Too Many Nurses In New York State

ALBANY, July 12.—New York State has too many nurses, according to the findings of a State Education Department study of nursing education and practice. The study showed there are 40,000 registered graduate nurses in the state and that 30,000 of them are seeking to earn a livnig at their profession. The number has increased 219 per cent since 1922, while the increase in the population of the state during that period was 22 per cent.

The study showed that if all active nurse practitioners had one patient at a time, the maximum potential possibility of employment would be 172 days a year for each, and that private duty nurses have a current average income of $300 and $400 year.

It was found that 2,800 nurses are graduated each year, whereas only 1,500 are needed to replace those droppng out: that more than 36,000 unlicensed and untrained nurses are are working for hire in the state, and that there is laxity of control of the nursing practice.

Remedial suggestions include licensing of all nurses practicing for hire under two classifications—registered and practical—and reorganization of nursing education with schools attached to educational institutions.

GRAIN

CHICAGO, July 12—Acute weakness which showed itself in the corn market at times today acted as a wet blanket on enthusiasm of wheat buyers.

September delivery of corn touched an extreme low of 4 cents under yesterday's clos, and this tnded to upset buying operations in wheat. Apparent willingness of corn growers to accept current prices formed an outstanding feature.

Corn closed heavy, 1¾ to 2⅞ under yesterday's close and this tended to ⅝, wheat unsettled, ⅝ to 1⅜ advance September new 94⅝ to ¾, oats 1⅛ to 1½ down, and provisions unchanged to 10 cents off.

CANADIAN NATIONAL RAILWAYS

SAFETY SPEED COMFORT SERVICE

Make the Most of Summer .... Use the Railways for Touring.

Public opinion in Canada has enthusiastically endorsed the movement for increasing tourist travel. From every point of view only good can result. There is, however, a tendency to associate this movement almost wholly with the bringing in of visitors from other countries.

Of course these guests are welcome and their numbers cannot be too great; but Canadians should themselves share in the pleasures of their own country to the fullest extent possible.

To enjoy Canada it is not necessary to traverse hundreds of miles. Quite frequently a short railway journey will open up unexpected avenues of happiness and health at little cost of time and money. Longer trips will naturally provide more decided changes of atmosphere and scene and will prove well worth the time and expense involved.

Let us show our visitors that we ourselves appreciate what our country offers so bountifully. In doing so all business will be stimulated. A vacation tour, or a short trip, can therefore be not only a source of pleasure to oneself but of distinct advantage to the country.

The railways through their transportation systems, hotels, lodges, and summer resorts are very important contributors to the comfort and happiness of the pleasure seeker, whether he be the welcome stranger within our gates or the resident Canadian. Canadian National Railways are equipped to provide full and satisfactory service and the cost is pleasantly low.

You can wholeheartedly recommend the C. N. R. to your friends abroad, and you can use it yourself, feeling that in your search for pleasure, no less than at other times when in quest of business, it is your safe, dependable, and willing helper.

Railways provide special summer fares and excursions. You should enquire about them.

NEW YORK EXCHANGE

(By Frederick Gardner, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire)

NEW YORK, July 11—Stocks assumed an easier tone with commodities today but trading dwindled.

Enthusiasm for grains and cotton, whipped up by this week's government crop and acreage estimates, cooled overnight, although wheat scored further net advances of 5-8 to 1 3-8 cents a bushel after being up as much as 3 cents a bushel at one time.

Industrial stocks encountered increased offerings as they neared the peaks of the June rally and retreated slowly.

While waiting for indications of the late summer business trend, traders were unwilling to do much on either side of the market and prices continued to move in the narrow range outlined recently.

Volume on the stock exchange decreased to 466,392 shares compared with 648,540 yesterday. The Standard Statistics Co. average for 90 stocks closed off seven-tenths of a point at 78.7.

Steel, rail, motor and utility shares were particularly heavy and losses of a point or more were recorded in U. S. Steel, Chrysler, Santa Fe, New York Central and Western Union.

National Distillers rallied fractionally from its decline yesterday and a number of preferred stocks with thin markets made sizeable gains.

Mining shares reacted with the general list as traders accepted profits accruing from advances earlier in the wek. Howe Sound, McIntyre, Alaska Juneau and other metal shares sold off fractionally to a point or so.

Estimates that the weekly carloading report tomorrow would show the first decline from 1933 recorded this year, together with the attention focused on current railroad problems by the meeting of railroad executives at Atlantic City, caused scattered selling in rails.

A break in corn checked the rise of grains. Corn finished 1 3-4 to 2 7-8 cents lower after recovering from an early decline of four cents. Oats, rye and barley yielded a cent to two cents on the average. Cotton reacted after adding about $5 a bale to the price of futures since Monday and closed off 75 to $1.25 a bale. Rubber, sugar and hides moved lower.

Government securities eased, but high-grade corporate bonds continued to point to new high territory for the past year or longer.

In the absence of significant trade and political news, aside from the proposal for a basic NRA code for minor industries, commodity markets continued to occupy the speculation spotlight.

The weekly federal reserve system statements disclosed another substantial gain in member bank reserve balances. The increase amounted to $156,000,000. Monetary gold stocks advanced $15,000,000 as funds returned to the banks from holiday use and the mid-year demand for currency passed. The statements indicated that the U. S. Treasury has resumed its draft upon its "free" gold supplies.

MONTREAL EXCHANGE

(C. P. By Guardian's Special Wire)

MONTREAL, July 12—Inaction and dullness was again in evidence on the Montreal Stock Exchange today. In another session of featureless trading, less than 7,000 shares changed hands.

The price trend was irregular, nine stocks advancing, eight declining and 12 issues holding steady at their former levels, a total of 29 issues in all making an appearance in board lot form.

International Power Preferred engaged in one of the widest movements of the day, selling at 25 3-4, up 1 3-4. Montreal Power gained 1-4 at 34 7-8. Massey Harris rose a like fraction at 4 1-2. Fractional gains were made in Canadian Hydro Electric Preferred, Cockshutt Plow, Dominion Bridge, Dominion Steel and Coal "B," General Steel Wares and Steel of Canada.

Losses were nearly all of a minor fractional nature with some of the active leaders suffering from the indifference of traders. Building products declined a point at 21. Brazilian Traction was off 1-8 at 8 1-2 after holding firm most of the day. International Nickel declined 3-8 at 25 3-4. Canadian Industrial Alcohol "B" at 7 1-8 was down 3-8. Canadian Car eased 1-8 at 7. B. C. Power "B," Canadian Car and Charles Gurd were down fractions.

Among stocks to hold steady were Bruck Silk, Canada Cement, Canadian Industrial Alcohol "A," Canadian Pacific Railway, Foundation Company, Howard Smith, Lake of the Woods, National Breweries and a few others. Sales 6,899 shares; bonds $8,870.
