon consisting of a salad, a hot bread and a beverage is most satisfactory from several points of view.

The salads one may serve are legion because summer markets offer such an abundance of fruits and vegetables as well as fish and meat.

You know veal makes a delicious salad almost as good as a chicken salad and much less expensive. Simmer the meat until very tender and let it cool in the well seasoned stock. This prevents that extreme dryness so characteristic of veal. The stock is strained and used for a soup the next day.

Veal Salad

One cup diced cooked veal, 1 cucumber, 1 cup diced pineapple, 1-2 cup diced celery, French dressing, mayonnaise, 1 tablespoon capers or snips of sweet pickles and olives.

Mix veal, cucumber, pineapple and celery. Add French dressing and let stand in refrigerator for half an hour or longer. When ready to serve arrange on a bed of lettuce, mask with mayonnaise and garnish with capers.

You may add nut meats, hard cooked eggs or, when grapes are in season, skinned and seeded grapes.

After all, bread and butter is a splendid food for children and the various corn breads make a welcome change. The crumbly texture of corn bread makes this bread more easily digested than other hot breads. Also corn bread is one of the best carriers for butter, and children need plenty of butter.

Try some hot spoon bread with the veal salad some day for luncheon.

Spoon Bread

Two cups scalded milk, 1-2 cup corn meal, 1 teaspoon baking powder, 1 teaspoon salt, 1 tablespoon melted butter, 2 eggs.

Add corn meal gradually to scalded milk, beating hard. Let stand until cool. Add yolk of egg well beaten, baking powder, salt and melted butter. Beat well and fold in whites of eggs beaten until stiff. Pour into a well buttered shallow baking dish and bake forty minutes in moderately hot oven (375 degrees F.) Serve at once with a spoon from the dish in which the bread is baked.

Corn pone was made without eggs or leavening and is the same mixture as "ash" bread and "hoe cake." "Pone" designates the irregular oval shape the cakes took when they were shaped by the palm of the hand. Originally baked in the ashes of the fireplace, they are crisp, thin cakes.

LADY KIDNAPPER IS "THROUGH WITH MEN"

CHICAGO, July 29—Mrs. Margaret Waley, 19, one of the kidnappers of George Weyerhaeuser, heir to a northwest lumber fortune, is "through with men," she observed here yesterday as she changed trains en route to the Federal Women's Prison at Milan, Mich., to serve a 20-year term.

Without any bitterness, Mrs. Waley said: "I deserve what I got. I thought I was going to get more. But Harmon Waley didn't get a third of what he deserved."

Waley, her husband, pleaded guilty to the Weyerhaeuser kidnapping and is serving a 45-year term of Alcatraz Island.

Sees Need Of National Govt.

(C.P. By Guardian's Special Wire)

TORONTO, July 31 — Canada, sooner or later, must follow Britain, Australia and South Africa and establish union governments if it is to extricate itself from national problems, Basil Campbell, of the league for national government told a service club here today.

"The best brains of the country, irrespective of party, are needed at this hour," he said. "And this government must not be hampered by old party policies or ideas.

"With a national government in power, the constructive ideas of men of both parties would be heard. If they warranted it, they would be acted upon. If the ideas were for personal or party gain they would be thrown out," he said.
