## Strength After Childbirth

"After my baby was born I was very weak and run-down. I was not able to do any heavy work but I had to be around on my feet all day. The strain proved too great and I was real sick for about two months. My mother advised Lydia E. Pinkham's Vegetable Compound and I started to take it. You should have seen the change in me. I am now well and strong and in good spirits. I have taken the Vegetable Compound ever since if I feel my energy lacking. I also take Liver Pills and I find them a wonderful help for constipation." —*Mrs. James E. Robson, Box 693, Fernie, British Columbia.*

## Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle.

Into a 16 oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make 16 ounces. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time, it promptly loosens the germ-laden phlegm. This three-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creasote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

## The 7 DIALS MYSTERY

By Agatha Christie

CONTINUED

PLANS

Jimmy's words lifted the discussion at once into a more practical sphere.

"All things considered," he said, "we haven't got much to go on. In fact, just the words Seven Dials. As a matter of fact I don't even know exactly where Seven Dials is. But, anyway, we can't very well comb out the whole of that dictrict, house by house."

"We could," said Bundle.

"Well, perhaps we could eventually —though I'm not so sure. I imagine it's a well-populated area. But it wouldn't be very subtle."

The word reminded him of the girl Socks and he smiled.

"Then, of course, there's the part of the country where Ronny was shot. We could nose around there. But the police are probably doing everything we could do, and doing it much better."

"What I like about you," said Bundle sarcastically, "is your cheerful and optimistic disposition."

"Never mind her, Jimmy," said Loraine softly. "Go on."

"Don't be so impatient," said Jimmy to Bundle. "All the best sleuths approach a case this way, by eliminating unnecessary and unprofitable investigation. I'm coming now to the third alternative — Gerald's death.

"Now that we know it was murder —by the way, you do both believe that, don't you?"

"Yes," said Loraine.

"Yes," said Bundle.

"Good. So do I. Well, it seems to me that there we do stand some faint chance. After all, if Gerry didn't take the chloral himself, someone must have got into his room and put it there—dissolved it in the glass of water, so that when he woke up he drank it off. And of course left the empty box or bottle or whatever it was. You agree with that?"

"Ye-es," said Bundle slowly. "But—"

HOW ABOUT SERVANTS

"Wait. And that some one must have been in the house at the time. It can't very well have been some one from outside."

"No," agreed Bundle, more readily this time.

"Very well. Now, that narrows down things considerably. To begin with, I suppose a good many of the servants are family ones they're your lot, I mean."

"Yes," said Bundle. "Practically all the staff stayed when we left it. All the principal ones are there still —of course, there have been changes among the underservants."

"Exactly—that's what I am getting at. You"— he addressed Bundle — "must go into all that. Find out when new servants were engaged— what about footmen, for instance?"

"One of the footmen is new. John his name is."

"Well make inquiries about John. And about any other who have come recently."

"I suppose," said Bundle slowly, "it must have been a servant. It couldn't have been one of the guests?"

"I don't see how that's possible."

"Who were there exactly?"

"Well, there were three girls — Nancy and Helen and Socks—"

"Socks Daventry? I know her."

"May have been. Girl who was always saying things were subtle."

"That's Socks all right. Subtle is one of her words."

"And then there was Gerry Wade and me and Bill Eversleigh and Ronny. And, of course, Sir Oswald and Lady Coote. Oh! and Pongo."

"Who's Pongo?"

"Chap called Bateman—secrectary to old Coote. Solemn sort of cove but very conscientious. I was at school with him."

"There doesn't seem anything very suspicious there," remarked Loraine.

"No, there doesn't said Bundle. "As you say, we'll have to look among the servants. By the way, you don't suppose that clock being thrown out the window had nay-thing to do with it."

"A clock thrown out of the window," said Jimmy, staring. It was the first he had heard of it.

THE SEVEN CLOCKS

"I can't see how it can have anything to do with it," said Bundle. "But it's odd somehow. There seems no sense in it."

"I remember," said Jimmy slowly. "I want in to—to see poor old Gerry, and there were the clocks ranged along the mantlepiece. I remember noticing there were only seven—not eight."

He gave a sudden shiver and explained himself apologetically.

"Sorry. But somehow those clocks have always given me the shivers. I dream of them sometimes. I'd hate to got into that room in the dark and see them there in a row.'

"You wouldn't be able to see them if it was dark," said Bundle practically. "Not unless they had luminous dials—oh!" She gave a sudden gasp and the color rushed into her cheeks. "Don't you see? Seven Dials!"

The others looked at her doubtfully, but she insisted with increasing vehemence.

"It must be. It can't be a coincidence."

There was a pause.

"You may be right," said Jimmy Thesiger at last. "It's—it's dashed odd."

Bundle started questioning him eagerly.

"Who bought the clocks?"

"All of us."

"Who thought of them?"

"All of us."

"Nonsense, somebody must have thought of them first."

PRESIDENTIAL ELECTION IN MEXICO

MEXICO CITY, Nov. 5—Mexico is clearing its decks for another of those great trials which almost invariably in the past have brought on revolutions. If nothing happens to prevent it, the people will go to the polls Sunday, November 17, to choose between Jose Vasconcelos and Pascual Ortiz Rubio for their next president. The campaigning so far has been accompanied by usual violence. There have been several assassinations, followed by the customary charges and countercharges. But the opinion prevails despite these incidents and those that may come electon day will roll around and the people will have opportunity to cast their ballots.

The serious phase of the elections, if there is to be any, will come after the voting, the consensus shows President Portes Gil has promised impartiality, but if Ortiz Rubio comes out of the elections with a majority it will be a difficult matter to convince the Vasconcelistass that they have been defeated fairly.

Final computation of the ballots is in the hands of the chamber of Deputies, the majority bloc of which is the Obregonista faction, frankly opposed to Vasconcelos. If this bloc should recognize a Vasconcelista Victory then, in the view of the public, proof definits will have been given that Mexico is at last "a country of institutions" and that "caudillaje,, or rule by force is ended.

If the Vasconcelistas consider themselves victorious and the announcement comes from the Chamber that Ortiz Rubio has been elected, developments may assume any one of various forms. Vasconcelos has been quoted as saying that in such event he would declare himself president.. On the other hand, he has referred to a "pacific" revolution in preference to an armed one. The question is whether he and his followers would choose caution as the better part of valor.

Ortiz Rubio is the nominee of the National Revolutionary Party created by General Calles to "weld together the revolutionary elements of the country" and preserve the principles of the Mexican revolution. His victory woudld mean continuation in power of the faction which has been represented in office by Obregon,o Calles and Portes Gil. Vasconcelos is the anti-Reelectionist Party's choice. He also claims to represent the principles of the revolution, but he differs with his opponents on the interpretation of them. His party represents the main opposition to the group now in power.
