Canada's export trade—

• • • Excluding the war years, pulp and paper accounts for from 14 to 24 percent of the value of the annual exports of Canada. The exports of pulp and paper far exceed wheat, motor cars, or meat. In 1945 pulp and paper exports virtually tripled the value of the gold production of the Dominion.

• • • 90 percent of the output of the Saint John Sulphite, Limited mill reaches export markets.

The Lights **MUST NOT FAIL**

DESPITE every precaution of the alert utility companies, accidents beyond their control may suspend lighting service. Power wires may be snapped by storms, fires or floods, but when this happens, the Exide emergency system takes over the lighting without interruption.

Many hospitals know from long experience that they can safely entrust this vital service to Exide Batteries.

With these facts to guide you there is no need to rely on guesswork when buying a new battery for your car. There is an Exide suited to your needs.

Over 58 years of battery-building experience and an outstanding dealer organization are ready to serve you.
