IN referring to the death of Mr. George Jennings Trennaman, the Evening Times of Rochester, N. Y. says: George Jennings Trennaman, who died Nov. 24, in this city, was a well-known lawyer, as was his father. He was born in Rochester, Aug. 16, 1844, and always resided here. Mr. Trennaman served with credit in both army and navy during the civil war, and after his return prepared himself for the legal profession, which he practiced for nearly a quarter of a century. He was the only son of Richard Trennaman. He is survived by his wife and two sons, Richard and Benjamin, and one sister, Mrs. Benjamin Rogers, of Charlottetown, Prince Edward Island, who was unable to attend the funeral on account of the serious illness of her eldest son. Mr Trennaman was a member of C. J. Powers Post, G. A. R., a delegation from which attended the funeral and acted as bearers. The services were conducted by Rev. Dr. Olmstead of Asbury Church, with which the Trennaman family has been connected for over 50 years. The body was interred in Mt. Hope cemetery.

WHAT GOES UP.

Must Come Down.

Nothing is more certain that the use of so called tonics, stimulants and medicines which depend upon alcohol for their effect, is injurious to health in the long run.

What goes up must come down and the elevation of spirits, the temporary exhilaration resulting from a dose of Medicine containing alcohol, will certainly be followed in a few hours by a corresponding depression to relieve which another dose must be taken.

In other words, many liquid patent medicines derive their effect entirely from the alcohol they contain.

Alcohol and medicines containing it, are temporary stimulants and not in any sense a true tonic. In fact it is doubtful if any medicine or drug is a real tonic.

A true tonic is something which will renew, replenish, build up the exhausted nervous system and wasted tissues of the body; something that will enrich the blood and endow it with the proper proportions of red and white corpuscles, which prevent or destroy disease germs. This is what a real tonic should do and no drug or alcoholic stimulant will do it.

The only true tonic in nature is wholesome food, thoroughly digested. Every particle of nervous energy, every minute muscle, fibre and drop of blood is created daily from the food we digest.

The mere eating of food has little to do with the repair of waste tissue but the perfect digestion of the food eaten has everything to do with it.

The reason so few people have perfect digestion is because from wrong habits of living the stomach has gradually lost the power to secrete the gastic juice, peptones acids in sufficient quantity.

To cure indigestion and stomach troubles it is necessary to take after meals some harmless preparation which will supply the natural peptone and diastase which every weak stomach lacks, and probable the best preparation of this character is Stewart's dyspepsia Tablets which may be found in every drug store and which contain in pleasant palatable form the wholesome peptone and diastase which nature requires for prompt digestion.

One or two of these excellent tablets taken after meals will prevent souring, fermentation and acidity and insure complete digestion and assimilation.

Stuart's Dyspepsia Tablets are equally valued for little children as for adults, as they contain nothing harmful or stimulating but only the natural digestives.

One of Stuart's Dyspepsia Tablets will digest 1,800 grains of meat, egg or other wholesome food, and they are in every sense a genuine tonic because they bring about in the only natural way a restorative of nerve powder, a building up of lost tissue and appetite, in the only way it can be done by the digestion and assimilation of wholesome food.

HORSES FOR SEAT OF WAR.
