Liberal Soon To Have Majority In Upper Chamber

Ottawa, Sept. 30 (CP)—When Prime Minister Mackenzie King fills the three vacancies now existing in the Senate the Liberal party will have a majority in the Upper Chamber for the first time since 1939 and an assured majority for the first time since 1911.

The standing of the parties in the Upper House of Parliament following the death today of Senator W. H. Laird, Conservative of Saskatchewan, is Liberals 46, Conservatives 47, vacancies three.

When the vacancies are filled by the appointment of Liberals the standing will be, Liberals 49, Conservatives 47.

The inevitable law of death works quick changes in the standing of parties in the Upper House. In 1911, after some 16 years of Liberal rule under Sir Wilfrid Laurier the Liberals had a majority of 45 in the 96-seat House. In 1921 after 10 years of Conservative and Unionist rule the position was exactly reversed and the Conservatives had a majority of 45.

The years since the Bennett Government went out of office in 1926 have reversed the trend again but as the King Government has more than four years to go before another election is necessary the prospect is that the Liberal majority now in sight will be more than a temporary one. S

High Honors Bestowed On Air Marshal

LONDON, Sept. 30 (CP)—One of Britain's highest orders was bestowed tonight on Air Chief Marshal Sir Hugh Dowding, chief of the Royal Air Force, fighter command which has played the foremost role in the defence of Britain against Nazi air power.

The King made him a Knight Grand Cross of the Military Division of the Order of the Bath.

Sir Hugh is a tall, inscrutable Scotsman referred to as "Stuffy" by his junior officers, who idolize him.

It was through his insistence that the British air council put eight synchronized machine-guns on British fighter planes, twice as many as Nazi fighters carry. This has been an important factor in British air superiority in daylight battles.

He also sponsored the decision to place the cockpit in Hurricane planes behind the engine, where the pilot has the best protection. And on his own initiative he worked for a year with a firm of glass manufacturers until a pilot's windshield that would withstand machine-gun bullets was developed.

He was a member of the Royal Flying Corps in the last war and at 58 still flies his own plane. His only son is a pilot in the R.A.F. S

Watch Your Cholesterol And Live

(By Howard W. Blakeslee, Associated Press Science Editor)

PORTLAND, Ore., Sept. 30.—Incorporate a man is as old as the university of Oregon medical school indicate that he may stay young a long time by control of cholesterol in his diet.

Cholesterol is present in varying amounts in about everything a person eats, is an essential part of the human tissues and always present in the blood stream.

But when there is too much in the blood, the cholesterol begins literally to pave the inside linings of arteries.

After a time, this paving results in a breakdown of the lining between the arteries and the blood, and the cholesterol comes in to produce the permanent hardening known as arteriosclerosis.

The action of cholesterol was proved on rabbits.

Rabbits do not naturally have hardening of the arteries. But these Oregon rabbits got it, and even died of it, when fed too much cholesterol. Furthermore, after the cholesterol paving has begun, if the diet is the fat-like material is reduced, the incipient arteriosclerosis tends to disappear.

The rabbit artery hardening was in every respect similar to the human trouble. S

Willkie Claims Roosevelt Has U.S. Close To War

DETROIT, Sept. 30 (AP)—Wendell L. Willkie said tonight that the New Deal is pushing the United States toward a "close to war" situation.

"The closer Mr. Roosevelt gets us to war, the more people say we ought not to change horses in the middle of the stream," Willkie did not say whether he thought the U.S. is not the right one to get us out."

Addressing a meeting of the National Federation of Women's Clubs here, Willkie said that the Republican Presidential nominee asserted that the New Deal "is governing by force and by fear."

He said that the change from the Chamberlain to the Churchill government in Britain dispensed any contention that one administration should be kept throughout a crisis.

Let us elect a Winston Churchill government in the United States," he added, praising the British Prime Minister as "a great, vigorous defender of democracy."

War Costs Top New Peaks In Great Britain

LONDON, Sept. 30 (CP)—Britons learned today that the war, described as "hardly begun," had cost them three times as much as they thought it would.

The first half of the fiscal year, 1940-41, as for the corresponding period of 1939-40.

The exchequer announced ordinary expenditure for the half year at £1,810,133,776 (about \$1,163,000,000), leaving a deficit of £137,619,955.

That Britain is in for a long struggle was emphasized by Capt. H. F. C. Crookshank, financial secretary to the treasury, who urged the public to "try to the limit" to finance armaments for the big battles to come.

A check of bomb damage to railroads in the London area indicated that the Nazis had made about 20 misses to every hit, counting as hits all those bombs which have fallen even alongside the rails.

Regular maintenance staffs made repairs quickly, and few hits caused more than overnight tie-ups at worst, it was stated.

The second anniversary of the Munich agreement was marked by a broadcast by Prime Minister Churchill to the people of Czechoslovakia. He declared that the battle for Britain also is "the battle for Czechoslovakia" and that restoration of that nation's liberties is one of Britain's "principal war aims."

War Costs Top New Peaks In Great Britain

LONDON, Sept. 30 (CP)—Sir Winston Thomas has been re-appointed Governor and Commander-in-Chief of the Straits Settlements and High Commissioner of the Malay States, the Colonial Office announced today. Sir Winston is the senior officer of British Malay with headquarters at Singapore.

Willkie Claims Roosevelt Has U.S. Close To War

DETROIT, Sept. 30 (AP)—Wendell L. Willkie said tonight that the New Deal is pushing the United States toward a "close to war" situation.

"The closer Mr. Roosevelt gets us to war, the more people say we ought not to change horses in the middle of the stream," Willkie did not say whether he thought the U.S. is not the right one to get us out."

Addressing a meeting of the National Federation of Women's Clubs here, Willkie said that the Republican Presidential nominee asserted that the New Deal "is governing by force and by fear."

He said that the change from the Chamberlain to the Churchill government in Britain dispensed any contention that one administration should be kept throughout a crisis.

Let us elect a Winston Churchill government in the United States," he added, praising the British Prime Minister as "a great, vigorous defender of democracy."

War Costs Top New Peaks In Great Britain

LONDON, Sept. 30 (CP)—Britons learned today that the war, described as "hardly begun," had cost them three times as much as they thought it would.

The first half of the fiscal year, 1940-41, as for the corresponding period of 1939-40.

The exchequer announced ordinary expenditure for the half year at £1,810,133,776 (about \$1,163,000,000), leaving a deficit of £137,619,955.

That Britain is in for a long struggle was emphasized by Capt. H. F. C. Crookshank, financial secretary to the treasury, who urged the public to "try to the limit" to finance armaments for the big battles to come.

A check of bomb damage to railroads in the London area indicated that the Nazis had made about 20 misses to every hit, counting as hits all those bombs which have fallen even alongside the rails.

Regular maintenance staffs made repairs quickly, and few hits caused more than overnight tie-ups at worst, it was stated.

The second anniversary of the Munich agreement was marked by a broadcast by Prime Minister Churchill to the people of Czechoslovakia. He declared that the battle for Britain also is "the battle for Czechoslovakia" and that restoration of that nation's liberties is one of Britain's "principal war aims."
