THE SITUATION IN ULSTER SERIOUS

It is now Felt that Events Must Take Their Course. General Federal Legislation the Only Hope.

(Canadian Press.)

LONDON, May 10.—The feeling that events must take their course and that little or nothing will result from the alleged conversations is reflected in nearly all journalistic contributions on the Home Rule question. Objections are raised on all sides to the idea that the monster spectre can be laid pending the adoption of general Federal Legislation.

IMPORTANT VISIT OF PEACE ENVOYS

(Canadian Press.)

OTTAWA, May 8.—The Government has under consideration the reception and entertainment to be tendered the Spanish and American Peace Envoys upon their arrival and during their stay in Canada.

The meeting of the Envoys will be the greatest historical event of the time since the representatives of Russia and Japan, as the guests of the United States Government, negotiated and concluded the treaty of Portsmouth which terminated the Russo—Japanese War. While the peace commissioners are not coming here at the invitation of the Canadian Government, it is deemed only proper that they should receive a generous welcome and hospitality.

It is understood that a formal welcome will be extended to the visitors by some member of the Government who will go to Niagara Falls for that purpose, and that a Guard-of-Honor will be detailed, probably from the Toronto and Hamilton regiments. It is also understood that the Envoys will be invited to visit the principal cities of Canada as the guests of the nation.

EXPULSION OF ALSATIANS DENIED

(Canadian Press)

BERLIN, May 10.—The German Government issued a general denial today that they intend to gradually expel all French residents from Alsace Lorraine. The reports, it is asserted, were made by Alsatian members of the Imperial Parliament and by members of the Alsatian Diet.

MAORI CHIEFS GOING TO SEE GREAT WHITE KING.

MONTREAL, May 9.—Three Maori chiefs, Terata Mahuta, Mita Karuka, and Tupu Taingakawa, chaperoned by George C. Paul, an agent of the British government, have arrived in Montreal on their way to see the Great White King in England. This is the first occasion that any of the three has left New Zealand and they still declare that Auckland with its population of thirty thousand, is still the largest city in the world. The party leaves tomorrow by the Megantic. The chiefs will proceed to London, where they will be received by King George and present their grievances.

FISH INSPECTION AND BRANDING.

OTTAWA, May 9—Hon. J. D. Hazen's bill with respect to the inspection and brandicg of pickled fish as given a first and second reading n the house yesterday, and then referred to the Marine and Fisheries ommittee. The pickled fish industry aid Mr. Hazen, was in a languishing condition due partly to the poor ackages in common use which ruin the contents in transportation nd partly to the lack of a proper ystem of grading and careless and unsystematic methods of packing. The legislation will apply to both Pacific and Atlantic coasts and the minister expressed the opinion that there was a great future for the fishing industry on the Pacific coast.

DISCOVER AUTHOR OF MAIL LETTER

HALIFAX, May 8.— Three weeks of desperate fighting to conceal the identity of "Ian McLean," who wrote the letter attacking the legislature and published in the Evening Mail on April 16, came to end yesterday when the investigating committee discovered that J. McL. Fraser, assistant agent of the marine and fisheries department, was the man who brought this communication to the Herald office. It was dragged into the light of day, through the agency of a telegram sent by W. H. Dennis to Senatar Dennis, through the Western Union office.

PREPARING FOR A GREAT PICNIC OF ODDFELLOWS.

MIDDLETOWN, May 9.—M. A. Fower, representing the Oddfellows' lodge of Kingston and E. C. Parker, of Berwick Lodge, were in Middleton today to meet T. M. Buckler of Sunbeam lodge, Middleton, to comrise a committee appointed to arrange for a picnic or rally of the Oddfellows of District No 27. The committee decided to recommend June 20th as the date for the picnic and Digby as the place. All Oddfellows from Kentville to Digby are to be invited to join in the rally.

THE McGILL GRADUATES.

MONTREAL, May 9.—Ninety-nine students from the faculty of Applied cience and eighty-one from Arts will have the right to sign their names with portions of the alphabet attached after Tuesday next when the McGill convocation for awarding degrees takes place. Women students have done well this year, ten passing with honors and twenty-four getting the ordinary degree.

Minards liniment cures garget in cows.

THE CUP DEFENCE RESOLUTE'S ACCIDENT

BRISTOL, R. I., may 8.— Shortly after coming off the marine railway yesterday the Cup Defence candidate Resolute began to make water so rapidly that for a while it was thought she would sink. After two hours of pumping she was put back on the railway, where it was found that the valve cap on a steel hawser over the centreboard had not been properly adjusted. The yacht was not damaged.

ARMY OF MEN MAY VISIT THE PREMIER

CALGARY, Alb., may 8.— Local I. W. W. leaders would have the unemployed march from Calgary across the dominion to Ottawa to present a petition to the premier for work similar to the trek of Coxey's army. The idea was brought up last night and was enthusiastically received.

STARTED A BLAZE IN PILE OF MONEY

TORONTO, May 8,—Jim Lee, who is reputed to be Toronto's wealthiest Chinaman, is considerably the poorer as the result of a misfortune early this week. He was searching a trunk which contained bills amounting to $1,800 in value, when the candle which he was holding in one hand to aid him in the search, fell into the trunk and ignited the pile. In a moment the bills were in flames. So excited was Lee that his efforts to extinguish the blaze were only partly successful, part of the contents of the trunk being completely destroyed, while the rest of the bills were partially burned.

Lee knew that partially burned bills were redeemable so he carefully collected the charred fragments and took them into a downtown bank. There were remains of fives, tens, twenties and hundred dollar bills among the collection.

About half of the burned money will be redeemed. Some of the bills are burned beyond any possibility

ISLANDERS' SUCCESS AT McGILL COLLEGE

The results of the graduating classes in Arts, Applied Science and Architecture at McGill University were announced on Thursday last. The results this year are satisfactory in the extreme, there being passed 88 students in the Faculty of Arts and 104 in Applied Science.

P. E. Island students made a splendid showing, and their record will be a source of much gratification to their friends. Five Islanders figured in the graduating list, four in the Science class and one in the Arts.

Messrs. Boswell Maxfield Lea, of Victoria; F. Kimball Keeping, of Murray Harbor; Harold Albert Meservy, and Harold Poole Stanley, of Charlottetown; graduated as Bachelors of Science (Civil Engineering.) Mr. Stanley took honors in Geodetic Work and Geodesy.

In the Arts Class the Island was also represented, Miss Mabel E. Longworth graduating as Bachelor of Arts (Class II.) Among the second year students Islanders were especially to the fore, Mr. Clyde Auld and Mr. Clarence Tidmarsh between them leading the first class in nearly every subject. Mr. Auld is a son of the late Mr. George E. Auld, Brighton, and Mr. Tidmarsh is a son of Mr. and Mrs. W. F. Tidmarsh, Brighton. Two Island young ladies, Misses Wanda Wyatt and Jean McDonald, did exceptionally well Miss Wyatt is the daughter of Mr. J. E. Wyatt, of Summerside, and Miss McDonald is a daughter of Mr. and Mrs. G. A. B. McDonald, of the city. The Guardian heartily congratulates these brilliant young students.

DETAILS.

Degree of B. A. Class II—Mabel E. Longworth.

SECOND YEAR.

English Comp—Class I—1st. clyde Auld, 2nd, Clarence Tidmarsh.

English Lit.—Class I—1st. Auld, 2nd. Tidmarsh.

History—Class I—1st. Auld, Class II—Tidmarsh.

Political Economy—Class I—Tidmarsh, Class II Auld.

Logic—Class I—1st. Tidmarsh, Class II—Auld.

Physchology—Class I—Auld, Class II—Tidmarsh.

English History—Class I—Wanda Wyatt.

French—Class III—Wyatt, Jean McDonald.

Latin Class III—Wyatt,

Algebra—Class II—Wyatt, Class III—MacDonald.

Physics—Class III—Wyatt, Class III MacDonald.

THE SUFFERERS BY THE SEALING DISASTER.

MONTREAL, May 9—It is expected that the different funds and donations for the relief of sufferers by the Newfoundland sealing disaster will bring Montreal's contribution up to about $25,000. The Board of Trade fund stands at $2,900, and that of the local Newfoundland so cities at $1,700. The Bank of Montreal and Royal Bank sent $5,000 each, Sir William MacDonald, $1,000, and other commercial houses have contributed direct. Several church collections and benefit performances have not been made yet.

ITALY TO TAKE PART IN EXPOSITION

WASHINGTON, May 8.— Secretary Bryan has received the formal note of acceptance on the part of the Italian government to participate officially in the Panama Pacific International Exposition to be held at San Francisco in 1915. An appropriation of two million lire has been made by the Italian Parliament.

SUMMER SCHOOL OF SCIENCE

In the place of the provincial Summer School for Teachers which was held here last summer and was very largely attended by the teachers of the Island, this summer the Summer School of Science, which is federal in its organization and work will be held here and with it will be combined the purely provincial school for island teachers which was so successfully inaugurated last year. In effect then last year's Teachers Summer School Course is being repeated but with the wider scope that the Summer School of Science will afford; moreover, the teachers of the Province will only be a part of the large number of students that will be attending this School. This arrangement has been made possible by the generous support given to the School by the Provincial Department of Agriculture. The coming session of the Summer School of Science will be its twenty-eighth since inception, and it will extend over three weeks, beginning on the opening on the 7th, uly and closing on the 29th, of the ame month.

The united meeting of these two educational organizations will make most important gathering and will bring to the city a large number of the most prominent educationalists of the Maritime Provinces and the eighboring republic.

The educational advantages that will be offered to the teachers who attend will be the highest. Now that so much increased attention is being given to agricultural education and nature study, the teacher who neglects to improve along these lines will be out of the race for promotion.

At the Summer School special opportunities will be given to study Agriculture, School Gardening and Nature Study. The faculty engaged are all specialists. In addition to the advantages offered by having an excellent teaching staff, there will be the other advantage—not by any means the least—of meeting and becoming acquainted with the foremost members of the teaching profession and thus getting into touch with the aims and methods of the educational authorities in the other provinces and comparing them with our own.

The following subjects compose the curriculum of the school:—Agriculture, Horticulture, Gardening, Nature Study, Agricultural Botany, Chemistry, Geology, Physics and Zoology. In addition to these sciences as applied to Agriculture, there will be courses given in Drawing, Manuel raining, Physiology and Literature.

Not only will this be an exceptional opportunity for teachers but to the citizens of Charlottetown themselves; it will afford the opportunity of becoming acquainted with a very desirable class of persons. It will also be a benefit financially to the City to have some hundreds of strangers staying in the City for upwards of three weeks paying their way.

DEATH OF JUDGE McDONALD

The Guardian announces with sincere regret the death of His Honor Judge Hector C. McDonald which occurred in the city at a late hour last night. His Honor had been ailing for some time. A few months ago he was seriously ill but he recovered sufficiently to be able to be out on the road. This was, however, only a flash in the pan it seems, since shortly afterwards the Judge became again very ill, but his demise was somewhat unexpected as latterly his condition had shown improvement. Last evening however, he began to sink, and the end came rapidly.

Judge McDonald's death will be deeply regretted by the entire community as he was a popular and highly respected citizen. At one time he held the important office of Attorney-General of this Province. This was under the Fred Peters Government. In 1901 His Honor was appointed to the post on the Judicial Bench which he held up to the time of his death. He was a man of many fine qualities, and by his death the rovince sustains a loss. On account of pressure of space a more extended bituary notice will appear in a subsequent issue. The funeral announcement will be made later.

STRENUOUS LIFE IN BRAZIL

PARA, Brazil, May 9.—Col. Roosevelt during his exploring trip through the wilds of Brazil lost over 56 ounds in weight. He was still very weak today, but his condition was etter, and he is recovering from the bscess on his leg, from which he uffered after bruising himself while working on a canoe in the rapids of he River Duvida.

The Colonel expressed his enthusiasm over the beauty and richness of he regions through which the expedition passed.

It is the intention of Col. Roosevelt to deliver a lecture before the Royal Geographical Society in London when, it is said, he will controvert the accuracy of some of the affirmations of A. Henry Savage Landor, the British explorer, in regard o the interior of Brazil, which was traversed by Mr. Landor in 1910-12.

WORKERS IN THE "GREAT PRIZE CONTEST" WILL GET LOTS OF ASSISTANCE IF THEY SMILE

Feel Confident, Be Energetic and Enthusiastic, Pleasant and Persevering and Success Will Surely Crown Your Efforts.

One Day Has Gone Forever, But Eleven Days Remain, During Which Great and Unparalleled Opportunities Are Offered to Accumulate a Big Reserve.

THIS IS THE GREAT "BOOSTER PERIOD"

There's a heap of satisfaction,
In the contest if you grin,
If you keep your nerve in action
And wear a lifted chin.
There's a joy in doing something.
That you never did before.
So don't be a deal and dumb thing—
Chance is knocking at your door.

It's in overcoming trouble
That a fellow gets his fun;
It's the shattering of the bubble
That is labelled "can't be gone."
And the harder that your fight is
Then the greater is your fun,
And the finer your delight is
In the prize that you have won.

It's the love of the game, the laurels of the winner, that makes any athletic game popular; it's the love of the fight, the satisfaction of knowing that you have succeeded that makes life worth the living; and so in a competition like this, it is the fun of working, the interest of rivalry that makes the prize worth more than their mere cash value. Be "truly game." Go into the contest as if you really meant to win first prize—and mean to. Organize business like methods of conducting your campaign of votes. This is essential to success in contesting for the $2500 offered in prizes by The Guardian.

Work hard yourself, collect coupons solicit subscriptions, make personal canvasses, but exert your best efforts as a director and organizer.

Enlist your family, relatives and friends, business associates, school chums, society and other people with whom you come in contact. Train them as a well disciplined army to work in your behalf. Do not attempt to shoulder the whole burden yourself. It is a poor friend who will not come to your assistance in the fight for a Guardian prize.

ENTHUSE YOURSELF

The live wire is the only effective wire. Be one yourself. Be full of energy charged to the limit of power. It will carry you far and will at once communicate a spark of enthusiasm to the person with whom you are trying to interest in your candidacy. You can't give what you don't possess and unless you feel confidence, energy and enthusiasm you have cannot arouse interest among your friends. Whenever you feel your spirit flagging refresh it with one of these thoughts:

You know the prizes are worth a whole lot of effort.

Every single candidate meets with a disappointment now and then. If a friend disappoints you, perhaps someone whom you expect nothing of may surprise you the other way. Try him.

A HARD FIGHT WINS FRIENDS

If you are a hard fighter. If you make your struggle for the big prizes warm and interesting, people will want to help you. They will feel that it is their campaign as well as yours. The normal man likes a good fight, and you can make him feel that he is an active, important, perhaps determining factor in a real man-sized prize for the winner.

If you are a leader, a thinker, an organizer, a worker, you can clip out the nomination coupon in this paper send it in, get busy and come out on top.

TIME TO GET BUSY

The contest is yet young; many are just beginning to realize what it means to procure a handsome prize for a few weeks' work. This offer really marks the start of the campaign opener and gives an excellent chance to make a good "get-a-way."

No one has, as yet, accomplished very much in the way of vote getting but soon all your rivals will get busy and you can't afford to loaf. Make a strong start now and see to it that no one gains an advantage over you.

THE TIME IS FLYING.

The working days of the contest are more than dancing along and if you have neglected to call on anyone you had better make it a point to see them at once, or some other candidate will secure their subscription. Right now is the time to realize on some of your promises and get them all in one this Booster period which will close May 23rd. If you can't land them all today, get right out tomorrow and keep at it until you have seen every possible subscriber.

Don't have anything else on your mind but this great offer until the 23rd day of May.

YOU HAVE A LARGE FOLLOWING

Remember that you have just as many friends and just as large a following as anyone else in the contest and have just as good a chance to succeed if you get at it in the right manner. You can't fail to win if you try. Instead of asking your friends for a favor, you are doing them a favor when you get them to take The Guardian. Go to the business men, professional men, mechanics, and men in all walks of life. They are not going to try to get along without the paper that prints all the news. Tackle everyone you meet and see what a big vote you can roll up.

There are many important things about this campaign that the management would like to talk about, but the Booster period of the present is so overwhelmingly overshadowing, it is blotting out every other consideration temporarily. There is really nothing else so important right now as a proper appreciation of this grand opportunity. If you improve it you will have cause for rejoicing, and if it is permitted to get by you, you will probably regret when the final count is made. Never again will it be as easy to get votes, and this chance to make good should not be looked by any candidate.

OFFICE OPEN UNTIL 8 P. M.

For the benefit of the candidates the contest department of The Guardian will be open until 8 o'clock each evening. The contest manager and his assistants will be glad to have anyone call before 8 o'clock as this department closes for the day at this hour. Bear in mind that the contest manager will be in his office until 8 o'clock each evening.

Remember this is "Booster Period" when votes have an extra value. A little effort now will give you a big start in the race.

SUMMERSIDE.

Earl Grady	4275
Miss Audrey Graves	3875
Miss Irene McLellan	2825
W. T. Perior	2450
Irene Kelley	4700
