Thousands Pay Tribute To Late Yugoslav King

All Activities In Country Cease As Murdered Monarch Is Laid To Rest With Ancestors.

(By Charles M. Meister, Copyright, 1934, By The Associated Press)
(By Guardian's Special Wire)

BELGRADE, Oct. 18—Young King Peter II ascended Yugoslavia's throne for the first time today as his father, the murdered King Alexander, was placed in the grave he himself prepared at Topolo.

A hastily erected throne was prepared for Peter in the National Cathedral, where his father's body lay in state, and Peter, from its height, looked down on the dead king and his weeping royal kinsmen.

Not yet has the bereaved young monarch, hurried from his quiet studies in England to rule 16,000,000 southern Slavs, mounted the great golden throne in his father's palace, nor has he put upon his head the golden crown that Alexander never wore.

Precede Body

The crown, and the sword he had no time to draw when an assassin's bullets struck him down at Marseille, preceded Alexander's body as it was lowered into the tomb near that of his celebrated ancestor, Kara George, who founded the dynasty. Kara George, hero of the fight for independence of Turkey, also died at an assassin's hand.

The calm which the widowed Queen Marie and young Peter maintained during their public appearances since Alexander's death gave way to tears and sobs that could be heard outside the Topolo Mausoleum as Alexander was buried. Both seemed on the point of collapse.

Prince Paul, Peter's uncle and head of the regency that will govern Yugoslavia until Peter comes of age, tried to comfort the boy ruler, stroking his head, but his grief was inconsolable.

Massed thousands of mourners stood in line for hours, held back by troops, and church bells tolled throughout the nation, mingling with the roar of heavy guns on land and sea, as 50 men bore the great bronze sarcophagus up the hill through lanes of trees to its last resting place.

All activity halted throughout Yugoslavia for two minutes, while the common people from which Alexander's line came paid tribute to him.

Trumpeters blew taps, the Queen he called "Mignon" took leave of him and the doors of the Mausoleum swung to.

Extraordinary precautions were taken to guard the notables in the funeral procession—King Carol of Rumania, King Boris of Bulgaria, the Duke of Kent and his fiancee, Princess Marina, President Albert Lebrun of France and many another.

Troops standing shoulder to shoulder in double lines held back spectators, and adults were massed together on the left, with children only permitted at the right, so their activities might be better watched.

Secret service agents made many arrests—Yugoslavia has jailed 6,500 suspects to prevent trouble—in the crowds, and spectators were not allowed to carry umbrellas or canes despite the drizzling rain that fell before the sun broke out.

Prime Minister Arrives Today

MONTREAL, Oct. 18—Rt. Hon. R. B. Bennett, Prime Minister of Canada, returning from the League of Nations Assembly at Geneva will be tendered a public reception upon his arrival at the Park Avenue railway station here tomorrow night. Mr. Bennett disembarks from the liner Duchess of Richmond at Quebec earlier in the afternoon.

**Buying live hogs Hunter River and Emerald Tuesday, October 23rd, till 10 a.m. Kensington Monday, Oct. 22nd. Signed, A. E. Wedlock. L-1300-10-18-21

**Young Man if you will deny yourself cigarette smoking you can pay for three thousand estate Insurance. Why not make the exchange. Consult J. A. Moore, Mgr., Sun Life, Charlottetown. L-10-19-tf.

**I wish to announce that I will be open for business with an entire new stock in the store recently occupied by Mr. Ira D. McKay on Saturday, October 20th. Your patronage will be greatly appreciated. Ivan R. Brown, Clifton, P. E. I. L-1320-10-19-31

DRAMATIC CLIMAX TO MANHUNT

International Police Arrest Alleged Ringleaders In The Marseilles Assassinations.

(C. P. by Guardian's Special Wire)

TURIN, Italy, Oct. 18—Hunted down by international police, Dr. Ante Pavelich and Egon Kvaternik, believed the ringleaders in the assassination of King Alexander of Yugoslavia, were under arrest here tonight awaiting extradition to France.

Announcement of the dramatic climax to the police investigation of the Marseille killings, extending into all countries, came only this morning, although Pavelich actually was arrested yesterday by Italian police acting in close co-operation with French and Yugoslav detectives.

The arrest was kept a secret while King Alexander's funeral ceremonies were in progress at Belgrade.

Pavelich, former Yugoslav deputy and leader of Crotia's independence party, stands accused of directing the murders at Marseille where King Alexander and French Foreign Minister Louis Barthou fell under the fire of the assassin, Vlad Georgieff.

Kvaretnik allegedly carried out the executive work, leading four plotters into France and giving them final instructions.

But Maria Vjudroch, described as a "stunning central European beauty," who is believed to have carried Georgieff's instruments of death in a travelling bag, was still at large after a week's intensive search for her.

With three members of the ring now under arrest in France and extradition of the two leaders considered certain, the case entered tonight into a new stage, the international complications of which still can only be guessed.

It was not expected that discovery of the alleged killers in Italy would lead to charges similar to those already said to be contemplated against Hungary for that country's responsibility in harboring a Croat terrorist organization at Janka Pusza.

Neither Pavelich nor Kvaternik, it was said, made any single country their headquarters since their flight from Yugoslavia as political terrorists, both of them wanted for murder at Belgrade.

Failed To Wear Bullet Proof Vest

BELGRADE, Oct. 18—King Alexander of Yugoslavia, lost his life because he failed to wear his bullet-proof vest.

The King, assassinated last week in Marseille, owned two bullet-proof vests. He had intended to wear one of them in France as he had done a month before on a visit to Bulgaria.

But when he went ashore from the cruiser Dubrovnik at Marseille, an admiral's uniform was his garb. The Associated Press learned tonight that he put on the bullet-proof vest, then found the admiral's uniform-tunic would not fit properly over the coat of mail.

He removed the vest at the last moment and went ashore with a perfectly fitting uniform but without the protection he had planned.

Previously he had worn his bullet-proof protection only under tunics of his army uniforms.

ADVOCATES LOW INTEREST RATES

(C. P. By Guardian's Special Wire)

TORONTO, Oct. 17.—Premier Mitchell F. Hepburn today advocated low interest rates for municipalities and said he conferred yesterday with officials of life insurance companies regarding interest rates on bonds.

Will Meet To Discuss Tuber Marketing

FREDERICTON, N. B., Oct. 18—Representatives of the five Eastern Provinces of Canada will meet at Ottawa next Monday to discuss the potato marketing situation with a view to effecting any improvement possible. This was announced here today on behalf of Premier L. P. D. Tilley, by J. K. King, Deputy Minister of Agriculture and chairman of the New Brunswick Marketing Board. The conference has been called by the Canadian Horticultural Council.

New Brunswick's representatives will be Mr. King, A. A. H. Margison, East Centreville, Secretary-Treasurer of the New Brunswick Agricultural Societies United, and J. C. Cunningham, of New Mills.

Hauptmann To Introduce New Evidence

(A. P. By Guardian's Special Wire)

NEW YORK, Oct. 18.—Counsel for Bruno Richard Hauptmann was granted permission by an appellate division justice tonight to move for the introduction of new evidence in his fight against his client's extradition to New Jersey, where he is charged with the kidnap-killing of the Lindbergh baby.

James M. Fawcett, chief defence counsel, appeared before Justice Francis Martin, of the appellate division, and was told he might make the motion before the hearing on his appeal against the dismissal of a Habeas Corpus writ by the Bronx Supreme Court.

Hauptmann's counsel went to the appellate division in an effort to surmount legal barriers to the introduction of new evidence after his appeal had been taken.

N.B. GROWERS SHIP TUBERS TO CUBA

Little Harm Done To Crop in Recent Snow Storm in Saint John Valley.

(C. P. By Guardian's Special Wire)

FREDERICTON, N. B., Oct. 18.—Fears that the recent snow-storm in the upper Saint John Valley would prove harmful to the potato crop have been groundless, it is indicated by reports just received from that section of New Brunswick. Leading growers of Carleton and Victoria County state that the snow disappeared quickly and the chief result was that digging was held up for a few days. Harvesting has been resumed and only from five to ten percent of the crop remains to be gathered.

Conditions following the storm are better in New Brunswick than in the potato-growing area of the State of Maine immediately to the east, where the snowstorm was more severe, leading to the belief that some of the crop would be lost. The setback to New Brunswick growers was only temporary and the storm, it is now indicated, will have no effect on the yield.

Complete Shipment

Growers of the Bliss Triumph certified seed potatoes have just completed a shipment to Cuba, a steamer being loaded at Saint John for the Island republic. The present shipping season in connection with the Cuban seed trade has been up to last year's in volume but not in price. Seeded potato prices, following the trend in table stock have declined to a point seventy-five cents a barrel under last year's mark. The shipping of seed from this province to Cuba will resume in January when Cuba growers prepare for the planting of their second crop. This province ships to Cuba between 30,000 and 40,000 barrels of seed potatoes yearly, but due to the Cuban tariff discriminating in favor of the United States and against Canada, there is no outlet there at the present time for New Brunswick table stock.

A considerable movement in potatoes from York and Carleton counties to the Saint John market has been under way in the past few days, motor trucks being used.

SUDDEN DEATH OF ISLANDER IN ONTARIO

Mr. Donald McLeod, Formerly of S'side, Killed In Fall From Horse.

(C. P. by Guardian's Special Wire)

ST. CATHERINES, Ont., Oct. 18—Donald L. McLeod assistant general manager of the Ontario Paper Company and a native of Prince Edward Island, was fatally injured today when he fell from a horse he was riding.

Mr. McLeod was riding at the St. Catherines Riding and Driving Club when the accident occurred.

Two witnesses, C. H. Gough and H. Gough, who saw the accident said the horse slowed down after a fast gallop and Mr. McLeod seemed to sway to one side apparently seized with a fainting spell. Then the man fell from the saddle, landing on his head.

Mr. McLeod was popular with officials and men at the factory. He was born in Summerside, Prince Edward Island in 1889 and educated at Prince of Wales College, Charlottetown and at McGill University, Montreal.

During the war he was associated with Price Brothers Paper Company at Kenogami and River Bend, Quebec and later with the Abitibi Company at Iroquois Falls for four years. He had been with the Ontario Paper Company as assistant general manager for the post four years.

Mr. McLeod was regarded as one of the best-informed men on technical processes in the paper industry. He was a past chairman of the technical section, Canadian Pulp and Paper Association, and this year was representative of the administrative committee, surviving are a wife and two small sons, Jack and Douglas, also the following brothers; Dr. Neil MacLeod, Philadelphia; William, of Dyke, Saskatchewan; Kenneth, Detroit Michigan; Reginald, of Kitchener, Ontario, and Norman in Summerside.

Mr. Norman MacLeod, Summerside, yesterday received word that his brother, Donald MacLeod, had been killed at St. Catherines, Ontario. The news was telegraphed by another brother, Dr. Neil MacLeod, of Philadelphia, who stated he was leaving at once for St. Catherines and would send more particulars.

The late Mr. MacLeod was a son of the late Neil MacLeod, K. C., Summerside, who passed away this spring, and his wife Ada Ramsay MacLeod, who died about two years ago.

Deep sympathy will be extended to the bereaved relatives in their sudden bereavement.

Simple But Effective

CHICAGO, Oct. 18—This inventor has an idea for preventing bootleggers from refilling good bottles with bad liquor. It is a bottle with a 25-cent piece embedded in the glass. The purchaser would be charged for it, and to get his quarter back he'd have to smash the bottle when it was empty.

The inventor is J. M. Braude, associate director of the Illinois State Department of Finance.

Status Of Provincial Marketing Board Raised At Potato Men's Meeting

Lively Discussion Over Potato Marketing Scheme Submitted By Committee Of Five Appointed At Dealers' Meeting. Personnel Of Local Board Main Subject Of Contention. Prov. Board Authorized To Take Over And Present Scheme At Next Meeting.

Following is a continuation of the report in yesterday's Guardian of the meeting of potato producers and dealers, held in the Queen Square School auditorium on Wednesday afternoon to consider the draft scheme under the provisions of the Dominion Marketing Act, presented by committee consisting of Messrs. J. W. Boulter, chairman, M. G. McNeely, W. M. Wilson, F. B. Clark and A. Mallinson. The meeting was presided over by Mr. W. R. Shaw, chairman of the Provincial Marketing Board.

Mr. J. H. Myers, M.P., said he had attended the meeting in Charlottetown a few nights ago, which had been called by the Provincial Marketing Board. His understanding was that the Provincial Board had requested the meeting to appoint a committee to assist them in preparing an emergency scheme that would take charge of the certified crop this year. When the committee thus appointed had done what that meeting intended they should do, they did not constitute a board of any kind. The whole matter, Mr. Myers submitted, still remained in the hands of the Provincial Board. He pointed out that in British Columbia the apple growers, and in Ontario the tobacco growers, were organized under the Act. It was the intention of the Act that it would help all Canada, but each industry must stand on its own feet. "We in this Province are dealing with perhaps two of the most difficult things to market—potatoes and turnips. If we get together today and just cut out a few little local prejudices, I believe we can work out a scheme with reference to the marketing of these products that will vastly benefit the farmers of Prince Edward Island; and goodness knows they are entitled to all the benefits that can be obtained."

Mr. Mutch's Protest

Mr. R. E. Mutch of R. E. Mutch and Company, Charlottetown, said he agreed with Mr. Myers. He thought the matter should be in the hands of the Provincial Marketing Board. "The committee that was appointed have done well," he added; "they have presented a plan. I do not agree with it in its entirety. In fact there are parts that are most objectionable. To permit those five dealers who are in competition with me to demand that I submit to them all my contracts, copies of my invoices, etc.,—that is ridiculous, and no Government will enforce such a regulation. To ask today to pass on this as a definite programme, I would say No, because it does not answer the purpose. My suggestion is that our Provincial Marketing Board take this scheme and think it over carefully. This meeting is not competent to speak for the residents of Prince Edward Island, nor is this committee appointed by a meeting of some of the dealers competent to sit in judgment and market the potatoes and turnips of Prince Edward Island. Let our Provincial Board take charge of the thing from now on. If they in their wisdom think this scheme is all right with some modifications,

(Continued on Page 3)

FLIERS POISED FOR 12,000 MILE FLIGHT

International England to Australia Air Race Starts Tomorrow.

(C. P. By Guardian's Special Wire)

MILDENHALL, England, Oct. 18—(C. P.-A. P.)—With close to 12,000 miles of land and sea, mountain and plain, desert and forest ahead of them a group of sturdy fliers tonight were either desperately fixing last minute mishaps or just plain praying for a fair start on the England-to-Australia air race Saturday.

Tonight is their last complete rest before their 21 planes, many specially designed for the race, roar away on the long flight to Melbourne seeking a prize of $50,000 for pure speed—and it may be under three days—or the $10,000 additional prize for the slower handicap division.

All planes at the aerodrome have been weighed and checked except that of Miss Jacqueline Logan of New York, and that job will be tackled tomorrow morning. Mechanics were furiously working to repair damages to the plane of Ken Waller, the propellor of which was bent after a landing today when the undercarriage collapsed, and groups of other fliers and mechanics were doing the last polishing off on their machines.

As a result of a ballot for starting places that famous pair, the flying Mollisons, will lead the take-off. Col. Roscoe Turner and Clyde Pangborn, United States aces, will follow. Last to go will be the young Australian, C. J. Melrose.

Moderate to fresh southwest & northwest winds; cloudy becoming somewhat cooler at night.

BRITAIN BACKS UNITED STATES NAVAL STAND

(By Harold B. Braman)
(Copyright, 1934, By The Associated Press)

(By Guardian's Special Wire)

LONDON, Oct. 18—Great Britain stands with the United States, France and Italy in wanting to continue basic principles of the Washington and London Naval treaties, an official source said today.

That was Britain's reply to Japan's demand that the treaties be scrapped and other means of limiting navies be set up.

"Japan wants equality," Admiral Isoroku Yamamoto, Japanese delegate to tri-power naval talks starting here next week, said yesterday as he disclosed he would ask for abolition of the 5-5-3 ratio, long irksome to Nippon, and seek limitation on the global tonnage basis instead.

As the British and United States delegates to the conversations established their first contact, the British spokesman said his government wants the treaties continued with only relatively minor changes.

At the same time, he said, Britain will favor reductions in naval tonnages.

C.N.R. Crew Absolved In Accident

(C. P. By Guardian's Special Wire)

WOODSTOCK, N. B., Oct. 18—A coroner's jury investigating the deaths of Israel Churchill and Mrs. Lillian Vesey at Dibblee Siding yesterday absolved the crew of C. P. R. Express no. 152 of all blame today. Both victims were killed instantly when the train struck the coupe in which they were driving toward Woodstock.

Guy Hutchcok, locomotive fireman, said the car slowed as it reached the crossing and then suddenly leaped in front of the engine.

Gesture Of Goodwill At King's Grave

(A. P. by Guardian's Special Wire)

TOPOLO, Yugoslavia, Oct. 18—A gesture toward better feeling between France and Germany developed at the grave of King Alexander of Yugoslavia today.

Hermann Wilhelm Goering, Premier of Prussia and Adolf Hitler's representative at the funeral, and Marshal Henri Petain, French Minister of War, conversed in friendly fashion as they emerged from the church.

They posed smilingly together for photographers.

Gangsters Loot Havana Treasury Of $150,000

(A.P. By Guardian's Special Wire)

HAVANA, Oct. 18—Police today jailed the city hall cashier and two of his assistants after four men armed with machine guns robbed the municipal treasury of $150,000.

Describing the bandits as gangsters, authorities said they took Jose Guerra, the cashier, and his aides into custody until their investigation of the robbery, believed to be the biggest in modern Cuban history, had been completed.

Soldiers and sailors hastily summoned to reinforce police forces scoured old Havana, in the heart of which the ancient city hall is located, in an effort to trace the bandits. Late today they had failed to locate them.

The four men, after locking Guerra and the others into the treasury safe, carefully selected United States bills to the amount of $150,000, leaving behind more than $1,000,000 in Cuban silver, and fled in an automobile.

Guerra said he was working when the men entered his office, guns in hand, and ordered him and his assistants into the safe. They obeyed and were shut inside.

The alarm was quickly given and authorities started their hunt only ten minutes after the robbery was staged, but despite their search of all automobiles in the district the bandits succeeded in making good their escape.

United Maritime Fishermen Close Convention Here

Co-operative Buying And Selling Urged At Closing Session Yesterday.

The closing session of the United Maritime Fishermen's Convention was held yesterday morning. The morning session opened with a discussion in regard to representations recently made to the Federal Government requesting that a Federal grant be made for the purpose of advertising, consequently promoting the sale of fish. This discussion resulted in the passing of a resolution of non-support, inasmuch as it was the opinion of the convention that the proposed expenditure would fall far short of promoting the interests of the primary producers.

Mr. Ovide Hubert, House Harbor, Magdalene Islands, in response to a request from the chairman delivered a very informative report dealing with the activities and progress of the House Harbor Fishermen's Federation, Ltd., which operates the largest producing lobster cannery affiliated with the U. M. F. He stated that the business of the Federation has increased 100 per cent over last year. He referred to the difficulty the Federation experienced in shipping lobsters as the subsidized boats were not friendly to the Federation. Mr. Hubert paid a glowing tribute to the late Rev. Father Arsenault who was the chief promoter, and up until the time of his untimely death the director of this large co-operative enterprise.

The Secretary, Mr. Burke McInerney, presented a resume of the year's work of the central organization. During the past year the efforts of the organization had concentrated on two matters, co-operi-

Rebellion Against Nazi Church Scheme Spreads

(A. P. By Guardian's Special Wire)

BERLIN, Oct. 18—Revolt in the ranks of Nazi churchmen themselves today threatened the rule of Reichsbishop Ludwig Mueller and Dr. August Jaeger.

The spreading of the rebellion to the ranks of Chancellor Hitler's faithful became apparent with the formal protest of the Nazi Christians' leaders and attorney, Christian Kinder.

Kinder expressed lack of confidence in Dr. Jaeger, Prussian commissioner of Protestant churches, after protesting personally to the Reichschurch government. He is supported by the powerful Nazi Bishops Friedrich Coch of Saxony and Karl Thom of Pomerania.

The Reischchurch supreme council has not escaped the rebellious spirit. Pastors Christiansen and Langmann and Chief Church Counsillor Birnbaum demanded Jaeger's resignation.

The commissioner responded by dismissing them from office. Rev. Fritz Engelke thereupon presented his resignation.

Engelke is director of the Hamburg Mission House. He has been the Lutheran representative on Mueller's spiritual cabinet since Feb. 23.

Hitler was reported to be so disappointed in Mueller that he cancelled an audience which had been arranged for tomorrow.

The more conservative among the Nazi Protestants now appear to realize that unity of the church, which the oppositionals also warmly favor, cannot be vouchsafed by a Reichschurch government which every trimester produces a serious
