PRODUCE

(Canadian Press)

MONTREAL, Nov 9—All lines with the exception of cheese, which advanced slightly remained unchanged on the Montreal dairy and produce market today. Today's cheese prices were ¼ cent above those of Wednesday. Ontarios becoming 9¾ cents a pound and Quebecs 9¼ cents. Advancing sterling, inducing improved export demand, again lifted the local market. Arrivals for the day totalled 2,307 boxes.

On the egg market preparations were being made to introduce the new egg grades in Montreal on Monday. The terms of extras, firsts and seconds are being abolished for the new terms of A B and C. Prices were firm today. Ontario graded fresh eggs brought 46 to 47 cents a dozen for extras, 40 cents for firsts and 37½ cents for pullets. Storage eggs continued at 21 to 21¾ cents for extras, 19 to 19½ cents for firsts and 16 to 16½ cents for seconds, for carlots or less. Receipts amounted to 721 cases.

No 1 grade butter in carlots or less was steady at 20¾ to 21 cents a pound, with offerings totalling only 45 boxes.

Quebec potatoes remained at 65 to 70 cents per 80 pound bag and New Brunswick green mountains at 75 to 80 cents for similar quantities.

DAD HEARS NEW-BORN "YOW" ACROSS OCEAN

NEW YORK, Nov. 9.—The telephone rang in Christ Hospital, Jersey City, and Ernest Mlle, speaking from Berlin, said he would like to talk to his son, Peter Gilg Melle, who was born at 6.15 p. m. on Saturday.

"Hello, son," said Mr. Melle, at $11 a minute.

"Yow," said Peter, not caring what it cost.

Mr. Melle asked more expensive questions, but Peter bearing lightly the distinction of being the youngest person ever to talk by telephone to Berlin, refused to make any further statement.

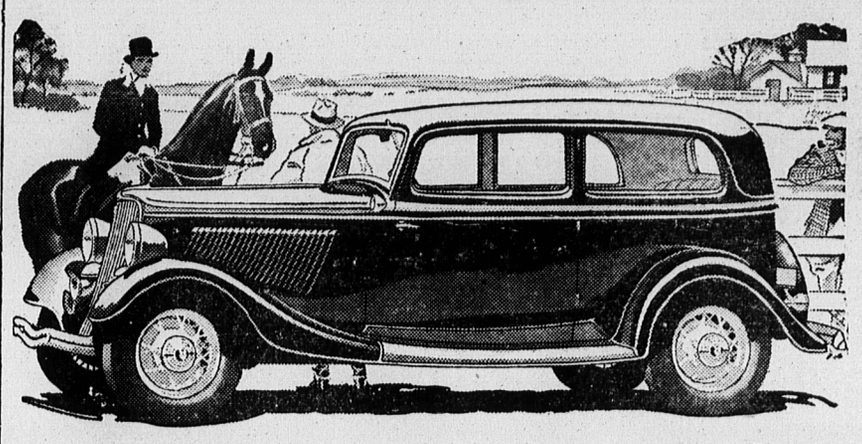
NARROW ESCAPE — While crossing the street near her home on Weymouth Street Wednesday, Sybil, the little daughter of Mr. and Mrs. John Power, was knocked down by a car and severely bruised but fortunately no bones were broken. The driver of the car, to whom no blame is attached, carried the little girl into her home when a doctor was immediately summoned.

LITERARY SOCIETY MEETING—The regular meeting of the Prince Street School Literary Society was held Thursday afternoon. Rev. E. H. Ramsay, D. D., who, on many previous occasions has addressed this society, again helped them spend a very profitable afternoon. Dr. Ramsay's subject was "Euripides," one of the great Greek dramatists. After giving a brief outline of the history and condition of Greece at the time Euripides lived, the lecturer spent a short time on a general survey of the Greek drama. Some of these dramas have been translated into English by such authors as Shelley, Browning, Potter and Gilbert Murray. Dr. Ramsay gave readings from the "Bacchae" of Euripides and also quoted from a commentary by Gilbert Murray on this drama. A vote of thanks to the speaker moved by Miss Jacqueline MacDonald and seconded by Miss Grace Douglas brought this part of the meeting to a close. A social hour was then enjoyed by all.

ONLY THE FORD V·8

gives you these outstanding features at a low price



Read what you would pay for Ford Quality in any other car

HERE, in black and white, are the reasons for the outstanding quality and leadership of the Ford V-8. Not opinions—not sales ballyhoo or mere words unsupported by evidence—but definite facts and figures. They prove, beyond shadow of a doubt, that the Ford V-8 is the greatest value ever offered in a motor car. If any other low-price car had these outstanding features it would cost you hundreds of dollars more than the Ford V-8.

V-type Eight-cylinder Engine—The Ford is the only low-price or medium-price car with a V-type eight-cylinder engine. All other cars with this type of engine sell from . . . . **$3715 to $6492**

Aluminum Cylinder Head—One reason why owners of the Ford V-8 report 20 to 25 miles per gallon. Gives more power and uses less gas. Only two other cars have all-aluminum cylinder heads as standard equipment. One sells for **$895** and the other for **$1170**

80 Horsepower—Only one other car, according to the rating of the Society of Automotive Engineers, has more horsepower per pound of weight than the Ford V-8. That sells for over **$7000**

Safety Glass—This is standard equipment throughout on all Ford De Luxe closed cars. Only one other car selling below $1000 gives you this added protection in driving. The others are priced from . **$1530 to $7625**

Torque-tube Drive—An important high-quality feature of the Ford V-8 and other fine cars. The other cars using it cost . . . . . **$1465 up**

Three-quarter Floating Axle—One manufacturer puts this axle in his high-price cars, but not in the low-price car. If you want to get it in any car but Ford you have to pay from . . . . . **$1905 to $7625**

Ford V·8 THE MODERN CAR $650 up (F. O. B. East Windsor Ontario. Bumpers, spare tire and taxes extra. Small down payment. Convenient terms.)

DIED IN CALGARY—Word has been received by Mrs. G. F. Dewar of the death of her brother-in-law, Colonel Dr. George MacDonald, of Calgary. The late Colonel MacDonald was a native of Scotland, and came to Renfrew, Ontario, several years ago. He graduated from McGill University in medicine in 1889 and after practising for a short time in Renfrew went to Calgary in 1890 where he remained until his death. He was a veteran of the Great War, and was buried with military honors. Colonel MacDonald visited Charlottetown on a number of occasions, and had many friends here who will regret to learn of his passing.

PERSONALS

Mrs. Ernest Cameron, Eversleigh, Hampton, who has been the guest of Mr. and Mrs. G. F. Hutcheson, returns home today.

Rev. G. Carlyle Webster and Mrs. Webster left yesterday morning for Toronto in response to a message stating that Mr. Webster's father is critically ill in the hospital in that city.

Miss Helen Hornby, R. N., returned to Baltimore yesterday morning after spending her holidays with her parents, J. J. and Mrs. Hornby, Hillsboro Square.

Miss Cecilia Campbell and her brother Lawrence returned Tuesday evening after having a most enjoyable time in Summerside, guests of Mrs. Capt. Basil Kelly, The Priory.

Where Do The Old Tires Go?

Have you ever wondered where the old automobile tire casings and inner tubes go? Argentina is seeking rubber scrap from Canada for the manufacture of soles from the rubber for cheaper grades of canvas shoes and the remaining portion of the fabric of tires for the manufacture of sleeves for blow-out patches, states the Industrial Department of the Canadian National Railways. Japan is also a large importer of old tires. The Japanese rubber industry had its inception about 1883 when a small rubber factory was established in Tokyo. Ebonite was manufactured in that country in 1892 followed by rubber balls five years later, bicycle tires in 1902 and rubber shoes in 1910. In the last decade the rubber industry in Japan has made an extraordinary advance, supplying practically the home demand for all sorts of rubber goods and, moreover, exports a fairly large volume of rubber products to all regions of the world, principally to Great Britain, the United States, British India, China, Dutch East India and Gwantung Province. An indication of the growth of the rubber industry in Japan may be gauged from the raw rubber imports, the main supplies of which come from the Straits Settlements and Dutch East India. In 1930 33,000 tons of raw rubber were imported into Japan and in 1932 this had increased to 57,000 metric tons.
