—Particulars of the death of Thomas Lane Robblee, announcement of which was made on Friday last are as follows: The deceased who was employed in a large department store in Cleveland, Ohio, was in the best of health up to a short time before his death. About nine o'clock Wednesday evening last he came to his home and in conversation with his mother said he did not feel well and she advised him to go to a doctor. He did so and while conversing with the doctor expired in the office, death being caused by acute indigestion. The deceased, who was twenty-four years of age, was the second son of Thomas H. and Mrs Robblee, who formerly resided in Summerside. WHY SALVES FAIL TO CURE ECZEMA.

They Clog the Pores—Only a Liquid Can Reach the Inner Skin.

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists many different salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the only standard liquid eczema cure, oil of wintergreen, thymol, glycerine, etc., as compounded in D. D. D. Prescription.

After ten years of cure after cure the world's leading skin specialists have accepted this as the true eczema cure. If you are a sufferer from skin disease, or have a friend who is, write at once for a free trial bottle to the D. D. D. Laboratories, Dept. C. G., 23 Jordan St., Toronto. This trial bottle will relieve the itching torture at once.

For sale by all druggists.

BENEFITS TO EMPLOYEES.

An elaborate system for paying benefits to its employees in case of accident and for the payment of fixed sums in case of death has been announced by the International Harvester Co. The system will go into effect on May 1, and will apply to 25,000 employees in various parts of the country.

The company announces that it will cast aside the defence of "contributory negligence," "assumed risk," and "fellow servant," and pay, without regard to any question of legal liability, a definite scale of compensation to all employees who may be injured as a result of accidents occuring while they are at work.

In case of death, three years average wages will be paid, but not less than $1,500, or more than $4,000. For the loss of a hand or foot, one and one-half year's wages, but not less than $500, or more than $2,000. For the loss of both hands or feet, or one hand and one foot, four years wages, but not less than $2,000. In case of other injuries, one-fourth wages during the first 30 days or one-half wages for a longer period, or a pension if disability continues permanently.

No premium is to be collected by the company except for the 30-day disability fund.

About 17,000 of the company's employees are in Chicago. The rest are employed in plants at Hamilton, Ont.; and Akron and Springfield, Ohio; Auburn, N. Y.; Newark, Valley, N. Y., at a few northwestern cities.

MRS. MAYBRICK IS INDIGNANT

NEW YORK, April 14.—Samuel P. Hayden, a Washington attorney, who was one of the counsel for Mrs Florence Maybrick in her fight for release from a British prison and has since been her legal representative in this country, has branded as incorrect the reports from Paris that Baroness De Roques, Mrs Maybrick's mother had died in poverty there. The Baroness, he said, only left this country for France early in March and he had supplied her with ample funds. He added that she was also authorized to draw on him for more money if needed.

Reports of trouble between the late Baroness and Mrs Maybrick were also denied by Mr Hayden. He declared they had been on the best of terms and that the Baroness' only reason for going abroad was because the climate of Chicago did not agree with her.

CHICAGO, April 14.—When Mrs. Maybrick learned of the death of her mother, Baroness De Roques, in Paris she said: "I don't understand it, the friends with whom she was staying in Paris know where I can be found. The story of her dying in want is false. I have taken care of her and we have been together ever since I left England. She had been in Paris about a fortnight and I have received three letters from her, all telling how well she was getting along. The last one I received only this morning. I had intended going to her just as soon as my engagement would allow me."

SEVEN STONES IN HERD BUILDING

1. Milking clean:—to obtain all that a cow can give, and to prevent early drying off.

2. Use of pure bred sire:—from strain of large producers, to acquire good qualities and perpetuate dairy tendencies. Of what value is a "scrub"?

3. Regular and careful feeding:—as to time, quantity and quality, adjusting the grain ration to the production of milk and butterfat; to get the utmost value for the foodstuff grown or purchased.

4. Providing succulent feed:—as roots, ensilage and soiling crops, to sustain and prolong the flow of milk.

5. Culling out poor cows:—no one wants them either to feed or breed from. Beef them.

6. Good care:—including kind treatment, and everything conducive to comfort, cleanliness and health so as to give the cow an opportunity to work to the best advantage. Better methods, not necessarily much outlay of cash.

7. Keeping records:—all the foregoing naturally hinges on records:—a knowledge of each cow's performance and capacity is the prime necessity for "increasingly profitable production a mere estimate may be far astray and gives no basis on which to work intelligently, guess work is not business-like, but a careful record supplies information of the utmost value at every turn. Record forms are supplied free on application to the Dairy Commissioner, Ottawa.

CORRUPTION WITNESS FLEES TO CANADA.

NEW YORK, April 16—According to the World this morning, William H. Buckley, who was the principal witness at the inquiry into the legislative affairs as conducted by Superintendent Hotchkiss, has quietly gone away and is now in Montreal, Canada, beyond the reach of subpoenaes.

Buckley was expected to be an important witness before the committee proposed by Governor Hughes to investigate the legislative corruption.

Commenting upon Buckley's departure the World says:—

In going to Canada at this time Buckley has done what he did during the life insurance investigation of 1905, when the subpoena servers of the Armstrong committee under the direction of Charles E. Hughes hunted vainly for him day and night for weeks at a time.

The absence of Buckley, should he continue to remain in Canada, will be a serious loss to the investigators of legislative corruption. While on the witness stand in New York before Superintendent Hotchkiss in the recent investigation, he flatly refused to answer scores of the most important questions.

Not only has Buckley gone away, but also Mrs. Buckley and their two children.

Women Cannot be Strong and Healthy Unless the Kidneys are Well.

Weak, lame or aching backs are the first sign of Kidney Trouble.

Under ordinary conditions they ought to be strong and ready to bear the burdens of life.

It is hard to do housework with a weak and aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order.

Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Miss Alberta B. Clarke, Stoney Creek, Ont., writes:—"I was troubled with kidney trouble for several years; my back was weak. I had such terrible headaches, and was so restless I could not sleep at night and tried everything without any benefit. Meantime a friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well as I ever did and would advise everyone suffering from Kidney Disease to try them."

Price 50 cents per box, or 3 for $1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."
