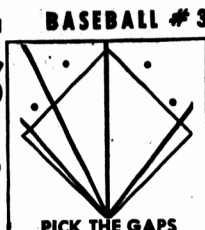
SPORT-TIPS by Ace Percival

Formerly a star athlete, now Canada's top coaching expert, "Ace" says: "Part of every athlete's success is due to right training, part to right eating, part to knowing 'inside' tricks. Here's another way to improve your hitting. Professionals use it. Now you try it."

CLIP AND SAVE

BASEBALL #32 . . . MORE HITTING TRICKS



PICK THE GAPS

When at the plate waiting to hit, study position of opposing infielders. See where best gap is, and place your hit there. See diagram for usual gaps.

HIT DOWN

Softball pitch usually comes at upward angle. Most hitters miss or make weak hit by hitting *under* ball. Cure: Hold bat high, hit slightly down at ball.

BEND KNEES

In *softball*, most hitters miss or "top" ball for easy roller because they hit *over* ball. Cure: Bend knees a little to lower your swing as your bat comes around.
