GOOD SPORTS YESTERDAY DESPITE WEATHERMAN

Naval and Local Athletes Competed Under Intermittant Showers. There Was Good Sport and Lots of Fun.

Despite the bad behavior of the weather man the navy and local sports programme was bravely run off at the Abegweit Athletic grounds yesterday afternoon. The attendance was good and would no doubt have filled the grounds had the rain held off. The spectators, however, had more than their money's worth of good sport and entertainment. The funny men of the naval concert party were out in force, and contributed many good laughs during the course of the day. The track of course was in bad condition and affected the time made in the various events. Many of the naval sport features, such as the "bumping in sacks," "team boxing," "mop fight" and "whalers' crew race" were new to Charlottetown sport fans and provoked much merriment. Indeed it is a long time since such an enjoyable day's sport has been pulled off in this city. The local competitors and officials are loud in their praise of the splendid sportsmanship of the navy lads, with whom it was a pleasure to work. They on their part, entered wholeheartedly into the fun, evidently enjoying themselves.

Among the really fine exhibitions was the broad jump which was won by J. McEachern, the popular local athlete, with a jump of 21 ft. 1 inch. The other jumps also were remarkably good ones and would be deserving of credit had they been made under the most favorable conditions.

The team boxing by five teams of the Naval Squadron was a most exciting part of the programme. The young bluejackets "hoed into" each other with dynamic energy and battled so well on both sides that referee Frank Hennessey decided the team leaders would have to fight the decision out themselves—which they did amid roars of laughter.

Between showers the Caledonian Club (Pipe) band furnished their usual exhilerating music.

Following is a summary of the events:—

100 YARDS DASH OPEN
1st heat:—J. Doyle.
2nd heat—J. McEachern.
3rd heat—J. Wedlock.
4th heat—P. McDonald.
Final—McEachern, Doyle Mc Donald,
Time 10 3-5.

220 YARDS DASH OPEN
J. McEachern, J. Doyle, L. Campbell.
Time—24 1-4.

440 YARDS OPEN
H. Jamieson, G. Walker F. Kelly.
Time 60 seconds.

880 YARDS OPEN
H. Jamieson, G. Walker, F. Kelly
Time 2.14.

BROAD JUMP, OPEN
J. McEachern, 21 feet, 1 inch.
P. McDonald, 20 ft. 6 in.
A. F. Campbell, 19ft. 10 in.

RELAY RACE
1 team from Abbies. (Doyle, Jamieson, Walker, and McDonald) defeated 2 teams from Navy.
Time 4.30 seconds.

NAVY EVENTS
220 Yards Handicap
Wickenden, (Patriot).
Riley, (Aurora.)
Time 25 secs.

4 LEGGED RACE
Aurora Signallers, 1st.
Patriot team, 2nd.

BUMPING IN SACKS
Leading Stoker Smith's team.
P. O. Ward's team.

WHALER'S CREW RACE
P. O. Reeves team.

BOXING
P. O. Reeves team.

TUG O' WAR, (3 TEAMS)
Patrician team.

Judges Field Events—N. B. Prowse, T. Ranahan, S. F. Doyle, T. W. L. Prowse.
Timers—G. F. Hutcheson, Dr. H D. Johnson, Geo. Prowse.
Clerks of Course—Jas. Coyle, R. B. Brown, Ivan Reddin, J. A. MacEachern.
Announcer—Ed. Acorn.
Secretary of Meet—J. A. MacMillan.

CANADIAN FOUND IN CAVE

BAYFIELD, Wis., August 17—L. L. Shires, a Canadian spending the summer here, is in a hospital recovering from a 36-hour vigil in a stony, wave-beaten cave at Squaw Bay Point, one of the most desolate on Lake Superior, where he was marooned during a heavy storm.

Shiras was brought here by fishermen who found him clinging to his desolate haven exhausted and wearing only a shred of a bathing suit. His body had been badly bruised from forceful contact with sharp crags.

Prepared for death, Shiras had scratched this farewell message into the rocks, with a sharp piece of sandstone:

"Water cold. Lost canoe. Aug. 9. K. L. Shiras—finis. Love to all at home."

CONDENSED SPECIALS

STUDENT BOARLERS accommodated, 101 Fitzroy St.

WANTED.— Waitress APPLY Reddin Bros.

TO LET—Flat or rooms, 236 Grafton St.

ROOMS TO LET—Apply Sea View Hotel, Brackley Beach.

***WANTED TO RENT, COTTAGE** or tenement, centrally located, with all modern convenience. Apply to "G" Guardian.

$19,000,000 Contract

MONTREAL, Aug. 18.—The contract for the $9,000,000 hotel on the site of the old high school was awarded by the directors of the Mount Royal Hotel Company to the hompson Starrett Company of New York.

Premier Hughes Speaks

LONDON, Aug. 17—Speaking at a pubic gathering in his honor at Bradford, Premier Hughes of Australia, in making allusion to the words of a previous speaker regarding the overseas dominions remaining within the Empire offered the following comment:

"Did it ever occur to you that this is not a one-sided thing and that we now stand on a footing of absolute equality. The time has long gone by when you might have said 'we hope you will always remain members of the Empire'—meaning by that a greater market for your goods. On our side, we hope that you will always be a market for our goods, but whether you are or not, let me remind you that for the last twenty years we have given you a substantial preference in the markets of Australia, although at the same time we have had to fight desperately for a commercial foothold in the citadel of our race. And even now while you speak of Empire, do not forget that you good people of Bradford buy wool for your knitting mills wherever it best suits you. Let me tell you that in twenty years we shall be on your heels in textiles, and in fifty years we shall outstrip you."

RESEARCH IN RELATIVITY

LONDON, Aug. 17—The Royal Society has conferred its fellowship upon Doctor Alfred A. Robb for his work upon the question of relativity. Although Einstein is given every credit for his work, it is caimed that Dr. Robb anticipated the German scientist in many of the latter's conclusions. Dr. Robb had been interested in the subject of what is known as relativity since 1902, long before he ever heard of Einstein. For years he has been living a life almost of an intellectual hermit as a resident at Cambridge University, working out his theories of time and space.

Railway Brotherhood Are Granted Board

(Special to The Guardian.)

QUEBEC, Aug. 18.—In respect to an appeal from the five big railway brotherhoods in Canada the Minister of Labor at Ottawa has granted a board of conciliation to consider the reduction in wages recently made on Canadian lines. The brotherhoods have as their representative David Campbell, while the usual period of five days has been given in which the railway association may name its representative.

Beatty to Honor Unknown U.S. Dead

(Special to The Guardian.)

WASHINGTON, Aug. 18.—Information has been received here that Admiral Lord Beatty of the British navy will attend the ceremonies at the Arlington National Cemetery near Washington on November 11 in connection with the burial of the body of the unkown American soldier. Admiral Beatty has been invited by the American Legion to attend its convention at Kansas City in the autumn and while he has not accepted it formally, it is indicated that he intends to do so unless some unexpected development should make it necessary for him to remain in England.

November 11 will be the meeting day of the Washington conference on the Limitation of Armaments and Far Eastern Affairs and it is believed that Admiral Beatty will be the principal adviser on naval affairs to the British delegation, which Mr. Lloyd George is expected to head.

There are indications that Field-Marshal Earl Haig wil laccept the invitation of the American Legion to attend its convention and that he will be in Washington to participate in the ceremonies of the interment of the unknown soldier at Arlington. Nothing has been received here to lead to the belief that Marshal Haig's expected visit to America means that he will be the chief military adviser of the British delegation in the Washington conference.

Marshal Foch has already formally accepted the invitation of the American Legion and will be present at the burial of the unknown soldier. Although no information to that effect has come to Washington, it would cause no surprise if he should be delegated as the chief military adviser to Premier Briand and the other members of the French delegation to the washington conference.

Lodge Named for U. S. Delegation

WASHINGTON, Aug. 16.—Announcement was made at the White House today that Senator Henry Cabot Lodge had been chosen as one of the American delegation to the Disarmament Conference, to meet in Washington on November 11.

This was followed by speculation as whether Senator Philander C. Knox, of Pennsylvania, could be eliminated from appointment on the delegation. The opinion was general that Mr. Knox had not been dropped from consideration. While the understanding prevails in some quarters that the President has already tentatively chosen him as a delegate, there seems to be no certainty now that he would be called on for service. The expectation exists that Senator Oscar W. Underwood, of Alabama, will be the Democratic member of the delegation, although it is known that President Harding had had another Democratic senator in mind.

At the White House the explanation was made that delay in the selection of all the American delegates was due to the fact that the Powers which will participate in the agreement as to how many delegates should represent each.

In some quarters the feeling exists that the selection of Mr. Lodge will not be pleasing to the British and Japanese Governments, on account of his critical attitude toward, British and Japanese policies. Japanese writers have never forgotten his resolution declaring that the reported effort of Japanese interests to obtain concessions on Magdalena Bay, Mexico, was, if true, in violation of the Monroe Doctrine. His critical reference to England in his writings and speeches have given him the reputation in that country of being intensely anti-British.

France Accepts

PARIS, Aug. 17.—Premier Briand this evening handed Myron T. Herrick, the United States Ambassador, France's acceptance of the official invitation of President Harding to the conference on disarmament and Far Eastern questions to be held in Washington. In his formal acceptance M. Briand again indicated that he intended to attend the conference in person.

$125 SPECIAL PRIZE PHONOLA FOR SOMEONE

Grand Extra Prize Purchased from Holman's Ltd., Summerside, Will be Awarded for Best Work this Week and Next Week.

Last Week of Extra Points

Mr. Subscriber---Pay Your Subscription Today and Help Your Favorite Candidate. Your Subscription Next Week Earns Less Points. Do It Now.

Mr. Subscriber:—You have only another week in which to help your favorite candidate win an Automobile. You have undoubtedly promised to pay your subscription to some one. Why not pay it today? Send your subscription direct to the office naming the candidate you wish to credit the points to, or send it direct to your favorite candidate. **But do it now.**

One more day and the race for the Special Prize, "$125 Phonola will be ended. One more day and the opportunity to secure 50,000 EXTRA Points on $20.00 clubs will be ended. One more day and a reduction of 10 p. c. in the point earning power of subscriptions will come into effect. Candidates should make every effort to secure every available subscription during this week. There will positively be no more EXTRA Point Offers given in the Competition. This is the last chance so make the most of it. Candidates living away frrm Charlottetown will have until 10 o'clock Monday morning as usual to mail their subscriptions.

A brand new $1,640 Gray Dort Special Touring Car is the prize awaiting the candidate who secures the highest total of points in the Guardian's Great Competition. The race for this Grand Prize promises to be very close, and candidates should not neglect a single opportunity to get the points. The 3rd Grand Prize is a $500 Sherlock-Manning Piano, the 4th Grand Prize is a $140. Symphonola, and many other splendid prizes will be awarded and all candidates who continue actively in the competition to the close will receive a cash commission of 10 p. c. if they do not win one of the regular prizes.

It is up to you Mr. or Miss Candidate. It depends entirely upon yourself as to what share of the Great Awards will be yours. Seven more working days of the Competition remain. Aim at a certain mark and make up your mind to hit it. HUSTLE, HUSTLE, HUSTLE.

An Aerial Trip of 5,000 Miles

EDMONTON, Aug. 18.—Two U. S. airmen, C. O. Prest and L. M. Bach, of Los Vegas, Nevada, arrived here on an aerial trip of nearly 5000 files. They left Venice, Cal., three weeks ago and are making th journp from the Mexican line to Seyerha, via Edmonton, Jasper, Fort George, Hazelton, Telegraph Creek, Dawson and Nome, from where they will fly acros sthe straits into Russian territory, returning again by practicaly the same route. The total length of the journey amounts to 4,688 miles much of which will be over territory never heretofore flown over.

Less Labor Strikes

(Special to The Guardian.)

OTTAWA, Aug. 18—The loss of time on account of industrial disputes during July was less than during either June, 1921 or July, 1920, says the August Labor Gazette. There were in existence at some time or other during the month 32 strikes, involving 7,662 work-people and resulting in an estimated time loss of 103,554 working days in June, 1921 and 59 strikes, 10,016 work people, and 137,841 working days in July, 1920.

MOSAIC LAW HALTS CIVIC ELECTIONS

MONTREAL, Aug. 17—In order to enable the Jewish electors of Montreal to exercise the franchise, it is now proposed to postpone the holding of the municipal elections one day. This very unusual circumstance was annunced by Mayor Martin at the meeting of the City Council yesterday and it was later confirmed by Ald. Jacobs.

The representative of St. Louis ward noticed that the date of the elections of the new City Council, as fixed by the Legislature, was October 17. At that time, however, it had not been realized that this was the date of a very important Jewish holy day, it being the commencement of the Feast of Weeks. He had personally taken up the matter with Mayor Martin, who had promised to do all he could, to permit the Jewish electors of this city to exercise their franchise as citizens, and the reason was that October 17 being a Jewish holy day ranking with the Sabbath, it would prevent the Orthodox Jews from voting. Mr. Peter Bercovitch, M.L.A., had submitted the matter to Premier Taschereau, and it was first thought the Provincial Government might by order-in-council change the date of the municipal elections. However, this idea wsa abandoned, as it was found that to do this would require the apprval of a special session of the Legislature.

By Airplane to North Pole

VANCOUVER, Aug. 18.—The North Pole may be discovered by airplane. Capt. Ronald Amundsen, addressing the Canadian Club here, said that when he embarked on his fourth expedition to reach the extreme notherly point on the globe two airplanes and a complete wireless outfit would form part of his equipment. The airplanes, he stated would be used extensively, especially in necessary scouting work. They would be equipped with sleds instead of wheels.

Pythian Sisters In Convention Here

Although the Pythian Sisters did not figure very prominently in the press reports of the Knight's functions, they are none the less a most important branch of the Order. There is no sister lodge in Charlottetown but it is expected that from the inspiration engendered by the recent sessions the city will not much longer be without its lodge of Sisters. In fact a move is already on foot which it is expected will result in the organization at an early date of a temple of Pythian Sisters.

At the recent convention there were about sixty sisters present representing the different temples of Nova Scotia and New Brunswick. They held three sessions and transacted much business of interest to the Order. They also participated in the various functions in which their brethren, the Knights took part.

An impressive memorial service was held by the Sisters on Tuesday afternoon in memory of eleven sisters and Knights who had passed away during the last year.

The total membership of the Sisters in the Maritime Provinces is 1065. There are also 501 Knights connected with the Sisters Temple.

At the meeting on Tuesday morning the Grand Degree was conferred on nine candidates and the following officers were elected: Past Grand Chief, Lilith Johnston, St. Andrews, N. B., Grand Chief, Elizabeth McKenzie, Westville, N.S., Grand Senior Jennie Southard, St. Stephen, N.B., Grand Junior, Loretta Mason, New Glasgow, N.S.; Grand Manager, Margaret Warden, New Glasgow, N.S.; Grand Protector, Mary Tricartin, Grand Manan, N.B.; Grand Guard, Thurza Grey, Westville, N.S.; Grand Mistress of Records and Correspondence, Emma Campbell, Westville, N.S.; Grand Mistress of Finance, Laura Smith, Springhill, N.S.; Grand Trustees, May Purdy, Waterford, N.S.; Margaret Murray, Amherst, and Bessie Mills, Advocate, N.S.; Grand Press Correspondent, Ella Sutherland, Amherst, N.S.; Supreme Senior Representative, Georgie Pauley, St. Stephen, N.B.; Junior, Alma Foster, Woodstock, N.B.; Senior Alternate, Ida White, Amherst, N. S.; Junior, Ada Parker, New Glasgow, N.S.

The Sisters were greatly delighted with their visit and express the keenest appreciation of the kindness and attention shown them by the Kights and citizens of Charlottetown.

Minister Died from Car Accident Injuries

MOOSEJAW, Aug. 18.—Rev. R. P. Read, pastor of Minto Avenue Presbpterian church, who sustained a fractured skull in a motor acicdent North of the city Wednesday afternoon, died in the General Hospital this morning. Rev. Mr. Read came to Moosejaw from St. John, New Brunswick, ten years ago.

Flying to Halifax For Big Manoeuvers

OTTAWA, Aug. 18.—Col Robert Leckie, flying an F 3 flying boat from Ottawa to Halifax, covered the first leg of the journey, 466 miles, in a little over four hours. The big boat is being flown to Halifax for use in the combined Military, Naval and Air Force manoeuvers there next week with Col. Leckie as Wing Commander and J. S. Scott, O. C. Canadian Air Force and a crew of mechanics. Col. Leckie is piloting the boat.

False Rumor Regarding British Trade Promotion

MONTREAL, Aug. 18.—The Star today said it had learned that there is no foundation for the impression created by the announcement that, insufficient money being availalbe for the office, the British Government has decided to retire from the field of trade promotion in Canada as a sequel to the resignation of Captain Edwards who has been senior Canada Trade Commissioner here. His place will be taken by Mr. Milne who was his predecessor and is now in the south.

Hon. H. Guthrie Returns

QUEBEC, Aug. 18.—The Empress of Britain arrived from Liverpool yesterday afternoon with 626 passengers. Though delayed somewhat by fog she made a fast passage, having left Liverpool Thursday night. Among the prominent passengers on board the Empress were Sir Herbert Holt, of Montreal, and W. C. Holt, Jr.; the Right Hon. L. P. Duff, Hon. Hugh Guthrie, Canadian Minister of Militia and Defence and his family.

Acadians Send Greeting To Governor General

HALIFAX, N. S., Aug. 17—"The Acadian people, assembled in solemn national congress, with representatives from all parts of Canada, beg you to convey to His Majesty King George V their sentiments of loyalty to him and their appreciation of your appointment as viceroy to his greatest commonwealth." This message was adopted at Church Point today by the assembly of over two thousand Acadians who have gathered there today, and has been forwarded to Baron Byng, governor-general of Canada.

The congress opened this morning with a procession of clery and delegates to the church for pontifical high mass sung by Bishop LeBlanc of St John. Pontifical blessing was read in a message from the Holy Father. Bishop Chaisson preached the sermon.

Of the delegations here, two hundred arrived this morning from St. John.

At 10 a. m. the Ave Maris Stella was sung and the congress was formally opened. This afternoon there were addresses by Rt. Rev. Mgr. Belliveau, of Grand Digue(N. B.), Henry D'Arles, Hon. P. J. Veniot, Justice Adjutor Rivard, Dr A. Sormany, of Shediac (N. B.), and college presidents.

The prevailing theme of the many addresses was the expression of a desire for more general instruction of Acadians in the French language and an appeal for the preservation of racial identity by a steadfast adherence to the faith of their fathers—withal a patriotic trumpet call.

Hon. J. W. Comeau, M. P. P., representing Premier G. H. Murray, of Nova Scotia; Guy Vanier, of Montreal, president of the Association of Young Canadian Catholics and other brilliant orators spoke in French.

A message from the Pope to the congress in reply to a cable from Bishop Chaisson, of Chatham, N. B., pronounced a blessing on the gathering. It read: "The Holy Father thanks the Acadians assembled at Church Point, Nova Scotia, for submission homages and respectful attachments and sends them the apostolic benediction."

At the conclusion of the afternoon's sitting the congress broke up into committees for discussion of colonization, education, and particularly agricultural training, and kindred matters.

INTERESTING VOYAGE TO BELLE ISLE STRAIT

Lighthouse Inspector Prowse and Mr. Percy Pope Tell of Interesting Voyage to Belle Isle and Other Northern Points. A Stormy but Enjoyable Trip.

The D.G.S. Montcalm arrived in port yesterday morning after a voyage of a little over a month on a lighthouse inspection trip to Belle Isle, Labrador and the west coast of Newfoundland. She left Charlottetown on July 17th with Mr. W. H. Prowse, Lighthouse Inspector, and Mr. Clowson, Engineer in charge of lighthouse construction, on board. There were two gangs of artisans, laborers, carpenters, etc., also on board leaving here. These men were engaged in building a residence at Cape Bauld and an addition to the fog alarm on South West Belle Isle and were left at these points. Mr. Percy Pope was also of the party as a passenger.

The voyage was a particularly stormy one and heavy winds and gales were encountered. A gale about the 6th of August was the heaviest experienced in the last fifty years, many of the fishermen along the Newfoundland and Labrador coasts losing their traps. The jetty on South West Belle Isle was swept away and the Montcalm was obliged to erect a temporary one in order to land her stores. The fishing at Cape Bauld, Newfoundland and at Belle Isle was particularly good but in the southern sections was, up to that time, almost a failure. As a consequence fishermen there will be reduced to great straits to sustain life during the winter as, owing to the fact that there is a poor market for fish and the Newfoundland government has imposed very heavy duties, the trading schooners on which these people depend for their supplies of flour and potatoes did not put in an appearance this year.

In this connection it is interesting to note that Dr. W. T. Grenfell, who came into Kirpon while the Montcalm was there for shelter, is anxious to get a cargo of potatoes, cabbage and other vegetables from Prince Edward Island, to call at Flowers Cove, Forteau and St. Anthony. These he would sell to fishermen at cost or in cases of extreme need would distribute gratuitously. Dr. Grenfell requested Mr. Pope to take this matter up with dealers here and ascertain whether these supplies could be obtained. Dr. Grenfell will arrange to have a schooner sent here and will be personally responsible for the purchase.

Notwithstanding the bad weather the trip was in all respects a successful one. The Montcalm or some other vessel will have to go over the same route in the immediate future with further supplies to bring back the construction crews. The temperature during the trip varied between 36 and 60 but one would have to experience it to realize the tonic properties of the air in these latitudes. In the upper part of the Strait of Belle Isle, the shore is composed of rugged rocks rising in some places to a height of over 2,000 feet. Bonne Baie is probably the most picturesque harbor to be found in North America, excepting perhaps some of the fjords in Northern Labrador, which Dr. Grenfell describes as being inconceivably grand, the cliffs there rising over 4,000 feet.

Trout and salmon are to be found in all the larger rivers. Those who are aware of this fact are visiting these streams in increasing numbers and it is only a question of time until larger numbers will make these the scene of their summer outings.

The Newfoundland government in order to assist the people of that district in their distress is building a motor road from Boone Baie to connect with the nearest point on the Reid Newfoundland Railway. This will open at that section of the country which at present can only be reached by water.

In addition to those mentioned above Mr. T. Delaney and his daughter were passengers, having joined the Montcalm at Quebec. The party were in every way a most congenial one and the voyage, though at times rough, was a most enjoyable one.

Thirty-five Suspects In McAuley Case

ST. JOHN, Aug. 18—Sergeant Detective Power said last night that his department had apprehended no less than thirty-five suspects since the body of the little McAuley girl was discovered nine days ago, but that every one of these had either been viewed by some of the children who saw the murderer or were able to prove a clear alibi. He said that the rumors which his department had run down were too numerous to mention but so far these had proved of little value. He also said that the trip to Oak Point yesterday morning had not been productive of any result.

The suspect arrested on Monday at Wolfville was taken on Tuesday to Berwick, where he is being detained until his photograph, which is expected here this morning, has been inspected by the little girls. This man claims that he can prove that he was in Halifax on the day on which the murder took place.

Billy McNeill was arrested at his home at East Point, Prince Edward Island, on Tuesday and was placed at once in the jail at Souris. This arrest was ordered by the attorney-general of that province acting upon information which he received from Chief D. A. Morrison, of Pictou. McNeill, when arrested, was dressed in civilian clothes and denied that he ever wore khaki or any part of a uniform and said that he had never been any farther west than Truro.

When asked if he had not crossed from Pictou to Souris on a steamer, McNeill said that he and a chum had crossed in a schooner. The purser of the steamer, R. W. Hendry, said that the fare of McNeill and his chum had been paid by a friend and that he distinctly remembers that the accused wore a pair of khaki trousers, dark coat and peaked hat on that day. The photograph of this man has been forwarded to this city.

The province of New Brunswick offered a reward yesterday morning of $500, in addition to the $500 already offered by the city, for the arrest and conviction of the murderer.

Customs Official Dead

(Special to The Guardian.)

OTTAWA, Aug. 18.—Mr. John F. Lanigan, chief of the seizures branch of the Department of Customs, died last night in his forty-ninth year after a short illness.

Not So Bad Off In Old England Yet

QUEBEC, Aug. 18.—Rev. Canon W. H. Carnegie, the padre of the British House of Commons and Canon of Westminster Abbey, arrived here in the Empress of Britain on a tour in search of health. Canon Cernegie in an interview declared things were not so bad in England as regards industrial and social conditions as reports which have come to this country would indicate. He confessed industrial conditions at home at present as good as could reasonably be expected. Taxes of course were frightful and particularly harsh on the man of moderate income, but the people were not so hard up as they were made to appear. The labor classes were certainly earning more and were living under better conditions than ever before.

THE WEATHER TEMPERATUR TIDE, MOON, ETC

Toronto, Aug. 18.—Fresh to strong north westerly winds, decreasing and becoming variable by Saturday. A few scatterd showers, in eastern localities, at first fair, with about the same temperature elsewhere.

The tide will be high this morning at 11.02.

The sun sets this evening at 7.04, and rises tomorrow morning at 5.05.

Noozie the Sunshine Kid
