Morning Stock Letter

(Received over Pitfield and Co's Private Wire)

TORONTO, March 4—Central Patricia—Semi-official advice on Central Patricia Mines concerning annual report to shareholders is that earnings of 12 cents per share will be shown for 1935 while approximately $200,000 cash surplus will be shown in addition to $200,000 placed against new supplies. Ore reserves will have shown an increase by some 25,000 tons at the year end. After having mined 35,000 tons. The recent step-up in the mill tonnage will be fully reflected in the production for the first quarter of 1936.

NEW YORK, March 4—National Cash Register and subs year 1935 consolidated net profit $1,520 or 93 cents a share against $1,115,631 or 68 cents in 1934.

MORNING STOCK LETTER

NEW YORK, March 4—Other than the Administrations Tax program there is little news which might have any effect on the market except the plan of the British Gov. to rearm in a very important way which may have some favorable effect on the aviation and shipbuilding stocks. It will probably be some time before one can interpret fully what the final outcome of the Gov. Tax Program might be. Furthermore, it is still a question whether it will be passed by Congress. Whether it was the Tax Program or business that stimulated the market is a problem, but in any event the different averages went into high ground yesterday for the year and we believe the market will carry higher today. There are several dividend meetings today including American Agricultural Chemical, Continental Diamond Fibre, Flint Co., Guarnty Trust, Lehman Corp., Marine Midland, Singer Mfg., U. S. Gypsum, U. S. Tobacco. We would favor General Motors, Chrysler, Eaton Mfg., Container Corp., Am. Can, S. O. of N. J., Gulf Oil, also the rails and utilities will participate in the market again in an important way.

TORONTO, March 4—British Columbia Nickel—Vancouver reported over week-end that during the past week B. C. Nickel Co operating at Choate has revealed some high values in ore bodies found by diamond drilling. Recently the property was examined by one of the foremost mining engineers of the United States representing heavy New York capital and rumors here are rife that there is something in the wind with regard to a deal of importance. The company has proceeded with developments.

GRAIN

(Canadian Press)

WINNIPEG, March 4—Wheat futures showed firmer trends on the Winnipeg Grain Exchange Tuesday, at the close standing 1-4 to 3-4 cents higher. May closed at 83 1-2, July 84 1-2, and October 84 3-4 cents.

Substantial export and mill buying were factors in the fractional advances. Estimates placed the sale of Canadian wheat during the session and overnight at more than 1,500,000 bushels.

Support to the local market was supplied by Liverpool, which closed 3-4d to 1-4d higher. Cables reported an improved demand for Canadian and Australian wheat for United Kingdom consumption and the continent.

The coarse grain market was quiet, with scattered trading in evidence.

Buying Waves Cause Further Record Highs

By Frank MacMillen,
Associated Press Financial Writer

NEW YORK, March 4.—Although sporadic bursts of profit taking shaded prices throughout the list in today's stock market, succeeding buying waves centred in industrial and miscellaneous shares sent many issues to the highest point in five years and extended the recent upward trend.

There were minor adjustments to bring prices in line with traders' interpretation of the Roosevelt taxation proposals. And an overnight accumulation of orders forced trading through an active hour at the opening.

Steady pressure of buying and selling sent total transactions to 3,011,250 shares compared with 2,750,910 shares on the previous day.

Outstanding performer on the upside was Allied Chemical which added 8½ points at 189½. Others which advanced toward the average outside limit—some 3 points—included American Chain at 44½. American Can at 128, container Corp. at 24¾, International Harvester at 72, Santa Fe at 77½, and Consolidated Gas at 36½.

Just before the close of the market, a surge of profit taking struck Chrysler, which lost all its gain piled up since the opening and went below the line for a loss of 2 points. It rallied to end with a major fractional decline at 99¾.

Fractional losses predominated in the Canadian list. Canadian Pacific, Distillers-Seagrams, Dome Mines, McIntyre-Porcupine, International Nickel, Brazilian, Ford of Canada A, Imperial Oil, Massey Harris and Quebec Power were all fractionally lower.
