High "Steaks."

In the great gambling hall there was breathless silence.

A poker game between two of the billionaires was in progress.

About their table were packed and jammed hundreds of curious, excited people, watching their play with astonishment.

"I'll bet you a porterhouse steak!" says one.

Murmurs of awe rise from the watchers.

Clear and stern comes the answer:

"I'll see that porterhouse steak and raise you two rib roasts, a pig's knuckle and a can of ox-tail soup."

Here the onlookers gasped.

One of them, indeed, muttered:

"It is such things as this that make anarchists."

But, pooh! What know the hoi polloi of sport?—Baltimore "American."

One Point of View.

From the Chicago "Post."

"Considering the work they do," commented the citizen, "the police are poorly paid."

"And yet," replied the old lush, "in considering the rate of pay we must also consider the expenses. Now, a policeman doesn't have to buy either cigars or drinks if he has the right kind of beat."

To The Farmers of Prince Edward Island

THE DOMINION PACKING COMPANY, Ltd., which is incorporated under the laws of Canada with a capital of $1,000,000 (one million dollars), has purchased the Pork and Beef packing business hitherto carried on here by Messrs. B. & M Rattenbury. It is the intention of this Company to very largely increase that business. To that end the company will be prepared to make very large purchases of live and dressed HOGS CATTLE, SHEEP and POULTRY. In fact in a very short time it expects to be able to handle at least five times as many hogs, cattle, sheep, etc., as the farmers of P. E. I, are at present raising, and it indulges the hope that the farmers of this Island will furnish all that is required.

Owing to our expert knowledge of killing, curing, etc, and our facilities for marketing our product, through our own cold storage warehouses which we intend to build at the points of consumption, such as Sydney, Halifax, St. John, N. B. and St. John's, Newfoundland, and elsewhere, we will be in a position to pay SPOT CASH and HIGHER PRICES than any company now doing business in the Maritime Provinces. We believe you will make more money by selling us your live animals than by either killing them yourself or shipping them abroad on the hoof, as the Company will be provided with the best facilities for saving all the by-products or offal which have heretofore been thrown away.

Arrangements will be made whereby all goods purchased will be properly weighed by duly sworn officials at different points on the Island.

The preliminaries incident to taking over the Rattenbury plant and property and increasing its facilities for the new business will probably cause a week or two of delay. We, therefore, request our patrons to hold their marketable stock for a short time; but should you have any animals you find it is necessary to sell immediately, kindly communicate with us before offering elsewhere We ask as a special favor that you kindly fill in the enclosed postal card and return to us without delay so that we can make our records more complete, and thus facilitate further communication.

Thanking you in advance for your co-operation, we are, sirs,

Yours sincerely,
