SUMMARY

By THE CANADIAN PRESS

Toronto: Market narrowly lower in sluggish trading.

New York: Market lower profit-taking.

Montreal: Market down; trading light.

CURRENCIES

MONTREAL (CP) — The U.S. dollar Friday closed at a discount of 15-16 per cent in term of Canadian funds, down 1-16. Pound sterling $2.69, down ¼.

TORONTO

TORONTO (CP) — The stock market drifted over Friday amid the slowest trading in eight sessions. Profit - taking was the main reason behind the narrow decline.

The western oil index lost 1¼ points and industrials eased slightly more than 1¼ points. Golds and base metals each lost a bit more than three-quarters of a point.

Trading slowed down in the afternoon as the number of bargain hunters, cashing in on their profits from Wednesday's big rise, diminished. In the final few minutes there was some buying.

Industrial losses ranged to nearly two points and most of the losers were the issues which scored the major gains Wednesday. Refining oils, steels and banks were among the prominent losers. Most gains were fractional.

A few small gains appeared in the western oil list late in the session but losses held a two-to-one edge at the close. Canada Southern, off 40 cents to $4.10, Security, down 35 cents to $4.35, and Conoolidated West Pete, off 25 cents to $4, were the bigger losers. Senior issues lost fractions.

Copper stocks suffered moderate declines in the mining list but most of these turned over small volumes. There were a few 15-20 cent winners among lower-priced issues. Senior base metals lost fractions.

Index losses: Industrials 1.32 to 401.85; golds .52 to 69.90; base metals .81 to 149.11; western oils 1.53 to 132.77.

SPUTNIK

ECORDED SOUNDS PRESENT POSITION

SPUTNIK TRACKER

This Sputnik tracker, examined by F. J. Osborne and Jo Haynes, is the most timely of the many electronic devices on display at the Institute of Radio Engineers convention. It is based on the simple fact that the earth revolves once every 24 hours and the Russian satellite circles the globe once every 96 minutes. Research physicists of Canada Marconi Co. constructed the tracker by using a scaled globe of the earth, precision gearings, electric motors, a small arm with flashlight bulb on the end of it to represent Sputnik and some exact radio bearings made last week on the satellite's position. On Oct. 16, the device calculated exactly the position of Sputnik over Toronto.

NEW YORK

NEW YORK (AP) — The stock market settled back gently Friday in a timely adjustment to the wild downward and upward swings o prior sessions this week.

Moderate losses taken by leading stocks Friday put the average

back to exactly where it closed last Friday.

Key issues showed losses running from fractions to a point or so for the most part. There was a scattering of small gainers.

On average, closing prices were well above their lows of the day.

News that the air force Far Side missile soared more than 4,000 miles helped Thiokol, supplier of the rocket power, up 2½ to 63⅞ on the American Stock Exchange. But it did little for Ford, the prime contractor, which lost ⅝ on the big board.

The Associated Press average of 60 stocks dipped 50 cents to $156.70 with the industrials down 90 cents, the rails down 80 cents and the utilities unchanged.

Of the 16 most active stocks, 13 declined, mostly by small fractions, one advanced and two were unchanged.

Chrysler was most active, off 1⅝ at 69⅝ on 42,700 shares. Second was Bethlehem steel, off ⅝ at 40⅝ on 42,500 shares. Third was North American Aviation, off ¼ at 22¾, on 37,300.

Distillers-Seagrams and Dome Mines, each up ⅛, were among the few Canadian gainers on the New York exchange. Lower were McIntyre Porcupine, off 1 on 300 shares. Hudson Bay Mining, ⅝, and Aluminium Ltd., ½.

Among Canadian issues on the American exchange Sapphire Petroleums resisted the downward 1.11¼ unit.

trend with a gain of 1-16 on 31,700 shares. Jupiter Oils lost 5-16 on 4,800 shares and Preston East Dome was down ⅛.

AN IMPORTANT NOTICE TO TELEVISION VIEWERS

There will be an adjustment of programming hours on the Maritime Television Network effective October 27.

Those programs presently seen Monday through Friday from 8:00 p.m. to 11:00 p.m. will be seen 9:00 to 12:00 midnight; those seen Saturday from 5:00 p.m. to 11:30 p.m. will be seen 6:00 p.m. to 12:30 a.m.; and those seen Sunday from 1:00 p.m. to 11:00 p.m. will be seen 2:00 p.m. to 12:00 midnight.

The change in program hours is being made now in preparation for the day in early 1958 when the Maritime Network joins the inland connected network and all programs originating outside the Maritimes come to viewers as they actually take place. At that time (because of Time Zone differences) these programs would be seen in the Maritimes one hour later than at present.

Through the physical link will not be achieved for several months, the change is being made as the fall and winter schedule is set up so that programs will have an uninterrupted viewing period throughout the season; and because commercial contracts for the complete season are being negotiated at this time. This arrangement will also allow an extra hour Monday through Friday from 8:00 to 9:00 for placing local and regional shows.
