Pansies And Violas Are Easily Grown From Seed

Pansy plants such as are sold in flower in early spring may be grown quite easily by the gardener who has a cold frame. The seed is sown in late summer in a seed bed which can be shaded and watered.

Seed of one of the giant strains should be obtained if one wants large flowers. Violas may also be given the same treatment. All pansies are members of the viola family, but the name pansy is applied to those which have "faces."

If you have a seed bed made of fine soil shaded with a canopy of cheesecloth or lath, and which can be watered, sow the seed in rows. If you have no such seed bed prepared, fill a flat shallow box full of sifted soil in the usual manner and sow the pansies in that. It can be placed in a shady spot and kept well watered until the seedlings appear.

In sowing spread the seed thinly. Mix sand with it if necessary to prevent overcrowding. If the seeds are too thick it will be difficult to transplant the roots of the seedlings when time comes to move them. As soon as the seeds sprout they should be given all the light possible and plenty of fresh air. Do not let them dry out. Protect them from the mid-day sun.

When the seedlings have made their first true leaves they should be transplanted to other flats, where they have more space, or to the cold frame. Florists usually move them to flats where they are planted 2 inches each way; this is called "pricking out." They are allowed to grow here until they are small sturdy plants. The amateur may short out this procedure and move the seedlings directly from the seed bed or first flat to the cold frame.

Soil in the cold frame should not be overmanured, but should be light and friable and reasonably fertile. The plants should be set in rows, 4 inches apart in the rows, and 6 inches between the rows. Let the plants grow in the open through the fall until the ground begins to freeze. Then fill up the cold frame with dry leaves and cover it with the sash or boards. In severe weather the sash can be covered with straw mats or any such covering, but this is not usually needed.

In the spring as soon as frost begins to come out of the ground, the leaves should be taken off the pansy plants and the sash put on the frame. The management from now on is the same as any other planting in the spring. The pansies will bloom under the glass much earlier than they would outdoors, and you will have pansies to put out in the border when the tulips begin to bloom.

LIVERPOOL, England — (CP) — R. P. Biddle, regional port director, has disclosed that the first trials of model sections of the prefabricated Mulberry harbor took place in the bathroom of Prime Minister Churchill aboard a liner taking him to the Quebec Conference.

LONDON — (CP) — The Military Cross has been awarded to Lieut. L. G. H. Russell of the Grenadier Guards, son of Lord Russell of Liverpool, who distinguished himself in fighting off enemy anti-tank guns at a critical stage in an operation in Europe.

NEVER MIND THE PROMISES—

WHAT ARE WE GOING TO GET ?

"SHALL we go forward to Freedom, Security and Jobs for all . . . or back to the Unemployment, Low Farm Prices, and Poverty of the pre-war years? This is the issue of this election.

"Mr. King and Mr. Bracken are making extravagant promises, which they know they cannot keep. They still cling to policies which are bound to fail again as they did before.

"The CCF is a people's party . . . financed by farmers, workers and small business men . . . the only party free from domination by Big Business . . . free to serve the nation as no other party can.

"I pledge to you that a Federal CCF Government will leave nothing undone to guarantee Jobs, Freedom and Security to every Canadian."

M. J. Coldwell

M. J. COLDWELL,
CCF National Leader

? THIS under the Liberals

"Elect me on my record and experience during the PAST FIVE YEARS," says Mr. King.

But Mr. King has been in office TEN years. What of the FIRST FIVE years? Here's the Liberal record, 1935-40; breadlines; farm jobs at $5 a month; one million Canadians on relief!

If the Liberals couldn't provide jobs and security THEN, how can they do it NOW? They can't. Despite their promises, they are pledged to the old ways which will lead to depression and unemployment TOMORROW as surely as they did YESTERDAY.

? THIS under the Conservatives

Remember the "Bennett Camps" in the early thirties . . . the youth of Canada paid 20c a day for wasted labour . . . farmers destitute . . . workers idle while their families starved?

The Tory party is trying to make the people forget this record by a change of leader and a change of name, but it won't work. Bennett or Bracken—the Conservative party is the same creature of Big Business—is as reactionary as it ever was—the enemy of all progress for the common people.

OR
