NEW LAMP BURNS 94 PER CENT. AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, G. A. Johnson, 246 Craig St., W., Montreal is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write

More Robberies

The shoe store of Mr. Wm. Conroy, Queen Street, was broken into Tuesday and about $50.00 worth of goods taken.

The break was discovered by the Police Officers, who notified Mr. Conroy about seven o'clock in the morning. On arriving at the store he found one of the large panes of glass smashed in the show window, and nearly all the boots that had been on display removed, this included a pair of red rubber boots. From a shelf close by the window he missed four pairs of laced boots, the best he had in stock. Mr. Conroy states there may have been other goods taken, but cannot tell until he checks up his stock book.

A tan boot and a buttoned boot was picked up yesterday morning at the corner of Sydney and Queen Streets, and returned to Mr. Conroy, when it became known his store had been broken into.

Mr. W. C. Stewart, who conducts a restaurant next door, kept his place of business open until two o'clock Tuesday morning and the break in the shoe store must have occurred after that time, as the light from the restaurant would make it rather inconvenient for burglars working along side.

A few nights ago the Union Commercial College was broken into but nothing was taken, although the safe and cash drawer was ransacked.

Monday night the warehouse and office on Pownal wharf, owned by the city was broken into. It is said a stove was taken from the office and it is not known how much material from the warehouse.

Relieved by Hood's Sarsaparilla

I have taken Hood's Sarsaparilla and it has done me so much good in relieving my lameness I am very thankful to you for it. I can walk well now and go almost everywhere. Before taking your medicine I was confined to the house for a year and a half. It strengthened my limbs.

I advise my friends that are lame from rheumatism to take it.

My husband and son have also taken Hood's Sarsaparilla, and it

Alberta Phones To Denver, Colorado

HIGHRIVER, Alta., Feb. 8.—What is believed to be the world's record for wireless telephone conversation occurred last night when W. W. Grant, Chief Engineer of the Government's Air Board Plant here, talked on the radio phone with Dr. W. W. Reynolds of the Reynolds Radio Company in Denver, Colo., a distance of approximately eleven hundred miles. The conversation related mainly to engineering and technical details and both speakers exchanged data on personal experiments. It was arranged that the two stations will conduct another conversation on Friday night.

HIGHER PRICES UNWARRANTED

LONDON, February 7. Some meat interests have not been slow to use the outbreak of foot and mouth disease among the cattle of Scotland and the north of England as a pretext for an increase in prices. The Board of Agriculture, however, has issued a statement declaring that there is no justification for any attempt to raise prices for meat, though some irregularity may exist at local markets.

of intoxicating liquors for beverage purposes anywhere within the province except in bonded warehouses

Resolution No. 2

Resolved that in view of the possibility of section 52 of the Prohibition Act becoming ineffective because of the decision given recently by the Chief Justice of Prince Edward Island that the members of the Grand Division together with all the temprance workers look forward to the bringing on of a campaign in the near future for the purpose of showing a majority vote in favor of the Doherty Act to prevent the importation of intoxicating liquors into the province for personal use.

Resolution No. 3.

We, the officers and members of the Grand Diivsion Sons of Temperance of Prince Edward Island, assembled, believe that there is need of a still more strict enforcement of the Prohibition law, would beg to suggest to the Premier and other members of the Government that we believe that the appointment of an officer who would serve in the capacity of a general superintendent of all the work of law enforcement would tend to bring in a better condition of things in our province.

We would suggest further that such an officer should be the best possible that could be secured, irrespective of the greatness of the salary to be paid. That he not only assist the commision in carrying out ther work and have a general oversight of the work of all prohibition inspectors but also that he be a member of the prohibition commission.

In the evening a public meeting was held a goodly number being present despite the rain and snow. G. W. P. D. N. McKay presided and the following excellent program was well rendered. Sister Stella Weeks presiding at the organ.

REPORT OF G. W. P.

Officers, members and representatives.

Again we meet in quarterly session with Refuge Division and the good people of Fredericton. It brings up pleasant memories of the many times the Grand Division has been so kindly and royally entertained by you good people.

Refuge Division has given the order some of its best workers and Fredericton people have been right loyal to the cause of Temperance.

How quickly the time passes 1921 with its opportunities for acts of mercy and brotherly kindness is gone forever.

The year just gone was one of great unrest, crime too abounded on every hand, the forces of the enemy of all righteousness never appeared so well arrayed for a carnival of crime and debouchery ss during the year 1921. Labor against capital strikes here, and strikes there, which only tend to fasten poverty and misery.

And not least by any means is the liquor traffic among the crime producing agencies, getting in its insidiious work among all classes.

But friends I trust we are not "Beautiful Garden of the Gulf" a much better place to live.

We have reason to thank God for the men of outstanding ability as Lloyd George who have done so much to bring order out of disorder and peace and harmony where hatred and blood-shed have been rampant for years.

I wonder how many of us realize how much of crime and poverty the liquor traffic is responsible for directly and indirectly.

We are told drunkness and crime are going hand in hand rampant through the land and we have to believe to a great extent it is true, the rich and poor the young and old alike are its victims, and still crime to a great extent goes unpunished circumstancial evidence has sent men to the gallows, yet those caught almost red-handed in minor crimes go unpunished.

Is crime being winked at, we feel that sterner justice is required, and in regard to young boys who have taken the first step in crime. How do we expect to redeem them back to honor and good citizens, if they are to be confined in common prisons with harden criminals, they are bound to come forth more hardened to commit greater crime.

I trust our government will act on the suggestion of the Grand Jury and take steps to provide a fitting place where our fallen youth may be reclaimed.

I feel we have a prohibitory law that does not prohibit.

We are amazed when we hear of the amount of liquor that is coming to our province and we realize it is not all for export.

What are we to do fellow workers? If it is possible to get an act to prohibit importation the sooner we get busy the better, for I believe any law that does not do what is claimed for it will soon come into disrepute.

We are all more than amazed at the amount of revenue derived from the liquor traffic. I feel sure it was not the intention of the temperance people when they advocated the management of the liquor by commission that it should be revenue producing, but rather that those who have to buy it for medicinal purposes get it at cost, plus expenses of handling.

I am sorry my worst fears have been realized in regard to extinction of the order work, either to organize or re-organize. Never unless an honest attempt has been made by myself and our efficient Grand Scribe.

I wrote several of our once faithful workers of Divisions not now meeting to know if any thing could be done by our grand officers to get those divisions started, but did not get even one reply. I don't believe it is any use to try and force a division or any community, it will be very short lived in my opinion, but I trust with better roads and more settled weather conditions I shall with our grand scribe visit those Divisions, at least that are meeting.

Will some persons tell us why this lack of interest in this great work of Temperance at the present time, by our best thinking people. Is it because they think there is nothing definite to work for now as we have prohibition or are they so taken up with the things that pass away with the using that we forget that life consists not in the abuandance of the thinks we poseess.

How cheering and inspiring it was to have eight or ten of our 9 laymen at our sessions as I can remember was the case twenty or thirty years ago.

But brothers and sisters let us not be weary in well doing, may we be encouraged to know if we are the means of helping some poor weak, tempted or fallen brother on to a better and nobler life, our labors will not be in vain For as much as ye did it unto the least of one of these my brethren ye did it unto me."

Humbly submitted in
L. P. and F.

ABEGWEITS COMPLETED LEAGUE UNDEFEATED

The Game Was Full of Thrills and Spills With the Abbies on the Long End of a 11 to 4 Score

At the Arena last night the invincible Abegweits team again won laurels for their club in defeating the Monctonians by a one sided score of 11—4 thus going through the Eastern Section of the N. B. and P. E. I. Hockey League without suffering a defeat.

The Abbies extended themselves for the first time of the season and gave an excellent exhibition of fast skating, stick-handling and combination, which all go to make the Abbies as fast an aggregation as play the Amateur game.

The Moncton boys seemed to be unable to penetrate the perfect defence of the Red and Black. The entire Abegweit team played excellent hockey. Morgan being extra good, with Williams always showing to advantage.

The first period started at 8.45. Referee Herrill on the job in his usual satisfactory manner. After a few minutes play Williams made a pretty run down the ice, passing to McEachern, who put in number one count, after four minutes of play. The game became very even and Moncton were holding the Abbies down and trying to score on long shots, tris they failed to do, and before time was called, Williams and Rodd combined, Rodd sending in number two, ending 2—0.

The second period was all Abegweit, Buntain scoring on a pass from Prowse in 2 minutes, Rodd sent home another one unassisted in seventeen minutes. McEachern scored from Williams one minute later, Williams unassisted in 13 minutes of play, score 6—0 at end of period.

In the third period the Abbies appeared on the ice with an all sub forward line. Buntain scoring shortly after face-off. Moncton came back one minute later for their first count, Moore scored after four minutes of play unassisted. Moncton two minutes later. Buntain again scored for Abbies on nice pass from Gordon. Moncton got their final count after eight minutes of play, here McEachern and Campbell on the nicest piece of combination during the entire game scored, McEachern doing the trick. Williams from a wing shot scored the last goal of the game in fifteen minutes of the play, with only five minutes to go, the Moncton boys did their best to score, but there was no [illegible]

The Abegweit team are to be congratulated on going through the league without a defeat, we trust we will be able to say this again after the play-off.

The Moncton team are good sports and supply a much better brand of hockey than any of the other visiting teams seen here yet this season.

The band enlivened the evening with some nice selections.

Come with the play-off before the ice goes. We want to see our boys with the advantage of fast ice.
