FARMERS AT

Continued from page 1

come tax matters. The Canadian Federation of Agriculture takes the stand that the income tax is a fair tax on the farmer, he said. The Federation had been encouraging farmers to file their returns because if they didn't they would eventually find themselves in a predicament.

Tells Of Troubles

He then went into detail explaining the difficulties that farmers have encountered in their dealings with the Income Tax Department. He said that farmers' returns should be assessed within a year of filing and their books for that year closed. Many farmers file returns, he said, only to have the department throw them away and make an arbitrary assessment. In many cases the department has taken an arbitrary stand and they regard the farmers as crooks, he said.

Mr. Lincoln Dewar said that the size of the meeting is an indication of the interest the farmers are taking in their income tax problems. "We admit that taxes must be paid in some form or other," he said, "but when they strangle trade, prevent the development of useful activities in the community, some action should be taken. The income tax law is bad, its administration is worse and the principle behind it is rotten."

Mr. Dewar pointed out that there is great need in the world today to produce more food, yet if there is one thing that hamstrings agriculture, it is lack of capital. Every farmer could use more money and if they are forced to pay it out in taxes they lose operating capital that they need. Farming was the original industry in Canada, the speaker said, and laid the foundation for every other industry in the country. Other businesses depend on keeping accurate records but the man that operates by wind, sun, fertility, the seasons and other intangible things that have a bearing on his success cannot reduce his operations to a balance sheet. It is impossible for a farmer to tell accurately whether he has a profit or loss from a financial statement although he may get some indication. Profits in agriculture mean losses in depleted fertility, and agriculture cannot stand any more exploitation.

The income tax law has to be changed or at least the method of administration must be changed.

Mr. Robert Baker, North Bedeque said that farmers are a pack of "darn fools." If they worked only eight hours a day they wouldn't have any income taxes to pay.

Tell of Experiences

Mr. Ira Banks told of his experience with the department where he filed returns to the best of his ability but was sent a bill for $57 and fined $5.

Mr. John Barrett told of a personal experience of filing for 1946 and 1947 and then the department came after him for 1945 and sent him a bill for nearly $200.

Mr. Louis Cairns, Freetown, said he also had some trouble but went to the Department in Charlottetown, where he found them very fair, and got it fixed up.

Mr. Banks said no inspector or any other man has authority to juggle his statement after he made it out.

Mr. Sanford Phillips complained that there is no provision for men that had losses in years gone by.

Mr. Walter Lord, Cape Traverse said there should be some consideration for farmers under a mortgage. He said that total depreciation for farm equipment should be allowed in the years it is paid for and that a farmer should be allowed to deduct as wages money paid to children for farm work. However, he said, lots of farmers have themselves to blame for the years from 1942 to 1946 for not filing returns. He said he had been filing since 1940.

Captain Read said that the whole system of income tax regarding the primary producer is wrong. For instance a farmer is now allowed depreciation on his dwelling but the storage for his potatoes is under his house.

Mr. E.J. Johnstone said that the exemptions are too low. There is something wrong with agriculture, he said. Why are so many young people leaving the farms if there is so much money in farming?

Resolutions Adopted

A motion was proposed that the meeting oppose the practice of the department in endeavoring to assess farmers in respect of the years preceding 1946. Some farmers present objected to this resolution in that some farmers had filed and paid their taxes for those years and what provision would be made for them. Others present said that the farmers should stick together on this, even though some had paid. The motion was eventually passed unanimously.

There was a great deal of discussion on the other motions that were put to the meeting but they were all carried.

A resolution was passed asking that the exemptions for everybody be raised to $2400 for a married person and $1200 for a single person.

Other resolutions strongly condemned the assessment of farmers on a basis of so-called "net worth or capital statements," and the delays in assessing farmers' returns now encountered.

A lengthy resolution was passed asking that the department, until there has been put into effect some other form of taxation in reference to farmers, should recognize certain facts. Many farmers have not the education or experience to keep the sort of records demanded; that the farms are under-staffed and that only farmers working long hours and rigidly economizing come within the taxation brackets; that the practice of applying the "net worth" or capital method of arriving at a farmer's assessment is basically wrong; that the widespread feeling of resentment and discontent resulting from the present policy of administration is causing many farmers to curtail their operations or give up farming entirely.

Mr. Profitt brought the meeting to a close by saying that the farmers of the country are fine people and must be considered a factor by any government in power that cannot be ignored. —S.

Summerside Fire Dept. Annual Banquet Is Enjoyable Function

Members of the Summerside Fire Department met last evening for their annual banquet at the Olympia Restaurant and enjoyed one of the most entertaining get-togethers in many years. The banquet was presided over by Fire Chief W. B. McNeill and at the head table were such distinguished guests of the department as Fire Chief H. H. Jewell of Charlottetown and his secretary Mr. Leslie Gillispie, Mr. Claude Kenny of the Summerside department, who has had a continuous record of service of fifty-one years, Past Fire Chief Thomas Johnston, now retired from the service, acting Mayor Henry W. Wedge. Present also at the enjoyable function were Town Clerk Hale Strong, Councillors Lorne Driscoll, Lloyd Gorrill, H. B. Schurman, Water Commissioner, Carroll Delaney and George Hogg, secretary of the department.

Much of the success of the annual banquet goes to the very efficient committee in charge, Messrs. J. C. Mountain, James Connell and Jack Schurman.

Acting Mayor Henry W. Wedge expressed his regrets at the unavoidable absence of Mayor J. F. Arnett, who was unable to be present due to illness. Councillor Wedge expressed his appreciation to the department for their invitation to be present. He referred to the low loss from fires during the past year and complimented the members for their efficient work during the term.

Fire Chief Jewell of Charlottetown sincerely thanked the Summerside officials for the honor of their invitation and conveyed the good wishes of the Charlottetown brigade to the local firemen.

Councillor Gorrill stated that in his opinion the record lack of fires in Summerside was not just luck. He doubted if the fires could be gotten to any quicker if there was a permanent force in town.

Town Clerk Hale Strong and Councillors Driscoll and Schurman spoke briefly but in complimentary terms of the excellent work done by the Summerside Fire Department in keeping fire losses at a minimum in Summerside during the past year.

Sgt. Heath of the R.C.M.P., who was also present, expressed his thanks for their excellent work in saving the Court House during the fire which broke out several months ago. Sgt. Heath expressed his willingness to assist the department at any time his men might be called upon.

Highly enjoyable entertainment was provided by Messrs. Herb Schurman, Gerald Sheen, Roland Sheen and Alan Wedlock with tap dancing by Mr. Roland Sheen, ably assisted by Albert Woodside. Pianist of the evening was Mr. Albert Huestis.—S.
