Children Cry

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Goods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proved.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

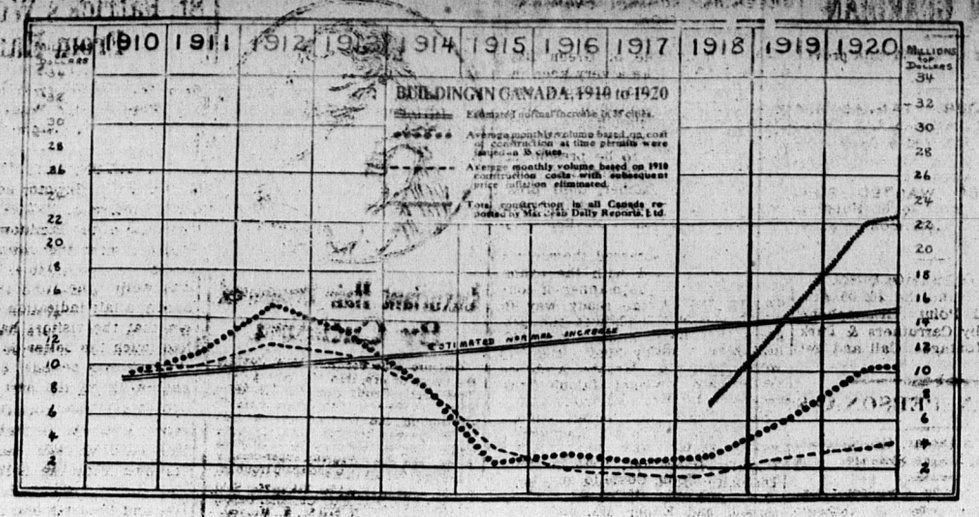
BUILDING IN CANADA, 1910 TO 1920



The best method of obtaining a true idea of the building and construction situation in Canada is by the accompanying chart. A close study will reveal many interesting points.

The line marked "estimated normal increase" indicates the amount of new construction which should have been undertaken each year in order to provide for the needs of a growing country like Canada.

The line composed of round dots indicates the average monthly value of the building permits issued in thirty-five leading cities, based on the cost of construction at the time permits were issued. Owing to advancing costs this line gives false idea of the actual volume.

The line composed of straight dots was approximated to indicate the average monthly volume of building permits in thirty-five cities based on 1910 construction costs with subsequent price inflation eliminated. In order to arrive at this curve 1910 was taken as a normal basis, costs increased during 1912 and 1913 so that the volume is slightly below the cost. In 1914 and 1915 the reverse was experienced and then in 1916 and 1917 the cost began to rise as compared with the volume until 1920, when the actual cost of construction work was a little more than double what it would have cost at 1910 prices. The space between the estimated normal increase straight line and the broken line indicating volume or quantity gives a fair idea of the shortage of construction work in Canada and is the strongest possible way of indicating the real situation.

The amount of deferred building in this country is tremendous, and apartments, office buildings and houses galore are required. There are a lot of public buildings needed, Federal, Provincial and Municipal which have been held up all over the country, first on account of the war and since then on the increased cost of construction. A large number of corporations require new buildings, such as stations, offices and hotels. Almost every municipality is in immediate need of building roads, bridges, sewers, waterworks, sidewalks, etc.

The line composed of oblique marks shows the actual value of construction contracts awarded during 1918, 1919 and 1920 in all the cities, towns, villages and rural districts throughout Canada and which were reported on by MacLean Daily Reports Limited. This line dissipates the popular belief that the report of building permits issued in the thirty-five leading cities covers general construction work. The MacLean figures which cover all construction work in Canada, show that the permit are but one third of the total.—The Canadian Building Reviews.

Motor Bikers' Midnight Run

The first midnight motorcycle run ever held in New England will be held this year under the auspices of the Tuttlum Motorcycle Cub of Boston, and 50 or more entries are expected, coming from every point in the State.

The first rider will leave 793 Boylston Street at one minute after midnight New Year's Eve, and the others one minute apart there after.

The run starts at 793 Boylston street, going over the State highway to Worcester, where a checker will greet the riders. From there they go on to Springfield, checking in at the "Indian" factory, where they will enjoy a two hours' rest, then returning over the same course to Boston.

This is the first midnight run in New England. George "Usco" Ellis is the originator of the run, having started his first in New York City back in 1915, which today is still carried on by the Crotona Motorcycle Club of the Bronx, New York.

Johnny Wilson Is Ready For Bout

NEW YORK, Jan. 8.—Johnny Wilson, who won the middleweight boxing championship from Mike O'Dowd last May is now "ready and willing" to grant him a return bout, or to meet any other 158 pound boxer the public demands, his manager, Marty Killilea, announced today.

Wilson has been under a physician's care five of the seven months he has held the title, Killilea said.

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine. 7

THE SUSSEX TEAM ARE HEARD FROM

Judging by the advance sale of seats, a very large attendance will witness the opening game of the Eastern Amateur Hockey League tonight. The past performances of the Sussex team have created widespread interest in their first encounter with the Abegweits. Sussex is fast attaining athletic prominence, their Association having last year completed a splendid athletic grounds and track and having brought out some fine athletes, notably Miller who is today the greatest high jumper in the Maritimes. A letter received by the Abegweit President is indicative of the true spirit of sport, and it is to be hoped that our hockey enthusiasts will give Sussex the glad hand in any piece of brilliant play extracting from the latter follow. Our hockey team has had several good practices and we feel sure that Charlottetown will be pleased with the brand of hockey they set up. We fourth and practice above all, clean hockey. We are sure that we will at least make the game interesting for your team and spectators. LAST year one of the officials in the Eastern League pronounced Sussex the sportiest team in the League. For the opening game we will leave the Referee question in your own hands as we feel sure judging from the reputation of your club that we will get an absolutely square deal. We assure you of our hearty co-operation in giving the public clean and fast hockey."

The Sussex team will line up as follows:

Goal—Finnegan
Defence—Hay and Ratcliffe.
Forwards—Centre—Leclair
L. W.—Friars; R. W.—Ratcliffe.
Subs—McEwen, James, Roach.

NOTES

Game will begin at 8.30 sharp.

New Rule—15 feet out from nets defending team is never guilty of offside play.

Be generous in praise of good plays, whether made by the local team or the visitors.

Twelve games will be played—six here and six on the road.

The winners of the Eastern League will be entitled to play for the Maritime Championship.

The President has received word from Halifax, in connection with the Morton and Thompson Trophy stating that, home and home games will be played; the number of goals counting.

HE WHO LAUGHS LAST—The proprietors of two rival livery stables, situated alongside each other on a busy street, have been having a lively advertising duel lately. The other week one of them stuck up on his office window a long strip of paper bearing the words—"Our horses need no whip to make them go." This bit of sarcasm naturally caused some amusement at the expense of the rival proprietor, but in less than an hour he neatly turned the tables by pasting the following retort on his own window: "True. The wind blows them along."

WANTED HOOVER TO FIND A HUSBAND.—"Please help me to obtain food or a substantial position, or better still, a nice kind young American husband." Thus writes a widow of a German officer killed in the war, to the headquarters of the Hoover Relief Administration, Hamburg. Appeals for food or assistance in finding employment, many of them from Americans living in Germany since before the war, are received daily, but this is the first instance of the relief agency being called on to function as a matrimonial bureau.

CONTRACT FOR BIG DRY DOCK.—The government is to build a big dry dock of the first class at Esquimalt, and the contract has been awarded to the Peter Lyall Construction Company of Montreal. Their tend of $4,200,000 was the lowest received and after some consideration the contract was ratified at the Cabinet Council. The big undertaking will be an aid to the unemployment situation at the coast.

GOES TO LONDON TO BOOK ACTORS.—George F. Driscoll, Montreal, vice president and managing director of Trans-Canada Theatre, Limited, has sailed from New York by the Imperator for London, to negotiate for the bringing to Canada of several of the leading stage figures and outstanding successes of the London season. Some of these he hopes to bring over before the close of the present season, while the others will form the nucleus for the Trans-Canada enterprises of the season of 1921-22. The success which has so far attended

ARGENTINA WHEAT YIELD.—An increase of approximately nine millions in the estimated yield of Argentina for the crop season 1920-21, as compared with the previous year, is indicated in a despatch to the Weekly Bulletin of the Department of Trade and Commerce. The estimated crop yields for 1920-21 are as follows: Wheat, 223,034,000 bushels; oats, 53,819,000 bushels; flax seed, 55,115,000 bushels. Tht corresponding final estimates for the season of 1919-20 were: Wheat, 214,142,000 bushels; oats, 53,754,000 bushels, and flax see, 42,039,000 bushels.

HAPPY THOUGH MARRIED.—The following pleasant recipe for being happy, though married, was given by an old village woman to her daughter, who was married recently: "Do as your father and I did, my dear. Whensoever he came home feeling contrary, he wore his hat on the back of his head and that were a sign. And then I never said a word. And whensoever I felt cross or crooked, I threw my shawl over my left shoulder, and then he never dared say a word."

GRAPE CROP VALUABLE.—Grapes valued at about $500,000 were sold last season by the Niagara District Grape Growers, Ltd., and the net profits thereon totalled $34,000, of which $13,000 was disbursed to members of the association at Stony Creek, Ont., where the annual meeting was held. Reeve J. T. Mahoney, of Saltfleet township, president of the organization, reported thus satisfactorily at the meeting and declared that no longer were the grape growers dependent upon the Canadian Wine Manufacturers for a fair price for grapes. President Mahoney said that last fall the Canadian Wine Manufacturers offered $65 per ton for grapes, but the association had sold the bulk of the season's crop in the United States at $84.10 a

PREMIER URGES CARE—Premier Lloyd George, speaking in the House of Commons, said he was opposed to hasty action in altering the treaty of Sevres in favor of the Turks, as against the Greeks. He advocated going warily with regard to the Greeks, saying there might be explanations given of their recent action in overthrowing Premier Venizelos and recalling Constantine to the throne.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breathe at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream to your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

STORES SURRENDERED BY GERMANY—Marshal Foch's report on Germany's disarmament, according to the Temps says that the Germans have surrendered 41,000 cannon, 29,000 unmounted cannon barrels, 163,000 machine guns and barrels, 2,800,000 rifles, 16,000 airplanes and 25,000 airplane motors. The German delinquencies in executing the disarmament clauses of the treaty and the Spa agreement are said to be principally the maintenance of civic guards in Bavaria and Eastern Prussia, the organization of security police and failure to destroy the required amount of artillery in the Eastern and Southern frontier fortresses. The report recites the details of the Germans' request that they be allowed to retain 841 cannon in the fortresses, but the Allies have approved the retention of only 20 guns at Koenigsburg, 36 at Pilau and 32 at Swinemuende.

YOUNGEST SOLDIER WAS A CANADIAN.—The credit for having the youngest soldier in the great war has been claimed by both the United States and France, but the honor really belongs to Canada. R. C. Thompson of Prince Edward County, Ontario, enlisted when only thirteen years of age, with the 80th Battalion. Discharged from this on account of his age, he three months later enlisted in the 155th Battalion on March 16 1916. He accompanied that battalion to St. Andrews, New Brunswick and left for overseas on September 14, 1916, and served in France for several months before it was discovered that he was only fourteen years of age and sent back to Canada. At the age of sixteen he again went overseas and served with the C. M. R., returning to Toronto with that unit, after the close of the war.
