HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

WHY PREVENT COLDS

Do you ever hear of people having Pneumonia, Bronchitis, Pleurisy, Tuberculosis or Influenza without having a cold first? Almost never. Usually they have had repeated colds. If the patient goes to bed when the first suspicion of a cold appears then it is probable that these other diseases would not develop. But he says that he "cannot go to bed." Next day he is worse. By another day he has to go to bed whether he will or no, and he may pay for his neglect with his life.

Other diseases which follow Colds and are largely caused by Colds are Tonsillitis, disease of the ears, middle ear disease, mastoid disease, disease in the different sinuses connected with the nose and face—all of them painful and dangerous diseases, as well as hard to cure.

Another reason why we should prevent colds and isolate the patient in bed who has a cold is that all the diseases most dreaded in childhood begin the same way as a cold and for the first day or two we cannot tell whether the child has a cold or one of these diseases. Measles, Whooping Cough, Scarlet fever, Diphtheria, Infantile paralysis, all begin in much the same way—with headache, sore throat, water running from the eyes and nose and general malaise. These symptoms are the first to appear. So that when we put the child to bed in his own room and take care of him and keep every one else away from him we are doing the very best thing for him and for everybody else.

These diseases often have serious consequences. In measles the lungs, in whooping-cough the heart, in scarlet fever the kidneys and the ears, bear the brunt of the attack and the child may never be really strong again. It is always better to take care of the child from the first, whether he has a cold, or whether he may have one of these diseases. It has recently been shown that a dangerous germ which is found in the nose and throat of many persons suffering from colds is the cause of most cases of puerperal fever or childbed fever. Puerperal fever is the greatest single cause of maternal mortality. This is a very urgent reason why we should prevent colds.

The more prevalent colds are, the worse it is for the health of the community. Stop the supply of the infection. Probably the chief reservoir of that supply is in the Schools.

The Common Cold causes great loss of money, working time and health in Canada. It interferes seriously with work in our schools. Its consequences are many and serious and may last for life. It is a general infection and is transmissible and highly contagious. It increases the number of untimely deaths in Canada. It has been shown to be directly connected with the cause of puerperal fever which is the greatest single cause of maternal mortality.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

Arrears of Land, Personal Property and Income Taxes

To Whom It May Concern:—

Notice is hereby given that payment of all taxes due the Provincial Treasurer of the Province of Prince Edward Island in respect to Land, Personal Property and Income assessment is immediately required. Otherwise steps will be taken as provided under the Land Assessment Act, 1924, and the Income and Personal Property Taxation Act, 1924, for collection of same.

All Personal Property and Income Taxes remaining unpaid on the 24th day of October, 1936 will be subject to interest at the rate of five per cent per annum from date of default until paid

Tax-payers in arrears will please govern themselves accordingly.

Dated at Charlottetown, Prince Edward Island, this 25th day of September, 1936.

C. J. STEWART,
Supervisor of Taxation.

McLEOD & BENTLEY,
Charlottetown.

STOCK QUOTATIONS

Morning Stock Letter

NEW YORK, Nov. 7—The Spanish cabinet has fled from Madrid. The maritime strike appears to be spreading to other industries. Creole Petroleum declared 25 cents dividend, the same as in September. We would expect an irregular market today and it should be borne in mind that General Motors meets for dividend Monday. Chrysler probably on Tuesday and the automobile show will begin Wednesday. Wednesday is also a holiday. It is very probable that the motor stocks will be one of the selective strong spots today.

NEW YORK — Illinois Central System October gross estimated at about $11,200,000, the best for that month since 1930. Increase 35 percent in weight of steel used in new General Motors cars expected to increase steel consumption by Fisher Body during next twelve months to over 600,000 tons from 456,000 tons. Freeport Texas Co. notified stock exchange of proposed reduction in authorized capital stock by 12,699 shares and change of name to Freeport Sulphur Company. Acme Steel Co. declares quarterly dividend $1 payable Dec. 12, record November 27. Studebaker October sales to dealers were largest for that month in 12 years and best for any month since 1929. Factory will operate at capacity during November. United Aircraft Co. and subs. quarter ended Sept. net profit $364,000 or 14 cents a share on shares outstanding against 8 cents preceding quarter and 11 cents in Sept. quarter 1935.

GRAIN

WINNIPEG, Nov. 8 — (CP) — Firmness of wheat prices despite a lack of demand abroad for the grain was the feature of a dull session of the Winnipeg grain exchange Saturday.

Values closed 1-8 cent higher to 1-4 cent lower, November at $1.08 7-8, December $1.06 1-4, May $1.07 1-8 and July $1.05 1-4. Trading was slow throughout the short session.

Scattered buying prompted by strength at Liverpool was at a minimum until near the finish when light offerings depressed prices fractionally.

Constructive locally were sharp advances in corn at Chicago, the result of trade fear Argentine corn imports may be halted by the United States maritime strike. Liverpool was up 1-4.

Sales were few in the cash-grains section, with demand lacking for almost all grades of wheat. Spreads on Durums eased two cents. Coarse grains prices followed wheat.

OTTAWA, Nov. 5—(CP)— Suggestion by Archbishop M. T. M. Harding at Winnipeg that the name for the Church of England in Canada be changed to "Episcopal Church of Canada" brought from a spokesman for Archbishop J. C. Roper, metropolitan of Ontario, the following comment tonight:

"While the present name seems cumbersome, until a better name than "Episcopal Church of Canada" is submitted I think there should be no change."

VANCOUVER, Nov. 5—(CP). — While many people were dissatisfied with the present name of the Church of England in Canada, Most Rev. A. U. dePencier said today, there would be "a good deal of objection" to the suggestion of Archbishop M. T. M. Harding in Winnipeg that it be changed to the Episcopal Church of Canada.

EDMONTON, Nov. 5 — (CP) — "Episcopal Church of Canada," is an "excellent" name, Bishop A. E. Burgett of Edmonton said here tonight, commenting on the suggestion by Archbishop M. T. M. Harding that the Anglican Church in Canada should adopt that name. He favored the suggested change.

FAREWELL TO BACKACHE!

Her back ached—she felt miserable—no pep—she couldn't be "bothered" to go out—lost contact with her friends and was lonely. Her sister advised her to take Dodd's Kidney Pills. Her backache soon vanished—enthusiasm and energy returned—her eyes sparkled—her step was sprightly—and once again she was her "old self." 115

MINING

TORONTO, Nov. 8—(CP)—Heavy trading in secondary and junior gold stocks featured Toronto mining share market Saturday. Base metals firmed narrowly after early weakness.

Big golds were quiet and, aside from minor gains for McIntyre, Hollinger and Wright Hargreaves and a loss of 1-8 for Buffalo-Ankerite, closed unchanged. O'Brien, Little Long Lac, Hard Rock, Macassa, Bankfield, Chibougamau, Moneta and Sylvanite closed a few cents to 15 higher.

Base Metals displayed their best trend late in the session as Sheritt pulled up to show a net gain of 15 cents. Ventures added 12, Penn Oreille 4 and White Amulet 2. Noranda, Aldermac and Sudbury Basin slipped a little.
