At the Cumberland convention held in Piquash recently, Rev. Joseph Selar, formerly of P. E. I., gave one of the finest addresses of the convention on the "Social Department of the League." We are social beings. We need recreation, life, energy, sun-bim—fun if you like it. A man who cannot laugh has something the matter either with his morals or his liver, needs either pills or repentance.

On the 19th inst. Mr. Hamilton Bertram (a native of Hazel Grove) started for the West. He proposes going as far as Maple Creek where he has a good job awaiting him, and when he gets settled down his wife and family will proceed to the same place. It seems a pity to see such men as Mr. Bertram leaving our fair Island, but as it is his choice we cannot do better than wish him God-speed.—Com.

MR. W. W. WELLNER has made for Mrs. J. A. McLaren a brooch from a piece of Skerryvore rock carved with two gold bands. Mr. W. Wellner, Jr., has very neatly engraved "Skerryvore, 1899," on the back of the brooch, which is certainly a decidedly original and a novel idea on the part of Mr. McLaren.

We are pleased to learn that Miss Ella J. Savert, Kelvin Grove's competent teacher, has sufficiently recruited to resume her duties much to the delight of her pupils, who appreciate her very highly. Miss Savert, besides being an excellent teacher is a paragon worker in all good causes and on account of her indisposition was gravely missed in the societies in which she takes a prominent part.—COM.

P. E. ISLAND DIRECTORY.—Mr. Charles McAlpin, the oldest Directory publisher in the Maritime Provinces or Dominion of Canada, who is now in the city, will publish a complete alphabetical Directory of the Island this year and will want the support of all in advertising and subscriptions to insure its publication. This work has to have a large support as the expense is very great, in getting the information, printing, binding, paper, etc. A Directory is considered the best advertising medium outside of a newspaper throughout the United States Great Britain and Canada. A great many Directors will go outside to all parts of the world and they will be placed on all lines of steamers running out of Prince Edward Island, St. John, Halifax and St. John's Newfoundland. Send all applications to Chas. D. W. Alpine St. John N. B.

THE Caledonian Club held a social at their rooms last evening which was attended by over 150 of the members and their friends and was filled with the heartiest enjoyment from the commencement to the close. First a literary and musical programme was carried out in the A. O. H. Hall, beginning with an opening address by President McCourt, after which followed a song by William McKay, a reading by Miss Enid McLean, a song by Miss Collings, pipe music by Piper Ferguson, an address by Rev. T. F. Fullerton, a duet by Misses Collings and Webster, a reading by Mr. James Paton, song by Mr. Charles Hermans, duet by Miss Collings and Mr. McLean and a closing address by Mr. J. A. McDona d on behalf of the committee. Then an adjournment was made to the rooms of the Caledonian Club where a large number of tables were set out in most tempting array, where all were most hospitably refreshed, after grace was said by Rev. Mr. Fullerton. The pipes played during the repast and before leaving the tables all joined in singing Auld Lang Syne. Several speakers expressed the hope that hereafter they might enjoy the presence of ladies at the annual St. Andrew's dinner, a sentiment that was very heartily applauded. The party then returned to the upper hall where dancing was indulged in by the happy company. All the visitors present are loud in their praise of their hosts of the Caledonia Club and their hospitable and successful social.

FERTILIZER FACTS!

The value of all Fertilizers consist in the amount of soluble Phos. Acid, Nitrogen, and Potash they contain, and the brand which shows the greatest value in these is the one to buy, on the same principle that milk testing 4 per cent. butter fat is more valuable than 3 per cent. milk. **ENGLISH MANURES** costing the same price, contain 20 per cent. to 25 per cent. more Phos. Acid, Nitrogen and Potash than any other complete Fertilizer on the market.

Or in other words the Plant Food contained in a ton of other Fertilizer costing, say \$35, can be purchased from us for about \$28. All fertilizers are sold under a guaranteed analysis enabling any who may, to verify the above, and the superior quality of these Manures is being shown by actual test year after year by the really wonderful results produced wherever used.
