MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, April 10—There is very little news this morning which could have any effect on the market. Dow Jones reports that there is a better stock market abroad. There seems to be less tenseness in the air this morning probably due to the rally yesterday. It will be interesting to note how the market responds to some of the first quarter statements. It is probable that the motors agreements will not be very good although steel should show a good increase over its first quarter of last year. As far as day to day trading is concerned we would look for considerable irregularity.

NEW YORK, April 10—Ford Company planned a basic wage of $10 a day which would be higher than any of its competitors or the minimum demands of U. A. W. who have signed agreements with G. M. and Chrysler and now seek to organize Ford workers. The manufacturer refused to confirm or deny the reports.

MONTREAL, April 10—Dominion Rubber—Though 1936 sales up 14 per cent over 1935 expenses also increased substantially, and operating profit at $864,734 was down from $965,956 in 1935. After interest, depreciation, etc., the net loss was $21,617 and after payment of dividends on preferred and minority holdings, net deficit was $235, loans payable increased from $188,735 to $1,417,000.

Dome Mines—First quarter production at $1,901,623 down 5.7 per cent. Pioneer Gold March production up 11.4 per cent over February but down 18.9 per cent from March 1936.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

MORNING MARKET LETTER

Renewed nervousness over the rumored reduction in the gold price disturbed foreign markets yesterday and liquidation carried over to the New York market, sending leading stocks into new low ground on the current move.

The statement by the President that the Government contemplated no change in its gold policy stemmed the selling and brought a sharp rally. The best prices of the day were reached in early afternoon and a mild setback was incurred so that most stocks closed a good bit below the day's highs.

The denials of the administration with reference to the matter of gold prices does not quell the growing world wide opinion that the price of gold is so high that production has been excessively stimulated, making the metal less attractive to most nations than goods and services or the earning power of sound securities.

In recent years the wave of managed credit and currency systems established throughout the world has tended to make gold lose a large part of its former importance as the basis for national credit and currency while its use for the settlement of trade balances among the various nations has been overshadowed by its use as a vehicle for the flight of capital.

We feel that the correction of the situation will require an international understanding among the leading capitalist nations as to the future role of gold in world finance and that it cannot be solved permanently by variations in the price of the metal.

It is obvious that this country cannot go on indefinitely as the sole mportant purchaser of gold and increasing the government debt to purchase it and prevent it from entering the government credit structure. One solution might be an agreement to limit purchases of the metal by all nations to the amount necessary to settle legitimate trade balances.

Except for some temporary unsettlement in world commodities and perhaps a lower world price for gold, we do not believe that any permanent harm would be done to international trade and security or commodity values by the clarification of the future status of gold among the leading commercial nations.

Laidlaw & Company.

SUMMARY

U. S. Steel Corp. shipment figures will be issued at 11.55 a. m.

New York Dock Co., including N. Y. Dock trade Facilities Corp. 1936 net loss $187,775 against $1,-258 in 1935.

MINING

(Canadian Press)

TORONTO, April 11—Traders treated the stock market with caution in the closing session of the week, buying in moderation and raising bids narrowly. The scare about a possible cut in the price of gold was apparently removed by Washington reassurances and price gains raised the miscellaneous mines index a small margin.

A steady to strong tone ruled in the oils. The western issues did not make much headway with the rally noticed on Friday but a majority of them, including Royalite, Okalta, Lowery, Model, Calmont and A. P. Consolidated were up slightly at the close.

The base metal leaders opened strong but failed to carry through and the close was unchanged to slightly lower for Consolidated Smelters and Noranda while Hudson Bay, Falconbridge, Sherritt and Sudbury Basin advanced. Eldorado firmed 10 cents and the other silvers were dormant.

Gold stocks advancing 7 to 15 cents included Kerr-Addison, Kirkland Lake, Macassa, Mining Corporation, Perron, Pickle Crow, Premier, Preston, Sullivan, and Wood-Cadillac. Sylvanite and Siscoe added 20 cents each.

SPRING PARK SCHOOL

VETERAN C. N. R. CAR SUPERINTENDENT RETIRES

WINNIPEG, Man., April 10—After more than forty seven years of railroad service in Canada most of which has been spent in the West, T. H. White, superintndent of car service, Canadian National Railways, has retired to private life. Mr. White, one of the "old school" in the railroad fraternity is one of the best known car servicemen on the continent. He was the guest of honor at a dinner at the Fort Garry, when his brother officers made recognition of his long contribution to railway life in Canada. Mr. White will be succeeded in Winnipeg by W. A. Kirkpatrick of Edmonton, who for some years has occupied the post of superintendent of transportation. Mr. Kirkpatrick took over his new duties yesterday.

That Body of Yours

By James W. Barton, M.D.

IT IS THE PERSONALITY OF THE PATIENT THAT CAUSES PEPTIC ULCER

A patient who had suffered for a long time with an ulcer of the stomach finally tired of watching his diet and taking alkaline powders and decided to undergo operation. The operation was successful and he felt that now his troubles were over; that he would have no further pain or discomfort.

In expressing this thought to his physician he was surprised and disappointed when he was told that another ulcer might form at some time in the future unless he used "extreme" care; that "ordinary" care of his diet and habits would not be sufficient.

The physician explained that it was not his stomach that was at fault. It was his personality; the way he worried about business, his hurry with meals, his disposition to find fault or quarrel, his irregular hours, eating when tired or upset and other little parts of his make-up that made the ulcer form.

"The person who develops peptic ulcer (ulcer of the stomach and ulcer of the duodenum or first part of the small intestine into which the stomach empties) is more important than the ulcer itself. It is not the stomach but the man who is ill."

Dr. George Draper, professor of Clinical Medicine, Columbia University, in Clinical Medicine and Surgery, says that "violent, destructive emotional outbreaks — fear, anger, jealousy, and the like—frequently cause an increase in the symptoms of peptic ulcer. There seems to be a brain centre which begins or controls emotion, and from which the emotional upset comes; but the way these emotions are expressed depends upon the individual's make-up, without his being at all conscious of the fact."

"Peptic ulcer is, then, a part of the personality of the sufferer, and is determined by the immediate emotional conditions at the time."

Now when we remember that at least one in every fifty men and women have peptic ulcer, and a great many more have the personality or make-up that invites or causes peptic ulcer, it gives us some idea of the number of "nervous" or high strung individuals there are about us.

Although these individuals are born with this tendency, the cultivation of calmness and poise is always possible. This calmness of spirit can prevent peptic ulcer.

HARRINGTON SCHOOL

Honor roll for March:

Grade IX—1 Helen Phillips, 2 Joyce Newson.

Grade VII—1 Anita Cudmore, 2 Oledine Phillips.

Grade VI—1 George Cudmore, 2 Arthur Rodd, 3 Hilson Hughes.
