
row away the Washboard—Use Rins

THE old-fashioned wash-day is gone. With it has gone the everlasting ub-rub-rubbing and ugly hands, ame backs, frazzled nerves and short empers and a soapy odour all through he house.

Instead you use Rinso and *part* of a morning for the weekly wash.

You change the hard work of washing o just rinsing.

Just soak the clothes a couple of hours or overnight in Rinso suds, rinse, and that's all. Simple. Efficient. Time saving. Labour saving.

Don't try to do another washing without Rinso. Twelve leading washing machine makers say "Use Rinso".

TREE-TOP STORIES

SKY-GARDENS

ROSEMARY went out into the garden to smell her flowers one evening.

They lifted their faces and nodded sweet 'Good-nights' to her. Sometimes Rosemary heard mother-flowers singing their buds to sleep, and the wind hurrying about making their little beds smooth.

All of the flowers were looking up at the sky, so Rosemary looked up, too. There were the Star-flowers blossoming out one by one.

"Now I see why the flowers are never lonesome at night," she said to her Mother. "They talk to the flowers in the Sky-garden."

Fashion Fancies

By Marie Belmont

Paris decrees that the smart woman must have at least one black dinner frock, for black is more important at the moment than it has been for some time past.

To make the following of this decree easy, Paris has sent us a number of black dinner frocks, so desirable that the big difficulty is to narrow one's choice down, so as not to include them all.

The model above is a charming example of the effectiveness of black lace and black chiffon. The dress has cap sleeves, instead of long, tight ones, and it opens down the front like a coat frock.

Few Reach Forty Sound and Well

YOU may never have realized this fact. But it is well known to the medical profession—more especially to those who are associated with life insurance examination.

YOU do not think of yourself as being unfit and yet you may not be getting the most out of life on account of "minor ills," which if neglected develop into serious disease.

Too little exercise, too much heavy eating and soon there is torpid liver, constipation of the bowels and derangements of the kidneys.

Later developments are Bright's disease, diabetes, high blood pressure and hardening of the arteries.

The greatest preventive is Dr. Chase's Kidney-Liver Pills. By correcting the minor ills they head off serious trouble. As a regulator of the liver, kidneys and bowels this medicine, has an unparallelled record.
