Daring Burglaries Continue in Ontario

(Special to The Guardian.)

ST. THOMAS, Ont., August 5.—The epidemic of daring hold-ups and burlaries continues in this district. Early this morning three armed bandits visited the home of Albert Oliver, a well-to-do hide merchant of Springfield, and holding up Mr. Oliver and his wife and little neice at the point of revolvers, searched the house from cellar to garrett, stealing $81 and threatening to burn Mr. Oliver's buildings if he raised an alarm. The same methods were pursued as in the case of the three similar burglaries committed in Yarmouth township last week. The robbers introduced themselves to Mr. Oliver by stating that they were belated travellers and had some hides to sell. The two telephones in his home were disconnected and other precautions taken. Unlike last week, the bandits were unmasked. This morning their first demand was for whisky.

(Special to The Guardian.)

The inspectors said the car contained a case of French wine, eight quarts and sixteen pints of whiskey, two bundles of cloth, and two motion picture films. The horses, Slippery Elm, Irish Wilfex, Tom Cassidy, Mark West, Pony Bill, Ultra, Gold Morrell and Benevolent were enroute to Saratgoa.

Conflicting Reports Of Irish Situation

LONDON, Aug. 5.— Extreme reticence is still observed to the Irish negotiations. From a number of conflicting reports today the only definite fact emerging is that the Dail Eidreann has been summoned to meet on August 16, but whether to register the success of failure of the negotiations there is no hint.

It is supposed that this long notice is given in order to afford the time necessary for the formalities for the liberation of the imprisoned members of the Irish republican parliament, to whom notification of the meeting has been sent.

It is known that there have been parleys between Dublin and Belfast with a view to ascertaining the minimum Ulster is disposed to accept, and, despite adverse rumors, the belief continues here that it is in the interest of the government itself to prevent the breakdown of the negotiations, and that therefore any influence the government itself to prevent the break- Ulster cabinet will be in the direction of reconciliation between the north and the south.

The situation took a sensational turn today when it was announced in Dublin that De Valera and his associates had decided to summon a full meeting of the republican parliament.

It has been repeatedly stated in Dublin that the Dail Eireann would not be summoned until Ulster's attitude had been learned but coincident with the calling of a meeting of this body, come conflicting reports from Dublin and Belfast concerning Ulster's position.

In Dublin it is reported that Ulster has been sounded and has returned an answer unfavoable to the Sinn Fein overtures while in Belfast, after an important meeting of the cabinet, it was authoritatively said that the Ulster ministry had received no communication from Mr. De Valera.

While these reports at first glance seem irreconcilable, it is pointed out that possibly both may be correct. The fact that the Ulster cabinet itself has not received a communication, would not, it is noted, preclude the possibility of an informal discussion between the northern and southern leaders.

A despatch to the Evening News from Belfast today asserts that the Ulster cabinet at this morning's meeting discussed an invitation from the Dail Eireann to Sir James Craig, the Ulster premier, asking him to attend a conference in Dublin, with a view to dertermining Ulster's attitude.

It adds that there is no possibility, however, of another meeting between Sir James and Mr. De Valera in Dublin, although the Ulster premier is willing to meet the Republican leader with Mr. Lloyd George in London.

Out of these conflicting reports, however, arises the outstanding fact that the republican parliament is to meet, which is taken to mean undoubtedly that Mr. De Valera will give a reply to Mr. Lloyd George in the immediate future.

Official quarters in London know of no communications having been passed between Mr. De Valera and the northern cabinet, but it was understood from another source that Mr. Lloyd George, after conferring with Sir James in London this week, sent a message to Mr De Valera which might account for the calling of the Dail.

The British cabinet already has reached a decision regarding the release of members of the Dail imprisoned or in detention camps and it is understood that Dublin Castle is free to release them as it thinks fit.

Members who have been on the run are understood to have returned to their homes in order that they may receive their summons.

ALLEGED OFFER OF RAISULI OF SPAIN

MADRID, Aug 4.— Rasuli, former outlaw leader and chieftan of rebelious tribesmen in Morocco, is reported to have made an offer to Spain to pacify the entire Spanish zone of Morocco on condition that the be appointed caiph and sultan of the territory in question.

There have been reports that the town of Mador, south of Melilla, was evacuated by Spain's troops and occupied by Morrocan, but it is declared in official circles that there is no confirmation of these rumors.

An official statement issued last night, declares fires continue at Mador. The Moors are again bombarding Mount Arruit, where General Navarro and a considerable body of Spanish troops have been surrounded by the tribesmen. General Navarro is said to have sent word to his superior officers that he hopes to defend his position if reinforcements arrive without delay. Kasba and Zeluan, two towns in the battlezone, are reported to be burning, and heavy rebel forces are reported near Mador.

Hoards of Grasshoppers Ate Everything in Sight Then Suicided

(Special to The Guardian.)

NEW YORK, Aug. 5.—New York agriculturalists advanced the suicide theory in connection with the discovery today of hundreds of thousands of dead grasshoppers floating down the St. Lawrence River.

They explained that like Napoleonic cavalry, these insects never turned back.

Scientists believe that having eaten everything behind them the hoard approached the river, failed to negotiate the broad jump, and plunged ahead to their death.

This is the largest flow of gas in any well in Canada. Every effort is being made to cap the well and separate the oil from the gas.

Still dazed by the tragic affair the spectators later gradually dispersed and then the organizers of the race meet announced all further event cancelled.

Tramp Foiled Plot To Dynamite Works

(Special to The Guardian.)

DETROIT, Mich., Aug. 5.—What is believed to have been an attempt by gangsters to wreck the Ford blast furnaces at River Rouge with dynamite was frustrated by the fears of a tramp for violence and quick response of Springwell's Police Department to his appeals. The gangsters escaped, and up to this evening police and county authorities failed to locate them. Seven large sticks of dynamite, weighing 15 pounds, were abandoned by the plotters in their hurry to escape. The explosive, if properly placed, would have caused havoc and a huge amount of damage to the plant.

The tramp, whose name the police do not wish to reveal, was sleeping on a pile of railroad ties near the furnaces at the Miller Road at 11 o'clock Sunday night, when three men, well dressed and confident, stopped alongside the ties and bega na discussion as to the best ways of getting into the plant.

They talked among themselves for some time, the tramp said, concerning the job. At length one became impatient and asked: "Have you got the caps?" The answer was: "Yes, we're all set." Frightened, the tramp attempted to make his getaway, but was heard by the plotters and chased over the field almost to Springwells police station, there he told his story and officers went to the scene. The plotters had disappeared, but in their haste they abandoned the seven sticks of dynamite. It was the regulation explosive, wrapped in oil paper.

Authorities are of the belief that other explosives were taken away by the plotters.

Empire Teachers Will Meet in Toronto

(Special to The Guardian.)

TORONTO, Aug. 5.—The first Empire teachers' convention to be held out of England will take place in Toronto next week, beginning on the 10th August and continuing three days. It is the third convention of the Imperial Education Association, which is a part of the League of Empire. Hurons and Iroquois Bury the Hatchet

PENETANG, Ont., Aug. 4.—With a reconciliation between the supreme chiefs of those hereditary foes, the Hurons and the Iroquois, the Penetanguishene tercentenary yesterday reached a dramatic climax. Two hundred and seventy-one years ago the vanquished Hurons left the fertile shores of historic Huronia in search of refuge from the onslaughts from furious Iroquois. Yesterday the present tribal head of the remnant of that once powerful Huron nation returned to the domain of his ancestors to puff the pipe of peace with the present chief of the nation that was once the terror of the whole of the eastern portion of the continent. Together the two buried the hatchet, a sign that the past had been forgotten and that peace had at last been established between the two peoples.

The Levine girl ran home not waiting to see whether her little chum went with the man or not, and since then no trace of the missing girl has been found. The detectives and about forty men, and boys searched the neighborhood in the Memorial Park, Douglas Ave, without avail.

Then, the men turned their attention to the river, which is full of logs, and quite shallow, immediately in rear of the park, but again they were without success. The detectives are at a total loss as to what became of the girl, but they believe she could not have been drowned, as the water is very shallow.
