membered by them with joy throughout eternity —while during the remainder of their continuance here on earth, they may learn to war a good warfare in all things looking to Jesus the author and finisher of our faith!

The morning service was concluded by the Bishop addressing the congregation generally from the pulpit, on the nature and duty of public, family, and private prayer, to that God who hears the sighs ascending to the courts of heaven from the broken and contrite heart, and who giveth to the spiritually diseased, medicine to heal their sickness. When the somewhat arduous duties of the morning had been completed, His Lordship proceeded immediately to St. Eleanor's, where a large number of candidates were admitted to confirmation at 4 o'clock in the afternoon.

In all probability many of us will not see him again till his usual triennial visitation. It is a solemn thought that some of us will see his face *no more*. There is one thing, however, which we can all do in the short remaining space which may yet graciously be afforded us, let us draw near to God and earnestly implore him to give grace to the Bishops and Pastors of his church, and to all who minister in sacred things that they may persuade men to enter into the true fold, so that finally there may be but one fold under one shepherd—Jesus Christ the righteous.

I am, Sir, yours,
A CHURCHMAN.

[The following address was presented to the Rev. J. Sprott on his recent visit to this Island.]

To the Reverend JOHN SPROTT,

Reverend and Dear Sir;

We the Elders, Members, and adherents, of the Congregation of Cavendish and Grand Valley, in connection with the Presbyterian Church of Nova Scotia, cherishing the pleasing reminiscence of your former visit, and highly acceptable services in dispensing to us the ordinances of Divine grace of which we had been temporarily deprived, by the removal of our late beloved Pastor, to another, and important field of labor; and desirous of a grateful sense of your zeal for promoting our spiritual interests by your interesting and valued ministrations at this time, cannot allow you to depart without expressing our high appreciation of the motives which induced you at your advanced age, to submit to the fatigue and inconvenience of so long a journey from your family and home, in compliance with the request of our ministry, in order that you might impart to us those blessings of the Gospel of Christ, the unspeakable value of which, eternity alone can fully develope.

We trust and pray, Reverend Sir, that the King of Zion, may succeed your labor of love with the benign influence of his holy spirit; making deeply indelible impressions on the minds of old and young (amongst us,) of those solemn and important truths that you have proclaimed in his name, and by his authority; and we respectfully request you to accept this feeble testimony of our regard for your person and services, and that you will rest assured of our ardent prayers for your happiness in time and eternity, and should it be so ordered by the providence of him "who doth all things according to the counsel of his will" that we should not be privileged again to meet together in this world, may we by faith be permitted to recognize each other amongst that countless multitude who will "surround His Throne" having washed their robes, and made them white in the blood of the Lamb.

Wishing you a safe and prosperous journey homeward, and a happy return to your domestic circle after your arduous labors in promoting the interests of the Redeemer's Kingdom, we bid you an affectionate farewell.

To which the Rev. gentleman made the following reply:

Christian friends;

I thank you for this Address. Tokens of regard should be received in the same spirit in which they are given. The good opinion of our fellow creatures, when honestly obtained; is the noblest of earthly renown and next to the approbation of our mind and that of our Maker, and is an excitement to greater exertions in the path of duty.

This beautiful Island and its Inhabitants are often undervalued by those who know them not, but a slight acquaintance would teach them, that it requires nothing but the hand of Industry and the dews of heaven to give it a splendor equal to the climes of the sunny south, and that, the people favourably compare with those of larger communities and older countries.

You have in Cavendish and New London, all the elements of polished society, and ingredients of permanent fidelity, you have fertile fields, sparkling brooks, blooming orchards, substantial dwellings, good ministers, intelligent people, libraries, Reviews, Magazines, and much of the intellectual literature of the day; "May Pence be long within your walls and prosperity within your palaces."

I duly appreciate your affectionate and feeling address; and it will remain among my papers a memorial of your friendship after I am gathered to my fathers.

In this visit I have met some old friends without new faces. I have made some new acquaintances; for when a man is far advanced in life, unless he make some efforts to repair the circle of earlier friends which the king of shadows has swept away, he is left to feel as "a lodge in a garden of cucumbers." The morning of life is long past, the evening approaches, my sun declines; yet I am unwilling to bid you Elders and people "farewell;" and if spared I may visit you again, but if this shall not be so, I hope, through the merits of our Redeemer, to meet with many (fain would I say all) of you, in the better land where we shall have a long day to talk over the good and ill, which we have seen in this life, and taste the sweets of eternal friendship.

JOHN SPROTT.

NOVA SCOTIA INDUSTRIAL EXHIBITION.

TO THE EDITOR OF HASZARD'S GAZETTE.

Sir,—Being for a short period at Charlottetown, I would take this opportunity of calling public attention to the forth-coming Industrial Exhibition in Nova Scotia, with the view of stimulating the exertions of the people of Prince Edward Island on behalf of this important undertaking. For the information of such as are not thoroughly conversant with the position of this movement, I will briefly detail a few of its more leading particulars.

The idea of a Provincial Industrial Exhibition for Nova Scotia, was suggested so far back as 1851 or 1852, and steps were taken by the Halifax Mechanics' Institute, with a number of other public spirited individuals, in order to enlist the sympathies of the people generally in securing a creditable display of the natural and industrial resources of the Province. A number of Public Meetings were held, and an organization set agoing, for the purpose of the more effectually accomplishing the object in view. Subscriptions were raised in the City of Halifax, to the amount of some Eight Hundred Pounds. Local agencies were established throughout Nova Scotia and Cape Breton; Public Meetings were convened, and every possible means taken of diffusing information upon the subject amongst the population. It was originally intended to hold the Exhibition in 1855, but, owing to the refusal of the Legislative Council of the grant of £1,000, voted in the House of Assembly in aid of the undertaking, it was resolved by the Commissioners to postpone the Exhibition till the Autumn of the present year. That grant has, in the mean time, been re-passed by the House, and confirmed by the Council. The several Committees throughout the interior of Nova Scotia are actively engaged in raising subscriptions, and in the growth and preparation of articles evincing native industry and skill. I believe, that a very creditable number of articles will produce exhibited at the Governor's Agricultural Fair, held at Halifax last Fall, the forthcoming Exhibition will reflect much credit on the capabilities, the industry, the enterprise and activity of its people. The Committee having charge of this matter have issued some time since a Premium List, offering between £1,000 and £1,200 for the best articles, whether from the Mineral, Vegetable or Animal Departments of the country. A supplementary list has since been published, with additional prizes to the extent of £200. The Prize Money premiums are to be confined to the Province of Nova Scotia, the Exhibition will be open to the productions of all other COLONIES; and, in order to induce parties to forward such articles, considerable sum will be devoted to the granting of diplomas or honorary prizes for all foreign articles worthy of merit.

All the available space in the Provincial Building at Halifax, with the adjacent grounds, has been placed at the disposal of the Committee for Exhibition purposes, and steps are now in progress for securing the necessary accomodations for cattle and live Stock, as also for the storage and safe preservation of all articles forwarded. It is confidently expected that many articles will be contributed both from New Brunswick and the United States, and every reasonable effort will be put forth to secure from those and other countries in North America an assemblage of visitors. I may also state that the New Brunswick Exhibition, intended to be holden in 1855, has been postponed for a future period, owing to the fact that the Nova Scotia Exhibition is to come off this year.

I conceive that it would be of the utmost importance for Prince Edward Island to be represented at the forthcoming Exhibition, to be held at Halifax. The distance of Charlottetown from Nova Scotia might be urged as an objection to the people of this Island taking any very general interest in the undertaking. But when it is considered that the water communication between Nova Scotia and the Island renders the conveyance of articles much less difficult and expensive than it would be if parts of the interior of Nova Scotia, the objection will be seen to possess little or no weight. There is, however, a strong reason why Prince Edward Island should be represented at the Exhibition. Nothing tends so much to elevate the character of a country in the estimation of its rival competitors, as the display in one place of a comprehensive view of its resources natural and industrial productions. This fact might be amply verified, did space permit. Suffice it to say, that at the London Exhibition of 1851, Nova Scotia not only rose in general estimation from the excellence of its contributions, but she was also materially benefited therefrom in a pecuniary point of view. The Committee in Nova Scotia are anxious that the adjoining Colonies, at least, shall be handsomely represented at the approaching Exhibition. It will be a means of their becoming better acquainted with the extent and value of each other's resources, and of their inhabitants cherishing towards one another a feeling of mutual friendship and respect. For these reasons, I would suggest that the people of this Island generally, and of Charlottetown and its vicinity in particular, should at once take some decided steps for sending contributions of agriculture and other specimens of their native industry and skill to our Exhibition. The simplest plan, probably, would be to organize an active working Committee, and raise a sufficient amount to defray any local expenses, and cost of shipment to Halifax, and to enlist parties to forward their contributions through this Committee. I would humbly and respectfully suggest, in conclusion, that the officers of the Royal Agricultural Society at Charlottetown take the initiative in this matter, as the object would thus be accomplished with a comparatively trifling effort. Should they deem the subject of sufficient importance, I would be happy to make any suggestions, or communicate any further information relative to the mode in which the Exhibition is to be conducted.

Your obedient servant,
HOWARD D. STEELE.
Secretary of P. E. I. Industrial Exhibition.
Charlottetown, P. E. I., June 28th, 1854.

ELECTION RETURN.—QUEEN'S COUNTY.

At the Sheriff's Court held on Saturday last, the 24th inst., the Return of the Poll Books were as follows :—

Palmer,	496	Longworth,	513
Reddin,	440	Trenaman,	423
		First District.	
Coles,	1017	Laird,	981
McLeod,	779	Beer,	791
		Second District.	
McGill,	1177	Mooney	1147
Binns,	452	McDonald,	427
		Third District.	
Douse,	671	Munroe,	585
Dewar,	507	McKenzie	471

SUPREME COURT.

The Grand Jury brought in the following Bills of Indictment.

The Queen at the prosecution of John Lockert, *vs.* Dennis Reddin the elder, Assault, with intent to rescue, and for common Assault.

Queen at pros. of James Yeo *vs* Robert McAnn, Larceny.

Queen at pros. W. W. Senhouse, and another *vs* Daniel Richard, Larceny.

Queen pros. George Beer *vs.* George Coles, Assault.

Queen pros. Daniel Brenan *vs.* Bridget McKenna, Larceny.

Queen pros. Bernard Shenan *vs.* Daniel Bradley, John O'Neill, Patrick Treanor, Riot and Assault.

Queen pros. W. McGill *vs.* Emanuel McEachen, assault.

Queen pros. William Welsh *vs.* William Godfrey, Larceny.

SONS OF TEMPERANCE.—His Excellency the Lieut. Governor has been pleased to appoint Tuesday next, at 1 p. m. to receive the Sons of Temperance with their Address.

Correspondence of Haszard's Gazette.

The Fisheries are being prosecuted this year at Tignish, and Miscouche, with great vigor and fair success, owing however to the scarcity of bait and disappointments in supplies of salt, the catch, as yet, has not equalled that of last year. The Crops in this end of the Island are backward, the severity of the past winter, and people generally keeping too many cattle, causing so extreme a scarcity of fodder that seed had to be given in March and April to Stock, consequently, many farmers were hunting up and begging for seed when it should have been in the ground the weather has been cold the past three weeks, prevailing winds from the N., N. E. & E., and potatoes slightly damaged with frost: it is now warmer with heavy dews at night. Lot 1 keeps up its name for giving employment to magistrates, no diminution taking place in the number of petty prosecutions for debt, assault, &c; it is complementary never to that far-off portion of our fair little Isle to notice that a member has been returned to the House of Assembly in the person of Stanislaus Perry, Esq. P. P., &c. &c. &c. What were enlightened Malpeque and mercantile St. Eleanor's, about that they sent not a candidate to the relief of the 2nd District of Prince County, and what will that District do if it should turn out as is reported, where it ought to be known that S. Perry, cannot prove a qualification?

We understand that Lieut. Westropp stationed on Duty in this Garrison, secured two Deserters from the Detachment of the 76th Regiment, this active and enterprising young Officer pursued and took the men 37 miles from Charlottetown on the Bay Fortune Road.

☞ Divine Service will be held (D. V.) in the Temperance Hall, Charlottetown, on Sabbath first, July 2, in the evening at half-past six o'clock, p. m. Mr. Steele will officiate.

Married,

On Tuesday, the 27th, by W. B. Aitkin, Esq., Daniel Gordon, Esq., of Georgetown, to Bridget, eldest daughter of J. Kennedy.

At Halifax, on Thursday, 15th instant, by the Rev. Wm. Bennett, the Rev. Alexander Black, Wesleyan Minister, to Miss Caroline Matilda, third daughter of the Rev. William Croscombe.

Passengers.

In the steamer Lady Le Marchant, from Pictou, high master, Mesrs. Bremner, Clay, Robertson, Stewart, Holden, Langdale, Hugh McKenzie, Lippincott, Mrs. Doane, Mrs. Huston, Mrs. Reddin, Mr. & Mrs. McDonald, Mrs. Hornly.

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS.

Prepared by Dr. C. M. JACKSON, No. 120 Arch street, Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the testimony attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the mitigation of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant.

Read and be Convinced.

"*The Philadelphia Saturday Gazette,*" *says of Dr. Hoofland's German Bitters.*

"It is a pure article, and we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty work, we speak of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"*Scott's Weekly,*" *said, Aug. 25—*

"Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by many of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

MORE EVIDENCE.

J. G. Moore, Esq., of the Daily News said, October 31st:—

"DR. HOOFLAND'S GERMAN BITTERS.—We are prepared to say we have recommended by scores of disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than from any other medicine we have used, or any other allopathic treatment at the hands of our first physicians."

Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says:

"HOOFLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they emanate induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its effect upon the organs of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the testimony of those who recommend, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you can bid defiance to epidemics and fevers. Extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce evidences of the same merit."

For sale wholesale and retail at

THE GERMAN MEDICINE STORE,

No. 120 Arch street, next door below Sixth. Philadelphia, and by respectable dealers generally throughout the country.

In this mammon-worshipping Age, it is rare to find a man place his usefulness to the public, before his interest. Dr. Lyle, of the "City of Spindles," we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedent popularity of his medicines, and the immense sale of them, we had expected to find him a selfish money-grubber. But no, we found him in his laboratory, busy with his laborers, among his crucibles, alembics, and retorts—giving his then personal care to the manufacture, in the virtues of which, thousands hung for health. We learned, that notwithstanding his vast business, and its prompt returns in cash, the Doctor is not rich. The reason assigned, is the enormous sum he has expended in making his preparations so expensively, that the nett profit is small.—*American Farmer, Phil.*
