SIMMAC PLAYOFFS

The middleton Bombers took the lead in the Simmac League playoffs in Bedeque Rink Wednesday evening when they took New Annan Stars into camp to the tune of 5-3. This was the first game of the best three out of five series for the cup.

The first period was productive of cautious hockey and Oatway made a dangerous rally on the New Annan net while Tuplin did some good work for his team finally tallying the only score of the period on a timely pass from E. Hogg. D. Hogg in New Annan's net had only five shots to handle while Muttart had 12.

In the second period play became much faster with Middleton providing the thrills. R. Murray scored on a long pass from Oatway. The next goal also came from R. Murray's stick on a pass from F. McDonald, from a mixup in front of New Annan net A. DesRoches got the fourth score of the game. J. McKenna made the score read 4-1 in Middleton's favor on a nice display of stickhandling. Hogg handled 9 shots to Muttarts 6 in this stanza with Oatway getting the only penalty.

In the last session New Annan threw all their power into the play and came through with two counters to Middleton's one. Schurman and Oatway provided many dangerous solo rushes but R. Murray scored his third goal of the game unassisted. J Tuplin got his second tally on Raynor's pass and McKay after playing a nice game stickhandled from his own blueline to score the last counter of the encounter. Hogg handled seven shots to Muttart's nine. J. Green and H. Bagnall refreed.

Regulations For Four-month Plan

Details of revised scheme submitted in Commons yesterday.

By EDWIN JOHNSON
Canadian Press Military Correspondent

OTTAWA, March 18.—(CP)—Extension of the grounds on which postponement or advancement of training may be granted to men called up under the new four-month compulsory military training plan is provided for in revised and consolidated regulations tabled in the House of Commons today.

The four-months plan supersedes the original 30-day training period inaugurated last October.

On the basis of the revised regulations advancement or postponement of training may be granted to prospective recruits whose call-up would cause extreme hardship to dependents, to men engaged in war industry, university and college students, and those who object to bearing arms on religious or conscientious grounds.

Men engaged in seasonal occupations will also quality for postponement or advancement of training as under amended regulations this field takes in farming, lumbering, trapping, fishing, seafaring, railroad transportation, mining, gold prospecting, placer mining.

The Minister of National War Services is authorized to remove or add from such list any class of occupation and to indicate the period in the best public interest deemed advisable to call out men in seasonal occupations for military training.

All applications for postponement must be made in writing to registrars of the administrative divisions within eight days of the date appearing on the call-up notice. Applicants are also required to appear for hearing before their regional boards at their own expense.

Every man called up and passed medically fit will be subject to report for training if exigencies of the times demand it, despite the granting of a postponement or advancement order.

Once a man's class has been called out, a prospective recruit is forbidden to leave the country without written authority from the chairman of the National War Services Board for the division in which he has been registered.

Although the first class of 4,690 recruits already under instructions to report to training camps throughout Canada was confined to 21-year-olds, the regulations authorize the calling out of single men and widowers without children at any age up to 45 years.

90,000 Available

On the basis of official returns, approximately 90,000 single men and childless widowers aged 21, will be available for call-up during the current year. Of this number, however, it is estimated that a large percentage will be rejected as medically unfit, while several thousand have already joined the active forces or are serving with reserve units.

If the number available for the compulsory scheme falls short of expectations, the Department of National War Services will be able to invoke the regulations which authorize the extension of the call-up to other age groups.

University and college students taking a course leading to a degree or diploma will not be required to report for training until the conclusion of the 1940-41 scholastic year. Those who have undergone training with a Canadian officers' training corps or compulsory training unit will be given credit towards the four-months' course on a basis to be determined by the Department of Defence.

Students who have qualified for commissions will not be called into training and those who have completed their 30-day training period or its equivalent are not to be called out until after other men in the same age class called up last September have been ordered to report.

Any employer engaged in war industry or other employer, including the Dominion Government, the Provincial Governments and Municipal Corporations may submit a plan for the advancement or postponement of the military training of any group of employees In the case of key men or others in any war industry, the employer is also privileged to support the individual's application for advancement or postponement.

The original regulations have been retained regarding reinstatement of a man in his employment on the termination of his military training. The employer is required to re-engage a man who has been called up in an occupation and under conditions not less favorable to the man than those which would have applied to him had he not been drafted.

An employer who, without just or reasonable cause fails to comply with this regulation will be liable on summary conviction to imprisonment not exceeding six months or to a fine not exceeding $500, or to both.

U. S. prepares to Give food aid

WASHINGTON, March 18—(AP)—President Roosevelt said today he had asked Agriculture Secretary Wickard and Dr. Thomas Parran, head of the Public Health Service, to prepare a list of foods including vitamins, needed by Britain and other democracies.

He told a press conference that a major part of the food to be furnished would be sent to the British, but that other democracies were involved, and also Spain.

The Red Cross, the President added, is completing arrangements for two cargoes of food for unoccupied France.

Part of the food to be shipped abroad will be paid for from the $1,350,000,000 included in the $7,000,000,000 lend-lease appropriation for farm and industrial products, and part will be paid from other funds.

Nazi disclosure Of "Bremen" fire Causes speculation

BERLIN, March 18.— (AP) — A fire aboard the German liner Bremen was extinguished yesterday after doing "heavy damage" to the 51,731-ton liner, informed sources said today.

"An investigation into the conflagration has not yet been concluded," these sources said.

No additional light was thrown on the ship's location, although publication of dispatches yesterday from Bremen disclosing the fire had been taken as indication the liner was tied up there.

LONDON, March 18.—(CU) —The British authorities were puzzled today by the Germans' frank disclosure of fire aboard the liner Bremen, and one authoritative source said he suspected it might have been bait to lure British bombers over a trap.

So far the Air Ministry has not claimed that R.A.F. bombers set the liner afire in their heavy raids last week on German ports.

Wintry winds Vent fury on Eastern States

NEW YORK, March 18—(AP)—Wintry winds vented their fury on the eastern United States today while the cold wave that took heavy toll of life dissipated gradually in the midwest.

Snow drifts were piled so high in some central and western sectors of the state that many schools were closed and state police advised against travel.

Five members of a family perished when a wind-whipped fire destroyed their homes in West Colesville, near Binghamton.

Northwest storm warnings were whipped by a blow along the New England coast. Velocities of 20 to 30 m.p.h. were reported on lower levels and measured 99 m.p.h. atop Mount Washington in New Hampshire, where the temperature dropped to 20 below zero. The minimum in northern Vermont was 10 below. Boston felt the sting of 12-above weather.

However, relief was expected to reach the east by Thursday.

TORONTO, March 18—(CP)—Drifting snow today blocked the main road into northern Ontario and almost isolated Camp Borden, one of the largest military training centres in Canada.

Maj.-Gen. E. W. Sansom, commander of the armored brigade, was on his way to the camp with Brig. F. F. Worthington from Ottawa when he was forced back at Bradford, 35 miles north of here, where the road was blocked.

U. S. to probe Possible plot to Block justice

PHILADELPHIA, March 18—(AP) At the request of the Department of Justice, a federal grand jury was directed today to investigate charges that a retired United States circuit court judge, a former U. S. Minister, a one-time movie magnate, and several others had conspired to obstruct justice.

A communication from Attorney General Robert H. Jackson, which was made public by District Judge Guy K. Bard, appointed two New Yorkers as Jackson's special assistants to direct the inquiry.

Named in the charges were J. Warren Davis, retired judge of the Third United States Circuit Court of Appeals, David E. Kaufman of Towanda, Pa., former American Minister to Siam; William Fox, onetime motion picture magnate, and five others.

Kaufman served as a federal court trustee for the old Philadelphia Rapid Transit Company while it was undergoing financial reorganization before Judge Davis retired two years ago. Fox was a party to several pieces of litigation in the courts here about the same time

An investigation of certain affairs of former Judge Davis was begun by a federal grand jury in New York in February, 1940.

Pattullo calls Ottawa request "Inordinate"

OTTAWA, March 18—(CP)—Premier Pattullo of British Columbia, in a telegram to Finance Minister Ilsley yesterday said his province was prepared to assume the contribution to direct relief which had been withdrawn by the Dominion Government but termed an "inordinate demand" the Federal request that the province begin paying off treasury bills.

The correspondence between the British Columbia Premier and the Fedrale Finance Minister was tabled by Mr. Ilsley in the House of Commons today.

Mr. Pattullo's wire of yesterday to the Finance Minister said in part:

"Dominion recently withdrew contribution to direct relief which we are prepared to assume meantime but your inordinate demand that we begin paying off treasury bills brings matter to immediate issue which we much regret at this time."

Mr. Ilsley's telegram to Mr. Pattullo, dated March 17, said in part:—

"Friday morning papers carry alleged statement by you to effect that you do not recognize that the Dominion has a valid claim upon the province in respect of unemployment relief treasury bills given by your province to Dominion during last two years.

"You must have been misquoted and I would appreciate your assurance that your province does not intend to repudiate its valid obligations.

"You will of course not overlook the fact that over $10,000,000 of British Columbia's debt to the Dominion has nothing to do with unemployment relief."

U. S. report on British financing Of war orders

WASHINGTON, March 18.—(AP)—The United States Congress received this statistical summary of Britain's wartime finances and operations today from Harold D. Smith, budget director:

Existing British orders here total $2,700,000,000, of which about $1,682,000,000 has been paid. All goods delivered have been paid for.

Remaining liabilities will be met from existing dollar resources.

The British Government does not have funds adequate to meet additional commitments.

None of the proposed $7,000,000,000 British aid appropriation is to be used to pay for orders placed by Britain in this country prior to the Lease-lend Bill.

On January 1, 1941, British holdings included $616,000,000 of marketable securities and $900,000,000 of less readily marketable investments.

The "nominal" value of United Kingdom investments in Canada is the equivalent of 2,000,000,000 United States dollars while the Kingdom's investments in South America are $3,500,000,000. Smith said the "market" value would be "much less."

As of the first of the year, Britain held $292,000,000 of gold, $54,000,000 of official dollar balances and $305,000,000 of private dollar balances.

Britain has given capital assistance totalling $171,000,000 to United States defence plants in connection with her orders.

The monthly rate of war expenditures for the United Kingdom, Canada, New Zealand, Australia, South Africa and India taken together, according to U. S. Government information, is $1,750,000,000, of which $1,500,000,000 is the expenditure of the United Kingdom alone. During the fiscal year 1941-42, Canada is expected to spend $1,400,000,000 on her direct war effort.

40 p. c. income Tax deduction

OTTAWA, March 18.—(CP)—The Dominion Government will allow an income tax deduction of 40 per cent for contributions to the War Services Fund if subscribed not later than April 7, Finance Minister Ilsley announced yesterday.

"Upon consideration of all the facts," Mr. Ilsley said in a statement, "it has been decided that the proposed budget amendment making 10 per cent. of taxable income the limit to which contributions to any charities will be allowed as deductions will be subject to the qualification that this 10 per cent. may be increased to 40 per cent. by contributions to the war service fund if subscribed on or before April 7, and paid on or before Dec. 31, 1941."

Deduction of 50 per cent. of net taxable income now is allowed on contributions to certain approved patriotic organizations and Mr. Ilsley announced last month this would be reduced to 10 per cent. in the forthcoming budget.
