With Bill Moresdie providing a story-book ending shooting a goal with less than a second to go in the final period Prince of Wales College Hockey squad Monday night earned a 5-all draw with the Navy team in one of the most sensational ruggedly-fought encounters played so far in the City Hockey League.

• • • •

It was a surprising P. W. C. squad that stepped on the ice Monday night that not only had an edge on their rivals but at times seemed destined to pull off the biggest upset but the league leaders had the necessary punch when danger threatened to emerge with no less than a draw.

• • • •

The game was played at a fast rugged clip throughout each and every period that had a good attendance of fans cheering madly at times as the tide of battle changed rapidly from one end of the rink to the other. P.W.C. were as good as any squad in the league Monday night and if they keep up performances like the one they turned in they just will have to be reckoned with when playoff time rolls around.

• • • •

The Juvenile Hockey league being played at the Holy Redeemer Rink is certainly providing close, sparkling hockey according to the fans who have been watching the youngsters in action.

• • • •

It is action packed every minute with all four teams in the league very evenly matched. This is well borne out too by the fact that out of the three games played to date two of them have ended in draws. Which is all as it should be.

• • • •

And the attendances at each encounter have also been commented upon. Large crowds wend their way to watch the juveniles in action and being noted among them are many of the old-time hockey stars who are heard to express the opinion freely that out of the league will come a squad that will bear plenty of watching in Maritime playdowns.

• • • •

They have size, ability and speed and with all taking the keenest of interest the all-star squad will certainly be a strong one.

• • • •

Going back to the attendance angle of the matter, it is gratifying to know that the games are being will attended for it is out of the ranks of these same youngsters our future senior players will blossom and will be ready to give to the Island another strong contender for hockey laurels.

• • • •

Hector "Toe" Blake, one of the most popular players to graduate from amateur ranks to the National Hockey league, is showing sensational form with Montreal Canadiens in the current campaign.

• • • •

In fact, they give him no small share of the credit for the Habitants pulling out of the tie with New York Rangers for last place in the standing. Here is what the Montreal Gazette had to say of his performances:

• • • •

"One of the outstanding features of the Canadiens' sudden return to winning ways has been the resurgence of Toe Blake to the status of a super-star.

• • • •

"Around the Forum you hear it said again and again that Toe is now playing better hockey than at any time since the 1939-40 season, when he made the left-wing berth on the N H L All-stars.

• • • •

"In that season he picked up 47 points, scoring 24 goals and collecting 23 assists. In the last three games he has been travelling at a torrid pace, amassing ten points. If he were to continue at that clip, he would break right through the roof of the point-scoring list."

MIDDLETON 5, FREETOWN 3

Before a large crowd in Bedeque Rink on Thursday evening, Jan. 14th Middleton defeated Freetown 5-3 to take possession of first place in the South Shore League.

The winners took a 2-0 lead in the first period and held Freetown even in the last two frames.

Features of the game were the speed and stick-handling of the Middleton players, and the hard checking of the Freetown defence. The game was rugged throughout and tempers flared in the final period when the only penalties of the game were handed out.

Gardiner and Oatway shared scoring honors for the evening; the former with two goals, and the later with a goal and assist.

Lineups:

Middleton, Goal, Noonan; Defence, Oatway, Cameron; Forwards, A DesRoches R Bradshaw, N. Bradshaw, Dougay, M. DesRoches, Muttart, Sobey Bernard McKenna.

Third Period Counter Gives Air Force Team 4-3 Victory Over Army

A third period goal that broke a 3-all deadlock that had existed from the second period last night gave the Air Force squad a hard-earned 4-3 victory over the Army team in a City Hockey League match played at the Forum.

But like Monday night's match the encounter produced some of the most rugged and fast hockey yet witnessed in the league. The Air Force team after seeing the Army take a 1-0 lead early in the first session came back to score three goals all from the tricky stick of Poulain before the Army squad again drew within striking distance as they scored their second goal before the period ended to make it 3-2.

Early in the middle canto the Army tied it up as they shot the only goal of the session after having one called back and in the final heat it was the winners that came through with the goal that decided the issue

Fans got a sample of what to expect right from the opening whistle as the two squads tore into each other with a vengeance. Bruising bodying sent players sprawling all over the ice as the Army team kept the Air Force boys bottled up. Dermo of the Army missed a great chance as he shot wide of an open net and for the next three minutes there was a steady parade of players to the penalty bench as play roughened up. Finally at 7.10 of the session Dermo spearhead of many Army attacks dented the twines on a pass from Dickie on a pretty combination effort. Seconds later Dermo was right in again only to have the Air Force goalie come far out to thwart the effort.

The Airmen were fighting back with a vengeance and like a bolt of lightning Poulain, tricklest player on the ice rapped in three quick goals in the space of 59 seconds to give the winners a 3-1 lead. His first goal came unassisted as he circled the Army net to slip the disc home. 23 seconds later he took a pass from Brezowski to count again and the next time Apps fed him a pass just over the line and he went in close to draw out the goalie and score easily. There was still plenty of kick left in the Army and before the session had ended Stead, rugged young defenceman of the Army had made it 3-2 as he slammed home a pass from Richard, 58 seconds before the session ended.

After the rugged, fast, first period play slowed down somewhat in the second session with the Army shooting the only goal to knot the count. In the first two minutes Gilligan in the Air Force net made two beautiful saves from Brehaut and Apps as Army started to press. At 4.35 however he was forced to bow as Peters took Linger's pass to make it 3-all. For the rest of the period, despite penalties to both squads they battled it out on even terms. Towards the close of the period Army claimed a goal but the play was called back the puck not having entered the net before the referee's whistle sounded to straighten the net which had become twisted around as an Army player crashed into it.

The third and final session was all Army from a territory standpoint but it was the Air Force who got the counter that gave them their victory. The losers pressed continually and but for erratic shooting and over-anxiousness should have had at least three goals. A little over six minutes from the start with the losers pressing hard Levi, stout Air Force defenceman fed Cuyler a long forward pass just over the winner's line and the latter went in close to beat the Army goalie. For the rest of the game it was all Army but despite wide open chances they could not get back the equalizer.

Lineups:

Army—Goal, Brehaut, Defence McTague, Stead, Johnstone, MacInnis, Forwards, Dermo, Dickie, Richard, Brehaut, Molyneaux. Peters, Linger, Wilson.

R.A.F.—Goal, Gilligan, Defence, Brezowski, Levi, Angell, Young. Forwards, Clearwater, Apps, Poulain, Cuyler, Smith, Pilgrim. Kyler, Reidie.

Whitlock and Blanchard Far In Lead

Young "Buck" Whitlock, fast, clever centreman of the Navy squad continues to set a dizzy pace in the race for the scoring leadership. Whitlock now has 17 points made up of eight goals and nine assists while following him in second place is his left wing linemate Blanchard with a point total of 13, seven goals and six assists. This pair are far in advance of the rest of the field, third spoting going to Poulain, sharpshooting Airman, who has eight goals to his credit and Woolridge of the Y.M.C.A. team who has thre goals and five assists for a point total of eight.

Whitlock's eight counters gives him a tie with Poulain in that department while his nine assists sees him in top spot alone.

other war services in Canada, and some demand from the United States that they would gladly have us fill if we could, there is the greater consumption of foodstuffs represented by the increased needs and purchasing power of Canada's civilians," the brief said.

Planning Needed

Agricultural production, processing and distribution had to be planned long in advance of actual consumption. Policies adopted today to encourage the greater production of beef could not be of immediate help to consumers.

"Failure to recognize this and to take necessary action with respect thereto aggravates the problem of price control later," the brief said.

"It is important that subsidies, when necessary, be prompt and adequate. Subsidies, when too litt or too late result in shortages, which, in turn, result in greater pressure on the ceiling and bring about black markets.

"In fact, it could be argued that an inadequate or delayed subsidy is little better than no subsidy at all."

To redeem the pledge of food for occupied countries when they are liberated, Canada should build up substantial reserves over existing demands.

"While control of prices in time of war is extremely important, it is submitted that a method of price control which results in otherwise avoidable shortages must eventually defeat itself," the brief said.

PRICE FIXED IN 1202

The price of bread was standardized for centuries under the assize of bread, a law passed in 1202 in England. Standardization was brought about by varying the size of the loaves with the changes in wheat prices.
