## SMALLPOX IN TORONTO, ONT.

### Newfoundlanders Refusing To get Vaccinated Spread The Epidemic.

Special to The Guardian. TORONTO, May 29—Three more cases of smallpox developed here today. The majority of the cases recently developed have been among people coming from Newfoundland who refuse to be vaccinated.

## ELECTRIFICATION A DREAM OF FUTURE

MONTREAL, May 28—There is stated to be little probability that the Canadian Pacific will in the near future haul all its trains within the city limits by electricity instead of steam locomotives. That such a change will eventually be brought about however there is no question. Not only has the subject occupied the consideration of the Canadian Pacific management but it is also one of the factors entering into the big scheme which the Grand Trunk is now developing for elevating its tracks into Montreal and erecting a new station to replace the present Bonaventure station. The Canadian Pacific recently had a big staff of engineers up from Schefferville to go over the whole of the company's system of transportation within the city and report as to the feasibility of electrifying the system similar to the manner in which all railway traffic is managed in and out of New York. The report of these engineers was duly handed in to the management but the cost of the scheme is said to have made the C. P. R. men gasp, used as they are to big expenditures. With actual dropping the idea it was put aside so it is said, that it would be taken up at a later period if a project more feasible from the financial point of view could be framed. Lately the fact that a company of Canadian Pacific terminal men were recently seen in New York being taken on a tour of inspection of the train handling facilities in that city has revived the interest in the electrification scheme, but so far the matter has not gone beyond the stage of discussion. The plan on which the report to the C. P. R. was prepared was to handle all trains between the city and Montreal by electricity. This would include the shunting of the trains at Glen Yards, Westmount, where the increasing smoke and noise from the engines is such that the Westmount City Council has made serious complaints to the Canadian Pacific management. When the electric scheme is carried out, property in the vicinity of the Glen Yards will become more valuable than it is at present and many a nervous Westmounter will sleep more soundly.

## A KING AND QUEEN WHO REQUIRED ONLY ONE SUITE

HALIFAX, May 28—Xavier Paoli, in his reminiscences of the King and Queen of Italy in the June McClure's tells the following story of their visit to Paris: "The authorities, conforming to royal usage, had considered it proper thing to prepare two distinct suites of rooms, one for the King and one for the Queen, separated by an enormous drawing room. Great was our surprise when on the following morning the rumor ran through the Foreign Office that the King's bedroom had remained unoccupied. Had he not like the room? Everyone began to be anxious, and it was felt that a mystery must be cleared up. "The authorities, conforming to royal usage, had considered it proper thing to prepare two distinct suites of rooms, one for the King and one for the Queen, separated by an enormous drawing room. Great was our surprise when on the following morning the rumor ran through the Foreign Office that the King's bedroom had remained unoccupied. Had he not like the room? Everyone began to be anxious, and it was felt that a mystery must be cleared up.

## FATHER SAW SON CRUSHED TO DEATH.

BROOKTON, Mass., May 28—While his horrified father looked on, the year-old son of T. R. Norris, a wealthy Brockton hotel proprietor, early last evening, was crushed to death by an elevator on which he had attempted to leap while it was moving. His head and chest was terribly shattered. The accident took place in the Holbrook building.

## SERVICES IN CITY CHURCHES

The anniversary services in the First Methodist Sunday School were held in the church yesterday and took up the time usually devoted to the regular church services morning and evening. At both services Rev. H. E. Thomas presided. In the morning the platform was occupied by the pastor and the primary class while the members of the Sunday school occupied the choir seats. The morning service included selected hymns, prayers and choir selections, scriptural and responsive readings, solos, and selections by girls of the intermediate department. Rev. Mr. Thomas gave an illustrated talk to the young folks on "Hearts." At the evening service, besides the presiding pastor on the platform were seated the members of the orchestra who supplied the accompaniment for the hymns and played the voluntary organ. The program was featured by John F. Wheel's report from the World's Sunday School Convention in Washington at which he was a delegate. Mr. Wheel is superintendent of the First Methodist Sunday School and his report of the doings of that great gathering in Washington was listened to with more than ordinary attention and interest. The reports of the different

## PURCHASE OF U. S. RAILROAD

### C. P. R. Buys Out American Road and Will Erect New Terminal.

Special to The Guardian. ST. STEPHEN, May 29—It is reported here on good authority that the Canadian Pacific Railway has purchased the Washington Counties Railroad and will construct important facilities here. In the past the Canadian railway has used its port only for handling a few cargoes of coal yearly but it is believed that a much greater development is now contemplated and in fact the railway at present is expending forty thousand dollars in terminal facilities.

## BEAT THE COMET FOR EXCITEMENT

OTTAWA, May 27—A runaway horse hitched to a blazing popcorn wagon and heading down Nicholas street and plunging into the Rideau canal, a mile away, with the flames of the burning gasoline from an exploded gasoline tank shooting high in the air behind the terrified animal, provided an exciting spectacle for residents of Ottawa East tonight. The gasoline tank exploded as the driver was peddling popcorn from his wagon on Nicholas street. With the wagon ablaze and spots of burning gasoline covering the horse, the frantic animal leaped down the street, tried into Becho drive, and at the end of a mile ran planged into the Rideau canal to escape the flames. Humane Inspector Lemoine, with the assistance of a crowd of spectators, was successful in getting the horse, still hitched to the charred remnants of the wagon, ashore. The animal, though severely burned, came through the perils of flood and fire without fatal injuries. It has been suggested that it be purchased for the Ottawa fire department.

## WAS DASHED TO DEATH IN AUTOMOBILE ACCIDENT

LOGAN, Ohio, May 28—While returning from a party at midnight an auto driven by Van Snyder, President of a Lumber Company, ran over an embankment near Young's Bridge and Miss Lillian Wright and Miss Flossie Herman were instantly killed. Mrs. Don Goss sustained a fractured rib, and Mr. Snyder's leg was broken. Miss Wright was to have been married next Wednesday.

## WHEN TO SEE THE COMET.

TORONTO, May 28—"Of course there is a comet," said Professor Blake at the observatory this morning. "The reason that people don't see the fact is that they don't know where to look for it, or what to find. They look for something very brilliant, when in reality all that is to be seen is a dull nebulous patch." Prof. Blake gives the following directions for seeing the comet. Look to the western horizon slightly to the south, at about nine o'clock, and the comet should be about thirty degrees up in the sky. It sinks slowly and disappears at about midnight.

## MOTOR TRACK OPENED AT INDIANAPOLIS.

INDIANAPOLIS, Ind., May 28—Three days of motor racing, with a field of sixty starters opened today, at the Indianapolis Speedway, on the new two and one half miles track, and the only brick track in the world. All possible safeguards have been made against repetition of the fatal accidents that marred the races at the Speedway last summer. A cement retaining wall has been built along the upper edge of the course near the stands to prevent cars crashing into the crowds of spectators if wheels should break or tires rip. The track, ground to the smoothness of a floor, offers no resistance to all the speed the driver can force from his motors. A 100-mile race presented the greatest test of endurance on the cars for today. Twelve cars were entered. The other events were for five and ten miles, including speed trials and a free-for-all handicap, with 26 cars

## TROLLEY COLLIDES WITH AN AUTO

Special to The Guardian. BOSTON, May 29—A head-on collision between a trolley and an automobile in Brighton tonight resulted in the death of John Allen, a retired piano merchant, and serious injuries to his son and two grandchildren.

## FREDERICK GIRL MUST PAY UP \$20

FREDERICTON, N. B., May 28—Police Magistrate Marsh gave judgment this morning in the case of Miss Verna Atherton, charged with dog poisoning. He fined the defendant \$10 and \$5 costs and she is also to pay \$5 damages for the dog. She has three days to pay this amount and in default of so doing will be taken to jail for one month. In delivering judgment, the police magistrate said the case was a difficult one to decide when the position of the defendant was considered. It was a question whether the young woman had not been led by others to distribute the poison and the police were now investigating the matter. If the dog was located His Honor promised to give them the full benefit of the law. His Honor said there was no crime worse than putting poison around as the person who does this does not know what the result will be. The police magistrate said it was hard to value a dog. He had one himself he would not take \$100 for, but any man would be a fool to give him this amount for it.

## SOME DETAILS OF MR. BORDEN'S TOUR

TORONTO, Ont., May 28—Although the itinerary for R. L. Borden's Ontario tour next month is not definitely arranged as yet, some details have been decided. The tour will open at Campbellford on June 14, and will take in Belleville, Trenton, and Newcastle. From there the Conservative leader will likely go to Niagara Falls, and possibly to Hamilton, thence to Clinton, Durham, Barrie, Preston, and Guelph. He will give Cornwall a call on his return east. Later in the summer another tour to northern Ontario is likely.

## THE FISH REPORT

GEORGETOWN, May 28—Cod plenty, lobsters fair, herring scarce.

## RECORD CARGO FOR SOUTH AFRICA.

MONTREAL, May 28—The largest cargo ever shipped from Canada to South Africa has left on the Bendu for Cape Town. The Bendu took 250,000 bushels of wheat, 200 cases of mining machinery, 200 automobiles, thousands of cases of canned meats, and a large quantity of general cargo, and lumber. A curious feature about the South African trade is that while the exports from Canada are developing very rapidly, the boats can get little freight on the return voyage, having to call at British ports for cargo on their return voyage.

## 4TH REG'T RIFLE SHOOT

The match between the 4th Regt. C. A. and Civilian Rifle teams was fired under adverse conditions at Kensington Range Saturday afternoon. The showers of rain and varying winds made it difficult to negotiate the bulls-eye and the scores were (with the exception of Corp. A. Major W. A. Weeks) 31 32 22 85. Capt. E. Stewart..... 32 32 25 87 Corp. R. Seaman..... 30 32 25 87 Lt.-Col. H. M. Davison 28 29 23 80 Gr. Col. W. Ives..... 30 26 23 79

## DEATH OF DR. KOCH DISEASE OF HEART.

BADEN-BADEN, May 28—Prof. Robert Koch, the famous bacteriologist, died yesterday from disease of the heart. He was born at Klausthal, Hanover, in 1843.

## RAIN.

Special to The Guardian. TORONTO, May 30—Easterly winds, partly cloudy and cool with occasional showers.

## JEWES ANNOYED BY RUSSIANS

### Poor Treatment Accorded Them Before finally Expelled - None Can Travel.

Special to The Guardian. KIEV, Russia, May 29—In addition to the expulsion threatening them, Jewish residents here are being subjected to all sorts of petty annoyances on the part of the government officials. Passports are refused and Jews forbidden access to their summer homes outside the city. Mounted police guard all the roads and prevent families from proceeding on their journeys.

## JOHN T. LITHGOW GOES TO GLASGOW

OTTAWA, May 28—John T. Lithgow, formerly comptroller of the Yukon, has been appointed trade agent at Glasgow, vice W. G. Fischer, transferred to Berlin. Mr. Lithgow entered the civil service in 1880. He was for a number of years in the general office at Halifax. His course in the Yukon was fiercely assailed by his political opponents and he was included in those officials recently cut off as superfluous. The Lithgow appointment has caused considerable comment in connection with the appointment of W. A. Beddoe as trade agent to New Zealand. The Ottawa Journal this evening editorially denounces the Beddoe appointment. This position is based upon Mr. Beddoe's record while a resident of the Yukon. Mr. Lithgow's appointment, following so closely after, bids fair to revive the furious attacks and scandals which for years disgraced the administration of the Yukon territory.

## CALLS GEORGE V. GREAT BRITAIN'S STRONGEST KING

NEW YORK, May 28—Sir Arthur Conan Doyle has sent a message to the American people that King George V. of England is the strongest monarch that ever ascended the throne of England. The message was brought by John Kendrick Bangs, who arrived yesterday on the Adriatic from Europe and who told Sir Arthur that he feared the impression in America was that the new king was a man of smaller mental calibre than his father. Sir Arthur prepared the following message: "George V., in my opinion, is the strongest and biggest man, mentally, who ever ascended the throne of England. I believe he has a greater familiarity with the needs and resources of the British empire than any man in England. He has all the gracious qualities that endeared his father to the people, and on the human side he is quite as much interested in the things that interest the average man as his father, except that they are of different character. He is not as fond of the turf as the late king, but in the many lines of sport, he is one of the most sportsmanlike men in the kingdom. He is one of the best shots in England for one thing. A month before the death of King Edward, Lord Rosebery gave a dinner at which about forty men, representatives of the highest departments of political and artistic life in England, were invited to meet George V., then Prince of Wales. His royal highness rose at the conclusion of the dinner and spoke for ten to fifteen minutes, in which brief time he showed a deep and detailed knowledge of each guest's particular line of work. It was a marvellous exhibition of artistic and practical knowledge."

## PREMIER FISHER HASN'T HEARD THAT VAN HORNE IS COMING TO AUSTRALIA.

MELBOURNE, Australia, May 28—Premier Fisher states he is not aware that Sir William Van Horne is coming to Australia to advise on a transcontinental railway.

## MEMORIAL SERVICE FOR KING EDWARD AT SEA.

NEW YORK, May 28—A memorial service for the late King Edward was held on the steamer Adriatic May 20th during the liner's trip here from Southampton. The Adriatic, which arrived today, brought 22 cabin passengers of the steamer Kronprinz and which broke a shaft on May 15th after leaving Antwerp, and was forced to return to that port. The memorial service on the 20th was attended by 500 of the Adriatic's passengers. The officers and 175 members of the crew were in dress uniform. The Rev. Dr. L. Fernis, of Pittsburgh, conducted the service held in the main saloon, which was draped with purple.

## CHILD SCALDED TO DEATH

NEWCASTLE, May 28—A distressing accident, resulting in the death of a four-year-old Alexander Johnstone occurred at Lyttleton on Friday of last week. The little fellow, who was a son of Fred and Mrs. Johnstone, was playing about the kitchen, and fell in a large boiler of hot water which had just been taken from the stove. Dr. McGrath was summoned from Newcastle and rendered the necessary medical aid, but the little one suffered intense pain for several hours and passed away early on Saturday.

## PRESIDENT NOT TO ATTEND THE ROOSEVELT RECEPTION

WASHINGTON, May 28—President Taft will not attend the homecoming celebration in honor of Theodore Roosevelt in New York on June 18. The president has been urged to attend by representatives of the Roosevelt club of New York, who first suggested the celebration. On the day the former president sails into New York harbor, President Taft will be in Villa Nova, Pa., receiving the degree of doctor of jurisprudence from St. Thomas college, the noted Catholic institution in that place.

## NEW GLASGOW GOLFER GOES TO ST. JOHN.

NEW GLASGOW, May 28—J. T. Henderson, 19th champion of the maritime provinces, has resigned as superintendent of streets and left for St. John, where he has accepted a position as instructor and caretaker of the St. John Golf Club. Mr. Henderson won the championship on the links of the Halifax Golf Club last summer and recently received the championship medal.

## TWO BATTLES IN NICARAGUA

### A Succession of Defeats And losses Reported-- U. S. Interferes.

Special to The Guardian. BLUEFIELDS, Nicaragua, May 29—Although the government forces gained a victory on Friday over Estrada's army and captured Bluefields Hill, Estrada succeeded today in repulsing Madriz forces with great loss. A Government steamer this morning signalled General Lara to commence an assault on Estrada's positions around the city. The engagement continued all day, the Madriz forces being driven back after desperate fighting. Estrada captured fifty prisoners and it is said that Lara's losses numbered two hundred and fifty. The United States has forbidden any fighting in Bluefields city and a large force of marines will arrive tomorrow to enforce these orders.

## RECORD TRIP THAT'S ECLIPSED

SYDNEY, May 28—The Herald correspondent drew the attention of the shipping department of the Dominion Coal Company to the "record trip to Montreal," which stated that a new record for the St. Lawrence coal trade was made last week when the steamer Wacousta, chartered to the Nova Scotia Steel Company, made a round trip to Montreal in 64 days. The official address replied: "That may be a record for the Nova Scotia Steel Company, but it is not by any means a record for the St. Lawrence coal trade. "Trips as have been reported to have been made by the Wacousta," he said, "have been of frequent occurrence during the last two or three years by almost every one of the chartered boats of the Dominion Coal Company. For instance, the steamer Ocean, a 6,900-ton dead weight steamer in May, 1909, made the round trip to Montreal in six days and ten hours. The cargo taken by the steamer Kron Prinz Olav last Monday was the fifth one loaded on the consecutive Mondays for made in six days and eleven hours. These records which you hear of, are almost every day occurrences with us."

## NUMBER OF STEAMERS DEPENDS ON SUBSIDY

LONDON, May 28—Sir Hugh Allan states his company has invited tenders for a liner for the Liverpool to Canada express service of 22 knots speed, 700 feet long, and 22,000 tonnage, accommodating 2,500 passengers. Mr. Allan said the number of steamers to be ordered depends upon the condition of the 1912 mail contract.

## PREMIER SIFTON HAS TOUGH JOB

EDMONTON, Alta., May 28—The new premier, ex-Chief Justice Sifton, is busily engaged making up his cabinet. He will probably look out for a new set of ministers, and may go outside the house to get some of them. It is generally understood that his intentions are to choose his ministers from men who have not been too much in the front on either side, excluding members of the former government and leaders of the insurgents. A requisition signed by a number of members asking that ex-Artillery-General Cross be given a portfolio, has, it is said, been presented to the new premier. Last night the Liberals of Edmonton held a big demonstration in which the slogan was "Cross for attorney-general."

## USES RUBBER BOOT TO COMMIT SUICIDE

NEW YORK, May 28—Frederick Luer, an old street musician, killed himself in his Bowery lodging last night by inhaling gas through an old rubber boot. He bored a hole in the boot's sole, inserted a gas tube in the hole, turned on the gas, then placed the top of the boot over his head. He was dead when found. Luer was 64 years old and had been discouraged since a truck on the Bowery smashed his cherished violin a few days ago.

## ONCE IN A WHILE

Once in a while the sun shines out, And the arching skies are a perfect blue; Once in a while, 'mid clouds of doubt, Faith's fairest stars come peeping through, Our paths led down by the mists of dawn, Where the sweetest blossoms nod and smile, And we lay aside our cross of care, Once in a while, Within our own, We feel the hand of a steadfast friend; Once in a while we feel the tone Of love, with the heart's own voice to blend; And the dearest of all our dreams come true, And on life's way a golden smile, Each throbbing flower is kissed with dew, Once in a while, Once in a while, in the desert sand We find a spot of the fairest green; Once in a while from where we stand The hills of Paradise are seen, And a perfect joy in our hearts we hold, A joy that the world cannot defile, We trade earth's dross for the purest gold, Once in a while.
