SUICIDE THEORY TO BE DEFENCE OF RICHESON.

BOSTON. Nov. 2—Indications last night were strong that the claim that Avia Linnell committed suicide to be offered by the Rev. Clarence V. will form the nucleus of the defence T. Richeson, who is accused of slaying the 19-year-old music student with poison.

Notwithstanding the predictions and optimism of the defence, those who have forged the Government's case are confident that they have the right man in the young southern preacher. They say that no blunder has been made, and are elated over the fact that they trapped Richeson before he could flee.

They further aver that they not only believe him to be the perpetrator nf a most deliberately plotted murder, but regard him as a paysholological problem. They say that his alleged duplicity of life affords one of the most interesting studies that has come to the view of Boston criminologists in decades, and that the case abounds in queer phases.

Several lines of defence are open to Richeson. That he will attempt to establish an abili was early apparent. It is planned to make a sweeping denial of the Government's allegations, but, behind whatever form of explanation the defence may entrench themselves, it is obvious that the primary claim of cuicide would be helpful. Hence it would appear from the little that has cropped out from the defence that Richeson will deny all alleged connections with the tragic ending of a girl whom a few years ago he baptized and enrolled as a member of the little chapel in Hyannis.

Men prominent in the prosecution declare that as a last resort Richeson's defenders will have to plead insanity.

On the other hand Richeson's lawyers are positive he will be exonerated. From the hour that the finger of suspicion turned toward the pastor of the Immanuel Church, Mr. and Mrs. Moses Grant Edmands, whose elder daughter, Violet, was to have married the imprisoned preacher tomorrow, have stood by him steadfastly.

The attitude of the Edmands family has puzzled the public mind and been viewed from a variety of perspectives. Not only have the parents of Richeson's affianced bride supported him in his hour of ned, but they have even engaged counsel for him, and placed their wealth at his disposal.

Judging by precedent and every-day standards, the public has felt surprise at this. It has been argued by some that it is the best possible proof of the innocence of the accused. Others say he may have been adroit enough to deceive the Edmands' family and that they may believe him guiltless when he is not.

The fidelity of the members of the Edmands household in particular has caused not a few expert analyists to waver in their deduction and to decide that Richeson must have some convincing evidence.

The prosecuting officials are in hopes that eventually persons will come forward and supply the missing strands. They feel certain somebody must have seen Richeson and Miss Linnell together and figure the natural aversion to becoming involved in a capital case is what holds witnesses back. But they have managed to partly bridge the breach in their case by means of a telephone call and the story of the girl concerning what Avis told her about her meeting with a friend that afternoon and getting a headache powder from him.

There no longer appears to be any doubt as to the manner in which Miss Linnell took the poison. It was discovered by the medical examiner that her mouth and tubes were inflamed by its passage to the stomach, indicating that it would not have been taken in the form of a pellet or capsule. Evidently she had a solution or swallowed a powdered dose. The latter seems most likely in view of the fact that no vessel or poison container has been found at the Young Woman's Christian Association headquarters or among the dead girl's effects. She might have swallowed it from a little paper wrapping. The police think the balance of the poison was taken from Richeson's room before they got there.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

Mrs. B. S. Baker, East Margaretville, N. S., writes: "No mother would recommend for her baby any medicine of which she was not absolutely sure. A baby's life is too precious. A mother is always pleased to recommend to other mothers something that has been valuable in restoring the health of her own child. That is why I can highly recommend Baby's Own Tablets. They cured my baby who was suffering from constipation and I feel that I cannot praise them enough. I would advise all mothers with sickly babies to give them a trial, well knowing what the result will be." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

NEW BRUNSWICK WINS BEFORE PRIVY COUNCIL.

TORONTO, Nov. 2—A Canadian Associated Press cable announced that the Privy Council has allowed the appeal of the Receiver Genesal of New Brunswick from the decision of the Supreme Court in the case of Rex vs. Lovitt. The case was heard on July 27th. Local banking circles are well pleased with the decision, which indirectly means that deposit receipts need only be cashed at the branches, where they are given. "It is a far reaching judgment," declared James Bicknell, K. C.

The action was originally brought by the Receiver General of New Brunswick against the executors of George H. Lovitt, a ship owner of Yarmouth, N. S., who died in November, 1900, leaving an estate sof $557,982.58. Of this sum over $90,000 was on deposit with the Bank of British North America at St. John, N. B. The Government of New Brunswick claimed to be entitled to succession duties on this $90,000. The Supreme Court reversed the New Brunswick Courts decision, but has itself been reversed by the Privy Council which restores the decision of the lower courts, and holds the Government of New Brunswick entitled to collect.

According to Government Estimates

$100,000,000.00

was made in Western Town Property during the year 1909

Did you participate in these hugh profits or did you "pigeon-hole" the proposition submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: 'I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50. to $100. each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace. 1911?

POE A COMING COMMERCIAL CENTRE.

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to river and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forest furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontintental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important, features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold, and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada, who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present prices The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payment; or quarter cash, balance in six, twelve and eighteen months.

INFORMATION.

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us today.
