NEW YORK

NEW YORK (AP)—The stock market drove to highs today in heavy trading. It was the sixth straight day in which some or all of the popular averages climbed to peaks.

Volume was 8900,000 shares compared with 7,730,000 Monday.

The Dow Jones industrial average rose 1.44 to a record 985.85, putting this closely-watched barometer barely more than one per cent below the mythical goal of Dow 1,000.

The ticker tape ran as much as five minutes late at times, piled up by big blocks. The shortening of the session to four hours made it seem urgent to many traders and investors to try to crowd a full day's business into the abbreviated trading day.

COPPERS STRONG

Airlines, electronics, coppers, rails, office equipments and specially - situated issues were strong. Steels were soft although steel production was up sharply.

Three of the five leading auto stocks declined Studebaker was unchanged and Chrysler gained ¼.

The Associated Press average of 60 stocks took off from Monday's high and advanced .7 to 365.9.

Standard and Poor's 500-stock index made another record as it rose .08 to 93.41.

Color television issues were especially strong among the electronics.

Strong among Canadians were International Nickel, Canadian Pacific and Aluminium Ltd.

Prices were generally higher on the American Stock Exchange. Changes in Canadian stocks were in small fractions.
