

SAFETY FIRST

Every wise man and woman who has money to invest should look first at the safety of any investment offered them. Large returns generally carry with them large elements of risk. We say GENERALLY, but understand that does not mean always, as in the case of the INTERPROVINCIAL COAL COMPANY, LIMITED, whose offer of one and one-half shares for the price of one, and added to that a guarantee of 25 p. c. each year for four years, carries with it the maximum amount of safety required of an investment.

Look upon this Company and its offer to you in any way, or from any side, and you cannot help admitting the truth of the above statement. Then, this being true, why hesitate?

WE OFFER YOU COAL AT 5c PER TON

Our capitalization is \$100,000. Our supply of coal is 2,000,000 tons. Exactly five cents per ton is what the Investor pays for it. It costs one dollar to mine it, and load it on the cars of the Canadian Pacific Railway at our mine. Can you see the profit to be made by selling same? These costs are so easily verified that it would be utterly useless to attempt to deceive you. Our competitors are not within 90c per ton, freight, as near our market as we are, and they are 600 feet to 1,000 feet in the ground, while our Coal is exactly 20 feet down—some difference when it comes to cost of production, and this is one of the essential things for the Investor to consider.

Marketing our coal is a small matter, as the coal is one of the best coals in the West and is admittedly superior to any soft coal in Prince Edward Island.

With the natural advantages our mine possesses, it lacks one—\$20,000 of its capital. To get this, we are offering you concessions such as are unheard of in the coal mining world; however, circumstances forces it, and we are doing it with a good-will.

When you think that you are offered \$30,000 worth of stock for \$20,000 in cash, and this stock represented by coal at 5c per ton and lying in the best situation regarding its markets and its mining that it can possibly lie in, and on top of that a guarantee of your money back in four years and still leave you with your original amount of stock, you must realize that we are in earnest that we believe, and not only believe, but we know whereof we speak, and we are willing to court the fullest investigation by your representative, or by anybody else. We need this money, and we need it in a hurry. The people of Prince Edward Island have it, and have it a thousand times over, and are not making any use of it—that is the exact money we are after, and we should get it. Do not think this matter over too long. Send in your subscription. Be in the first \$20,000, or you will get no concession whatever. Our experience has been that the moment the stock is all sold, there are hundreds of people wanting to buy it, who have thought the matter over just a little too long—do not let it be you this time. Send in your subscription today.

Send for prospectus and other information, or call at the office of

ENTHUSIASTIC WORK FOR BELGIAN SUFFERERS' RELIEF

(Continued from page one)

No man could for a single moment dare to loiter—if there were such a man, and there isn't—when he saw the cheerful and determined way in which the ladies set to work, and kept on working steadily and apparently untiringly, for hours on end. Why, it is a competition, a keen rivalry between the ladies and their sterner co-workers which will do the most work—and the ladies win every time! (Although the gentlemen, in fairness to them it must be said, do a vast deal.) Those ladies who are doing such excellent work are Mrs. George Hodgson, Mrs. James Eden, Mrs. L. M. Poole, Mrs. Bentley, Mrs. (Dr) Pethick, Miss Alice McKinnon, Miss Lois Hooper, Miss Hortense Phillips, Mrs. (Dr) Jenkins.

The work of Professor Barlow needs separate mention. He has lent very appreciable assistance to the Fund in supervising the preparation and re-fitting up of the cases for packing purposes; and nothing is too much for him to do. Among the workers who have done such considerable things, one unit must not be forgotten. He is the boy scout. Under the direction of Prof. Barlow a number of these youngsters, Edward Chandler, Warren Duchemin, Tommy Dewar, Bruce Carruthers, Freddie Large and W. Drake, have scoured the city on bicycle and on foot bringing in parcel after parcel to the Shed from contributors. Bruce Carruthers has done a considerable amount of work, and altogether the boys carried in, in one day, as many as three hundred parcels. This is splendid work.

Mr D. J. Riley, secretary-treasurer of the Belgian Relief Fund, has also done invaluable service, and a great deal of his time has been spent in procuring empty cases.

Among contributors, it might be worth mentioning that Mr J. H. Bell has given 40 pairs of boots, Hon. Charles Dalton 50 suits of new under-clothing, and Senator Murphy a good case of mixed clothing. Messrs Moore and McLeod have contributed several cases of clothing and have promised more, while Messrs Stanley Bros. have also made a magnificent donation. Mr Wm. Stanley, too, besides contributing, has rendered personal assistance in the way of packing, etc.

In order that some idea of the vast shipment that will be made about the 15th of the month may be gained, the following list of cases, with the nature of their varied contents, is given. It might be mentioned, to show how numerous have been the contributors, that it has been found absolutely impossible to attempt to acknowledge each individual donation, and it has been requested that this opportunity be taken publicly to thank all donors through the medium of the press. As Mr Tomlinson remarked, it would be impracticable to thank each giver personally, since "the whole Island has given."

List of Cases.

- No. of cases.
- 100. Blankets and men's underwear.
- 101. Underclothing and ladies' dresses.
- 102. Boys' and men's suits.

- 165. 54 Blankets.
- 166. 24 Pairs men's boots, 23 pairs children's boots.
- 167. 14 Pairs men's boots, 11 pairs women's, 75 men's caps.
- 168. 44 Pairs men's trousers, 48 vests, 12 suits.
- 169. 80 Women's skirts.
- 170. 130 Boys' caps.
- 171. 6 Ladies' short coats.
- 172. Miscellaneous children's case, 5 to 7 years.

COLD FEET.

During a marriage ceremony in Scotland recently the bridegroom looked extremely wretched, and he got so fidgety, standing first on one foot and then the other, that the "best man" decided he would find out what the trouble was.

"What's up, Jock?" he whispered. "Hae ye lost the ring?" "No," answered the unhappy one, with a woeful look, "the ring's safe 'nough, but man, I've lost my enthusiasm."

Is That All?

The lawyer was Scotch and the judge was English. The case in argument concerned certain water rights and the lawyer had frequently to use the word "water," which he pronounced broad.

"Mr. So-and-So," at last interrupted the judge. "Do you spell 'water' with two 't's' in your country?" "Na, na, my Lord," quickly retorted the lawyer, "but we spell 'manners' wi' two 'n's'!"
