Child Drowned At Mill In Pownal

John Herbert Acorn Fell Into Flume From A Plank Walk. Drowning Accidental.

A sad drowning accident occurred at Pownal yesterday forenoon when little John Herbert Acorn, four year old son of Mr. and Mrs. Everett Acorn, was drowned in the flume at Acorn's Mills. It is thought that the child had been crossing the pond on a narrow plank walk, and had fallen into the flume. The little boy had been missed by his parents, and a search was instituted. The child's body was found in the water near the wheel by his grandfather who was at the mill at the time.

Labor Govt. Faces Crucial Test

(Associated Press)
LONDON, Nov. 3.—The MacDonald Labor Government will face a crucial test tomorrow night but political circles expect the Government to win, since the Liberal party announced today that it would not support a Conservative amendment to the reply to the speech from the Throne, although it is realized that there is a remote chance of a defeat. Sir Herbert Samuel announced the Liberal stand, saying that his party—which has kept the Laborites in office thus far, since it holds the balance of power—would not back up the Conservative opposition in the first important division of the year, but at the same time he accused the Government of "inactivity, lack of zeal and lack of drive."

ANNOUNCEMENTS, COMING EVENTS, MEETINGS ETC.

- *Furs remodeled, repaired, relined. Mrs. Dawson, 110 Prince Street, 7997-11-1-61.
- *Dance in Cape Traverse Hall, Tuesday evening, November 4th. 8653-11.
- *What in Hope River Hall Tuesday, Nov. 4th. If not fine, first fine night. 8024-11-3-21
- *Reserve Monday and Tuesday, November 10th, 11th for Bazaar at St. Margaret's. 8447-11.
- *Emerald Club taking live stock Wednesday, Nov. 5th, afternoon, until 3 o'clock. List with Sec'y, D. N. McCall. 7996-11-1-31
- *Roy C. Dawson, Tryon, all makes of radios repaired and serviced at moderate cost, all work guaranteed. 7597-10-14-2mos.-tues-fri
- *I will be buying dressed hogs, organs out, Friday, Nov. 7th, at Fred Macdonald and Hunter River. A. B. Cutcliffe. 8009-11-1-41
- *United Church Thanksgiving Supper in Victoria Hall, November 10th. Proceeds for Manse. 8448-11-4-21.

NAVAL DISPLAY FOR EMPIRE PREMIERS

War At Sea Witnessed Off Portland Amid The Mist and Rain, And With Spectacular Effect.

LONDON, Nov. 3.—Amid the mist and the rain off Portland the Premiers of the Empire Saturday saw a war at sea. Through a thick haze 5-inch guns flashed and roared as they crashed their huge projectiles through a target lying low on the horizon. Airplanes soared from giant aircraft carriers and swooped around the Nelson, flagship of the Atlantic fleet, on which the Empire Premiers had put to sea, a mine-layer strewed the Nelson's path with mines. A depth charge sent columns of water into the air. Waspish destroyers buzzed around discharging torpedoes. But the doughty Nelson went on her way unscratched and from her conning tower, the Premier and their attending ministers took in every detail of the heroic scene. Among those who watched were Prime Minister R. B. Bennett, of Canada; Hon. Hugh Guthrie, Canadian Minister of Justice, and Hon. H. H. Stevens, the Dominion's Minister of Trade and Commerce. In actual warfare a vastly different story with no safe comfortable return journey, might have been told.

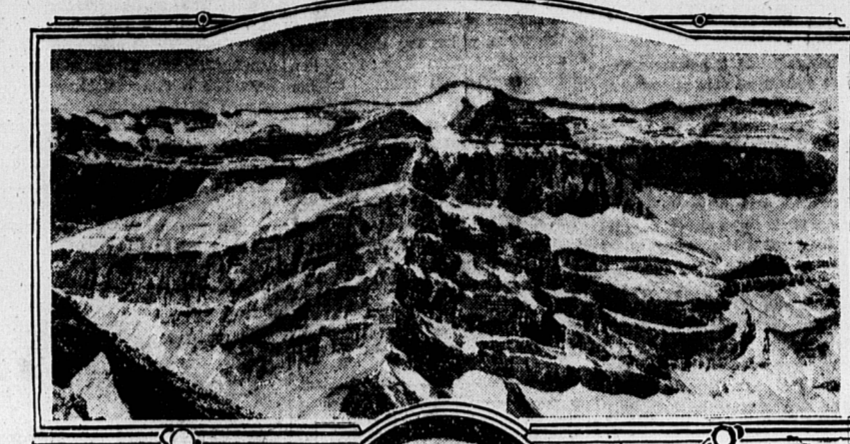

The navy airmen had a difficult time of it. One plane fell into the channel. It sank, but her crew of three was rescued by a destroyer. In the boisterous weather two more crashed in landing. Prime Minister Ramsay MacDonald, who had planned to fly from Hendon, was advised not to make the attempt, and he missed the demonstration altogether. As the mist grew heavy the Centurion, British battleship, which performs evolutions under wireless control without a soul being on board, disappeared in the great blanket of black with the target she towed. Then the mist lifted a little. The great guns of the Warspite, the Barham and the Malaya flashed, their roars went reverberating down the channel and over the distant hills of Dorset. Water spouts leaped around the target. From the signal bridge of the Nelson on which the writer stood, one could feel the quivering of the air itself. When the smoke spray cleared the Centurion still towed her target but it was a target in tatters.

Then the destroyer flotilla suddenly seemed to appear from nowhere. The flotilla swept by the Nelson steaming torpedoes. But the Admiralty policy was merciful. None of the torpedoes struck home and the sixth flotilla disappeared. The fifth then commenced battering the Robot Centurion with four-inch projectiles. Flashes of light marked hit after hit. As the Nelson turned her nose homeward she passed down a long line of battleships. Their great forms grimly silhouetted against the background of a glorious sunset. It was a day on which British showed she is still a power of the sea.

Describes End Of Big Dirigible

(Associated Press)
LONDON, Nov. 3.—The only man who saw the tragic end of the dirigible R-101 sat in the witness chair today and with Gallic gestures told in halting English how the big ship came at him out of the night careening at a crazy angle before she dropped in the hillside near Beauvais, and burst into the flames which took 48 lives.

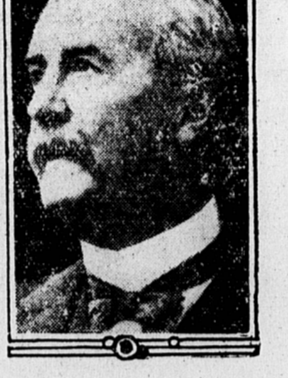

Alberta Peak Is Given Name

SPLENDID SCENES AT CORONATION

Descendant of King Solomon Crowned Emperor of Abyssinia.

(By James A. Mills, Associated Press Staff Writer)
ADDIS ABABA, Abyssinia, Nov. 2.—Amidst barbaric splendor and lavish pageantry, Ras Tafari Makonnen, the 39 year old prince who has been regent of Abyssinia for fourteen years, was crowned today as Emperor Haile Selassie I. The coronation gives Ras Tafari, who claims descent from King Solomon, and the Queen of Sheba, the titles of Emperor, Lord King of Kings of Ethiopia, Conquering Lion of the Tribe of Judah, the Elect of God, and the Light of the World. Simultaneously, the royal consort, Princess Waziru Menen, a short, rotund woman of 40, was crowned as Queen Etege Menen, Queen of Queens of Ethiopia. This was virtually the Queens "coming-out party" as she has heretofore been confined to her housewife and motherly duties in the Royal household. She has five children, one of them married, and has taken no active part in court and state affairs.

Top—Mount London, 10,500-foot peak in Alberta, which has been named after Prof. W. J. London of University of Toronto by the Geographic Board of Canada. Bottom—Prof. London, who retired from the University over a year ago, having served there as professor of mechanics for 49 years.

Last Minute News Flashes

- TORONTO, Ont., Nov. 3.—Mrs. Willoughby Cummings, editor of "The Living Message," and charter member of the National Council of Women of Canada died at her home here late Saturday after a lengthy illness.**
- GLACE BAY, N. S., Nov. 3.—Legion Guards clinched second place in the Cape Breton Rugby League this afternoon, defeating Dominion Number Eleven by a 9 to 6 score.**
- BERLIN, Nov. 3.—The monoplane Columbia, bearing Captain J. Errol Boyd and Lieutenant Harry P. Connor, from Berlin to London, via Amsterdam, was forced to land at Brunswick this afternoon by strong headwinds.**
- NEWARK, N. J., Nov. 3.—Two gunmen tonight entered Newark General Hospital and shot to death a patient who had given his name to hospital authorities as Joseph Caruso.**
- NEW YORK, N. Y., Nov. 3.—Fidel La Barba, rugged title scrapper from California, turned the tables on Kid Chocolate, the ebony flash, from Cuba, tonight in a hard fought ten round feature match before 16,000 spectators at Madison Square Gardens. La Barba won the decision handily to square accounts for a previous defeat at the negro's hands.**

INDUSTRY MIGRATING TO CANADA

Number of U.S. Branch Factories in Canada Now Estimated At 1600.

(Canadian Press)
NEW YORK, N. Y., Nov. 3.—Canada is becoming a base for the supply of foreign markets by United States manufacturers as a means of escaping tariffs being erected against the republic, in the opinion of bankers who have studied the causes and effects of this "migration." Cass R. Howard, manager of the foreign trade department of the Canadian Bank of Commerce in New York, estimates the number of United States branch factories in Canada at 1,600. The "flight of American industry," he points out after investigations, is being rapidly accelerated. Several hundred thousand men are employed in United States owned plants in Canada as a result of this move to vault the tariff walls. He finds that tariff changes in both countries have "given an unusually potent impetus to American interests in Canada."

NEW TRAIN WHISTLE WAITS WARNING DOWN RIGHT OF WAY, NOT TO SIDE

DALLAS, Nov. 2.—Speedy locomotives in the quiet of the night—screeching whistles—interrupted sleep. This soon may be a thing of the past as the result of successful tests with a new train whistle, built like a megaphone, which throws sound directly down the right-of-way so no one else close to the tracks can fail to hear it. On the other hand, the whistle diminishes sound on either side of the track. The new warning device has been designed and built by employees of the Missouri, Kansas and Texas railroad. Officials and mechanics have spent several years perfecting it.

Work was started by C. T. McElvaney, for years superintendent of machinery on the Katy. His son, C. T. McElvaney, Jr., now general roundhouse foreman, at Dallas, continued the experiments and through his efforts the whistle has been perfected to a point where tests now are hailed as successful.

Mining Brokers Are Suspended

(Canadian Press)
TORONTO, Ont., Nov. 3.—D. S. Paterson and Company, mining brokers, were suspended from trading on the Standard Mining Exchange today. The announcement was made by the board of directors of the Ex-

Makes Charge Against U. S. Labor Unions

(Canadian Press)
VANCOUVER, B.C., Nov. 3.—United States Labor Unions functioning in Canada, have gone to the length of calling strikes rather than allow their members to work with Canadian unionists, A. R. Mosher charges in making his presidential address to the convention of the Canadian Congress of Labor here today. Mr. Mosher further states that paid leaders of these unions in the Dominion had worked to keep labor representatives out of provincial and federal parliaments and said that increases in membership claimed by foreign unions were purely fictitious.

Increase In Inter-Dominion Trade May Result

(By George Hambleton, Canadian Press Staff Correspondent)
LONDON, Nov. 3.—Increased trade between Canada and Australia and between Canada and South Africa has been the subject of conversations between representatives of the three dominions here for the Imperial Conference. When the curtain is rung down on the Imperial Conference—it is now expected to conclude about November 11—Hon. Parker Maloney, Australian Minister of Markets, will return home by way of Canada. He will continue with the Canadian government the conversations on development of inter-dominion trade opened in London with Hon. H. H. Stevens, Canadian Minister of Trade and Commerce. When the Imperial Conference itself opened a month ago, the first fruits of the conversation was the announcement of an arrangement whereby Australia undertakes not to dump any butter on the Canadian market. Australia hopes to secure a better market in Canada for her wool, and also an opening for her wines, giving in return preference on Canadian manufactures.

denation during cold weather is one problem still being studied and experiments will be carried out this winter. Because of softer toes and the fact that sound will not be heard all over the countryside the whistle is expected to benefit not only train passengers, but also thousands who live along the right-of-way, especially in large cities.

The Weather, etc

TORONTO, Nov. 3.—Moderate winds, fair and mild.
Maximum 47
Minimum 34
High tide this morning at 9.36 and tonight at 9.40.
Sun sets this afternoon at 4.41 and rises tomorrow morning at 6.46.
Full moon Thursday, Nov. 6, 6.04 a. m.

DEMOCRATS EXPECT TO MAKE GAINS

Today The American People Will Express Their Opinion on the Conduct of President Hoover's Administration.

WASHINGTON, D. C., Nov. 3.—On Tuesday the people of the United States will express their opinion of the conduct of President Hoover's administration, the Republican House of Representatives and the nominally Republican Senate through the ballot. It is generally assumed, economic conditions being what they are, the Democrats will gain seats in the House. Democratic headquarters today forecast a gain of more than 54 seats from the Republicans which would give them control.

Under the Canadian Parliamentary system such a victory would result in a change of government. In the United States it would simply mean that the House of Representatives would be organized in opposition to the administration with the result that the legislative programme of the administration could not be carried into effect. It is quite probable, however, that the Democrats will not gain enough seats to bring about a division between the House and the Republican administration. The present standing of the parties in congress is as follows: Senate—Republicans 36, Democrats 39, Farmer-Labor 1, vacancies none. Total 74. House—Republicans 260, Democrats 160, Farmer-Labor 1, Vacancies 14. Total 435.

The State of Maine which holds its elections in September, return 13 Republicans to the House and 4 Republican to the Senate. Normally, therefore, Tuesday would see 41 Congressmen and 32 Senators elected to the 72nd Congress. But three vacancies in the present Senate were filled by appointment. The number of Senators to be elected is consequently 34.

Of the candidates for the House 73 Democrats and 25 Republican candidates for the Senate are generally conceded election throughout the Southern States. Coincidentally with the Congressional elections numbers of States will conduct contests for State offices. Rhode Island, Illinois and Massachusetts will hold referenda on prohibition. The people of the first two States will be asked whether they favor the repeal of the Eighteenth Amendment to the constitution. Massachusetts will decide whether or not state officers should enforce the Federal law.

GRAND JURY SAYS CRIME AND VICE HAVE CHICAGO BY THROAT

CHICAGO, Nov. 3.—Alliance of police, politics and crime has resulted in the "underworld and vice" getting Chicago by the throat, according to a grand jury probing conditions in this city. The police force, it is stated, has always been the adjunct of the party in power and for many years "Chicago has tolerated vice."
