

Holy Name Club Bowling Schedule

At a meeting held in the Holy Name Club Friday night the following bowling teams were organized.

Schedule of Games

- Oct. 17—Team no. 1 vs. team no. 2.
Oct. 18—Team no. 3 vs. team no. 4.
Oct. 19—Team no. 5 vs. team no. 6.
Oct. 20—Team no. 7 vs. team no. 8.
Oct. 21—Team no. 1 vs. team no. 3.
Oct. 22—Team no. 2 vs. team no. 4.
Oct. 23—Team no. 5 vs. team no. 7.
Oct. 24—Team no. 6 vs. team no. 8.
Oct. 25—Team no. 1 vs. team no. 4.
Oct. 26—Team no. 2 vs. team no. 3.
Oct. 27—Team no. 5 vs. team no. 8.
Oct. 28—Team no. 6 vs. team no. 7.
Nov. 1—Team no. 1 vs. team no. 3.
Nov. 2—Team no. 2 vs. team no. 4.
Nov. 3—Team no. 5 vs. team no. 8.
Nov. 4—Team no. 6 vs. team no. 7.
Nov. 5—Team no. 1 vs. team no. 3.
Nov. 6—Team no. 2 vs. team no. 4.
Nov. 7—Team no. 5 vs. team no. 8.
Nov. 8—Team no. 6 vs. team no. 7.
Nov. 9—Team no. 1 vs. team no. 3.
Nov. 10—Team no. 2 vs. team no. 4.
Nov. 11—Team no. 5 vs. team no. 8.
Nov. 12—Team no. 6 vs. team no. 7.
Nov. 13—Team no. 1 vs. team no. 3.
Nov. 14—Team no. 2 vs. team no. 4.
Nov. 15—Team no. 5 vs. team no. 8.
Nov. 16—Team no. 6 vs. team no. 7.
Nov. 17—Team no. 1 vs. team no. 3.
Nov. 18—Team no. 2 vs. team no. 4.
Nov. 19—Team no. 5 vs. team no. 8.
Nov. 20—Team no. 6 vs. team no. 7.
Nov. 21—Team no. 1 vs. team no. 3.
Nov. 22—Team no. 2 vs. team no. 4.
Nov. 23—Team no. 5 vs. team no. 8.
Nov. 24—Team no. 6 vs. team no. 7.
Nov. 25—Team no. 1 vs. team no. 3.
Nov. 26—Team no. 2 vs. team no. 4.
Nov. 27—Team no. 5 vs. team no. 8.
Nov. 28—Team no. 6 vs. team no. 7.
Nov. 29—Team no. 1 vs. team no. 3.
Nov. 30—Team no. 2 vs. team no. 4.
Dec. 1—Team no. 5 vs. team no. 8.
Dec. 2—Team no. 6 vs. team no. 7.
Team no. 1. Jos. Hughes (Capt.), John Malone, Andy Martin, John Chandler, Ernest Gallant, John Hogan, Harry Hennessey.
Team no. 2. Bob Duncan (Capt.), Frank Doucette, John Doyle, Jack Purrell, Watson Craswell, Forest Slocombe, Felix Buote.
Team no. 3. J. A. Bentley (Capt.), V. Kelly, Lem. Gauthier, Joe DesRoches, Gus Murphy, Ed McMillan, Rev. E. O'Hanley.
Team no. 4. Fred Tierney (Capt.), I. McCabe, Gus MacDonald, Bill Dooley, Ed Laverty, C. MacDonald, Bill Brown.
Team no. 5. Benny McMillan (Capt.), Urban Gallant, Ted Dolan, T. Crehan, H. Harley, Paddy Doyle, M. Bolger.
Team no. 6. Wilf Coyle (Capt.), Vince Gallant, Vic Coyle, Con LeClair, C. Holman, I. Harley, J. Holman.
Team no. 7. Amby Joy (Capt.), Wm. Hogan, Jim McCallum, Bill Power, J. D. Webster, Amos Gallant.
Team no. 8. Bill Carmody (Capt.), B. McQuarrie, Earl Ramagham, Vernon McEachern, Leonard MacDonald, Plus Clarkin, Jack McIsaac.
Names will be assigned to the above teams later. The first game of the schedule will be rolled tonight.

Highlanders Win From Signals

SLUMP ON FINAL RANGE DISASTROUS TO FLAG-WAGGERS

A bright day with a sharp cross range wind greeted the rifle teams of the P. E. I. Highlanders and No. 2 Signal Company on Saturday afternoon as they took the mound to settle the question of superiority for this season at last.

The scoring was fairly high considering the fact that most of the contestants had not been shooting for a matter of weeks with the inevitable result of points lost.

From the start it was anybody's match, at the finish of the 200 yard range the Signals had gained a lead of 3 points; however, on going back in the wind over the longer ranges, the Highlanders with their greater experience soon out this lead down, and at the finish of the 500 yard range were within one point of their adversaries.

Both teams went back to the final range 600 yards, with high hopes, but at this range the first rifle of the Signals faltered, dropping 13 points, while the Highlanders by dropping only 5 points had turned a deficit of 1 point into a lead of 7 points. In the final rifle the Signals made a brave effort to overtake the leading kilties but could only gain 3 points, the P. E. I. Highlanders winning the match by 4 points. Sgt. G. G. McLennan was the high scorer of the day with 102. George had possible at the 200 and 500, but dropped 3 points at the 600 range.

After the match the money prizes were awarded in the individual competition and a vote of thanks tendered the genial Colonel Leigh, who had kindly consented to act Range Officer and had carried out these duties in a very efficient manner. The results were as follows:—

SUMMARY

P. E. I. Highlanders

Table with 4 columns: Name, 200, 500, 600, Total. Includes A. W. Allan, Percy Hooper, Jas. Coles, Roy Coles, A. J. McCabe, G. G. McLennan.

No. 2 Company, 6th Div. Signals

Table with 4 columns: Name, 200, 500, 600, Total. Includes F. B. Conrad, A. Gormley, P. J. Landrigan, W. A. Smith, J. S. McDonald, J. S. Moore.

Individual Competition

Table with 2 columns: Rank, Name. Includes 1. Sgt. G. G. McLennan, 2. Capt. W. A. Smith, 3. Leigh P. Hooper, 4. Sgt. A. Gormley, 5. Capt. A. W. Allan, 6. Sig. P. J. Landrigan.

Gridiron Notes

On the Mainland

Rugby promises to be interesting in Nova Scotia and New Brunswick this year, although thus far the Wanderers have in every instance shown unmistakable superiority. They defeated the Mount A. fifteen 16-4, and Saturday in the (Halifax) City League opener trounced Acadia 3-0. Dalhousie after suffering a 10-4 defeat from Mount A. some time ago came back Saturday to defeat the Mounties 3-0. U. N. B. has a powerful squad, as usual, and will play off with Fredericton City and Mount A.

New Uniforms

The red and black uniforms for the Abegweit squad have arrived and will probably be issued to the boys to-day at practice. Uniformity of dress is a very important factor in connection with the morale of the team, and no longer will the squad march onto the field in a riot of colour.

League Opener

The Halifax City League teams, Wanderers, Dalhousie, and Acadia, opened their series Saturday when the Wanderers and Acadia clashed. The Kelly clan proved to be a very strong team, and were nosed out by only one try. Much interest has always been exhibited locally in the Acadia squad, due to the

Snake Charming

Snake charming in India, with which country one invariably associates snakes, for some months has been the subject of much controversy, according to newspapers and letters received here from Miss M. J. R. McDonald, Strahdara Mills, Punjab, India.

Miss McDonald is a native of Belle Cole, C. B., and for the past twenty eight years has been a missionary in India. She has the efore had the opportunity of hearing many stories regarding the weird charming of poisonous and deadly snakes, which infest some areas of that country.

Whether or not so called snake charmers possess actual ability to induce snakes out of their hiding places, in or rendered harmless remains a question to many people, some contending that the charmers are dishonest, and in their desire for pecuniary rewards, will throw snakes about in likely places for the sake of catching them again to procure a reward.

Many arguments both for and against their activities have been offered by people who think they are in a posit'on to know what is what.

Miss McDonald writes that judging from the volume of evidence produced there must be something to the snake charmers art. "I, myself," she says, "have seen the hooded cobras waving from side to side in perfect time with the music from the gourd. There must be a nervous reaction to it. Otherwise they could not even be taught to hold up their heads and sway in time even by being prodded."

Many snakes are killed on Miss McDonald's premises, she writes, while last summer a nightwatchman at a nearby school was bitten at two o'clock in the morning and at ten he was being taken away to be cremated.

Interesting tales appeared in the Military Gazette published in Sahore, India, for a couple months this summer, in which people gave their personal experiences and viewpoints.

One correspondent tells of all attempts to destroy snakes on his premises failing and his eventual recourse to a snake charmer.

The assumed abodes of the snake were pointed out in the presence of about a dozen of us and he commenced operations. The charmer's outfit consisted of a very brief dhoti and an alleged musical instrument, the former being tied round his waist. A space was cleared and he played a few enchanting airs in the vernacular, during which he kept tapping the ground with his elbows, and in less than a minute a karait, about three feet long, emerged out of one of the small pipes at the bottom of the stack. Meanwhile the artist continued playing, the snake being about twenty feet away at the time. It then seemed to stiffen and in short jerky movement wriggled towards the purveyor of music until within a foot of him whereupon he ceased playing and gently touched it on the head with the instrument. This seemed to stupefy the reptile, although it was merely a touch.

He then withdrew from his loin cloth some kind of root and placed it in the snake's mouth, explaining that this would rot its teeth. The snake made no effort to escape or bite but seemed particularly com-

SHIP TUG-OF-WAR RULES FOOTBALL RESULTS

NEW BRUNSWICK RUGBY RESULTS

The following are the Rules of the Tug-of-War to be held in the Forum, Charlottetown, P. E. I., Wednesday, October 19, 1932 for the Championship of Prince Edward Island.

1. Tug-of-War shall be pulled on Cleats, 4 inches thick, 6 inches high and 22 inches long, 6 feet 6 inches apart.

2. The rope shall be not less than 4 1/2 inches nor more than 5 inches in circumference. There shall be a clamp in centre which shall be sufficient to hold rope in position until released. No mechanical device or belts to be used in holding the rope.

3. The time limit for each pull shall be three minutes. The team having their opponents marker nearest the centre line at the expiration of the time limit shall be declared the winner.

4. Light weight teams shall be weighed in at the Forum immediately before pulling. No knots of any kind shall be tied in the rope, and the rope shall not be passed more than once around the body of the anchor.

SCORES

(Continued from Page 1)

Isolation "looking to the correction of abuses, extravagant management and costly and uneconomical competition that have brought the roads to the pass they are in to-day," he said.

BASKETBALL

In the first exhibition of girls' basketball played at the Y this year under the girls' intercollegiate rules the P. W. C. co-eds defeated their younger rivals the Prince Street School team, by a score of 29 to 11. The resulting score is contrary to general opinion that playing under such rules makes a slower game and a lower score.

Another resident relates an equally interesting experience, in which the charmer succeeded in banishing two snakes, each in the vicinity of four feet in length. He had discarded his clothing except for his dhoti, which he wound round his loins tightly and playing on his musical instrument, began to dance. Soon the first snake made its appearance and was caught by the charmer, who burned its gums with a yellow colored stone. This he explained burned away the fangs. The second snake was caught in a similar manner and similarly disposed of.

"There is this to be said about it," the party stated, "that previous to these snake charmers' visit, the servants complained of having seen two big snakes in the garden; whereas after the snake charmers' visit no more snakes were ever seen or have since been heard of; but like a woman, my wife is still adamant that it was a trick, she having been of the opinion that the charmers had had the snakes concealed on their person when they proceeded to do their charming act."

On the other hand a woman writing to the Gazette very emphatically expressed her disbelief in the powers of the snake charmers. It is her contention that the music and charm is pure myth and that the snake charmer places one of his own reptiles in the particular spot that is shown him and it is that one which he removes. "I have known of a true case in Jubulpore, where a gentleman called in a snake charmer to remove a cobra from a certain hole in his garden and if he succeeded, he would be well paid. He was actually seen placing one of his own cobras in the hole that was shown him. Needless to say he was kicked out of the compound for his make believe."

(By L. Griesbach, Dominion Experimental Station, Fredericton, N. B.) Egg prices are invariably higher in winter than in summer, hence a winter egg production is one of the import factors contributing to a profitable poultry enterprise. Winter egg production is influenced by breeding, feeding, health and general management of the flock.

At the Experimental Station, Fredericton, pullets are selected from high producing hens and males are used whose dams have been good winter producers as well as having a high total production. Pullets should be selected which are healthy, well developed, vigorous and typical of the breed they represent. Pullets of the heavy breeds should be hatched in April preferably about the fifteenth of the month. Pullets of light breeds should be hatched during the latter part of April or early in May. By hatching at that time the pullets will have time to develop sufficiently before being brought into production. There seems to be a correlation between body weight

and size of egg so if pullets are forced into production before they are properly developed, egg size may suffer.

Young birds should be fed on a good growing ration. More vigorous birds will be obtained if they are allowed free access to range which is abundantly supplied with green feed and provision should be made for rearing away from adult stock on ground that is not contaminated. Intestinal parasites are a very serious menace to the poultry breeder and they can best be controlled by rearing chicks away from the adult stock on ground which has not been ranged for at least a year and which in the meantime, has been ploughed and seeded. Birds should be brought in from range the latter part of September and placed in winter quarters with plenty of ventilation and also placed on a regular laying ration.

Canada will have the second largest telescope in the world when the new reflecting telescope which is now being constructed for the David Dunlap Observatory, University of Toronto, is completed, according to the Tourist and Convention Bureau of the Canadian National Railways. The mirror for this huge telescope, which is now being manufactured in England, will weigh 5,000 pounds.

FOUND!

● Gillette has discovered an unailing process for hardening steel uniformly. This achievement solves the problem that has baffled metallurgists—and now makes it possible for you to obtain razor blades of unvarying high quality. Ask your dealer for the Gillette BLUE BLADE. The Blue Blade is made in addition to the regular Gillette Blade sold in the green package.

UNCLE SAM

(Continued from Page 1)

exporters of manufactured goods will foot the bill."

MONTREAL, Oct. 16—"We must trade with those who are willing to trade with us," was the comment of Sir Herbert Holt, President of the Royal Bank of Canada and of numerous other companies, today in discussing the agreements between the various parts of the Empire, and tariff changes resulting therefrom. As long as the United States was building up its country Canadian trade was all right, but today the United States wanted only newsprint and nickel from Canada and consequently Canada had to turn elsewhere for markets, Sir Herbert said in welcoming the present turn in the direction of Empire trade.

Canada had to maintain a favorable balance of trade with the United States because of Canadian commitments at New York, he added.

The "Swallow" owned by Hon. J. C. Tory, former Lieutenant Governor of Nova Scotia, won the Nova Scotia Hotel cup for the season's class racing 1932 among the "Bird" thirty foot class yachts of the Royal Nova Scotia Yacht Squadron Halifax, N. S. The cup was donated when the Nova Scotia Hotel was under construction. It is a magnificent piece of silverware and among the Yacht Squadron's cherished possessions. The Royal Nova Scotia Yacht Squadron is over 104 years old and received the right to prefix the word "Royal" and fly the blue ensign under British admiralty warrant in 1880.

Many of the drugs in the pharmacopoeia come from the plant world in addition to those produced synthetically. Among the common medicinal plants which occur in Canada are clodroot, wintergreen, tansy, horehound, caraway, yellow-lady's slipper, balm of gilead, spearmint and peppermint, according to the Natural Resources Department of the Canadian National Railway.

"Because of the condition which he had reached, because of the effect of that condition on world money markets, because of the fear expressed in relation to it, because of the world-known rate of extravagance at which the Canadian National was going, something had to be done, first, to expose the situation and, next, to suggest a cure."

The Duff Commission had made a thorough examination, said Senator Meighen. He repeated that the people of Canada were "jealous of the Canadian National system," adding that "even those who criticized the very thought of government ownership in 1919 became adherents of government ownership."

Loose Rein on Finance

"It never was dreamt that the policy of 'hands off the C.N.R.' should be interpreted as 'hands off the control of the capital finances
